Acoustical Imaging J.P. Jones,2012-12-06 This volume represents the proceedings of the 21 st International Symposium on Acoustical Imaging, which was held at the Surf and Sand Hotel in Laguna Beach, California, March 28-30, 1994. These unique and highly interdisciplinary series of symposiums have met at intervals of roughly 18 months over the past 30 some years. In general these meetings are devoted to all aspects and all fields of imaging that use acoustics. The meetings are usually small, with 100 to 200 participants, and stimulate useful interchanges across disciplines. These are the only regular meetings where the major researchers in all areas of acoustical imaging can come together to interchange ideas and new concepts. The Acoustical Imaging Symposiums have long been regarded as the premier meeting of this type in the general field of acoustics. The highly regarded and carefully edited proceedings have been published regularly by Plenum Press. I am proud and honored to serve as editor of the 21st volume in this series. The 21st Symposium was attended by well over 100 participants from some 18 countries. During the three day symposium, 94 scientific presentations were given, 66 as formal lectures and 28 in a poster format. Sufficient time was available during the conference, both following the presentations and informally during meals and breaks, for active discussions among all participants. Over 80 of the presentations have been selected for inclusion in these proceedings.

Transnational Civil Society in Asia Simon Avenell,Akihiro Ogawa,2021-07-22 This edited volume addresses how transnational interactions among civil society actors in Asia and its sub-regions are helping to strengthen common democratic values and transform dominant processes of policymaking and corporate capitalism in the region. The contributors conceive of transnational civil society networks as constructive vehicles for both informing and persuading governments and businesses to adopt, modify, or abandon certain policies or positions. This volume investigates the role of such networks through a range of interdisciplinary approaches, bringing together case studies on Asian transnationalism from South, Southeast, and Northeast Asia across four key themes: local transformations and connections, diaspora politics, cross-regional initiatives and networks, and global actors and influences. Chapters demonstrate how transnational civil society is connecting people in local communities across Asia, in parallel to ongoing tensions between nation-states and civil society. By highlighting the grassroots regionalization emerging from ever-intensifying information exchange between civil society actors across borders – as well as concrete transnational initiatives uniting actors across Asia – the volume advances the intellectual mandate of redefining ‘Asia’ as a dynamic and interconnected formation. Transnational Civil Society in Asia will appeal to students and scholars of international relations, politics

and Asian studies more broadly.

The Educational Leader's Guide to Improvement Science Robert Crow,Brandi Nicole Hinnant-Crawford,Dean T. Spaulding,2019-05-23 The Educational Leader's Guide to Improvement Science: Data, Design and Cases for Reflection is a collection illustrating applied organizational problem-solving using methods of improvement science in educational leadership. Early chapters introduce improvement science and then the reader is led through a logical sequence of inquiry, presented with cases of educational dilemma matched with principles of improvement science and provided examples of research methodology applied in context. Because improvement science research is so quickly becoming a signature pedagogy and core subject area of inquiry in the field of educational leadership, the literature is still scant in its coverage of improvement science models; it is the purpose of this publication to fill the void by providing concrete examples, through case studies, of instances where improvement research methods and analyses can be embedded to enhance and strengthen efforts at organizational improvement. This text concentrates on the elements faculty, students, and administrators need; specific models where improvement science frameworks enhance the reliability and validity of improvement or quality enhancement efforts. Perfect for courses such as: Introduction to Improvement Science, Seminar/Practicum in Educational Leadership, Introduction to Program Evaluation, Educational Research for Administrators, Action Research for School Practitioners, Educational Research, School Improvement, and Teacher Leadership.

Kompakt-Wörterbuch KFZ-Technik Ingo Stüben,2022-10-17 Dieses Wörterbuch dient zur Erleichterung der Arbeit für den Personenkreis, der mit englischen bzw. deutschen Fachausdrücken aus dem Bereich der KFZ-Technik konfrontiert wird. Falls nötig, werden zu den einzelnen Begriffen Hintergrundinformationen, Beispiele sowie umgangssprachliche

Hinweise geliefert. Als zusätzliche Informationsebene sind nach Gruppen aufgeteilte schematische Darstellungen integriert, womit die Terminologie typischer Systeme erfasst und visualisiert ist. Bei dem vorliegenden Nachschlagewerk mit seinen circa 40.000 Stichworteintragen handelt es sich nicht um ein Wörterbuch im üblichen Sinne, sondern um ein weit darüberhinausgehendes lexikonähnliches Fachwörterbuch. The purpose of this dictionary is to facilitate the work of persons who are confronted with English or German technical terms from the field of automotive engineering. In cases where it is necessary, background information, examples and colloquial references are provided for the individual terms. Additionally, this book includes information on schematic representations and divides them into groups, which means that it covers and visualizes terminology of typical systems. This reference work, with its approximately 40,000 keyword entries, is not a dictionary in the usual sense, but rather a technical dictionary that goes far beyond the scope of a lexicon.
