Hiroshige 53 Stations of the Tokaido Aritaya Cristina Berna,Eric Thomsen,2023-09-15 The Aritaya Fifty Three Stations of the Tokaido Road is one of the most beautiful of Hiroshiges huge production of landscape print series in spite of its small size. It is only abt 10 x 15 cm (with variations), Yotsugiri yokoban

(quarter oban). It is also unusual in that it is a veritable full course and manual in landscape print design. It is a very rewarding study. All the way through Hiroshige follows certain design principles of proportion of elements, arranging elements and views by diagonals and parallels and balancing of color elements. Compared to most of his other Tokaido series Hiroshige in Aritaya focus on letting the landscape tell the story instead of letting people or legend do that, although this is not followed through completely.

Simplicius: On Epictetus Handbook 27-53 Charles Brittain,Tad Brennan,2014-04-10 The Enchiridion or Handbook of the first-century AD Stoic Epictetus was used as an ethical treatise both in Christian monasteries and by the sixth-century pagan Neoplatonist Simplicius. Simplicius chose it for beginners, rather than Aristotle's Ethics, because it presupposed no knowledge of logic. We thus get a fascinating chance to see how a pagan Neoplatonist transformed Stoic ideas. The text was relevant to Simplicius because he too, like Epictetus, was teaching beginners how to take the first steps towards eradicating emotion, although he is unlike Epictetus in thinking that they should give up public life rather than acquiesce, if public office is denied them. Simplicius starts from a Platonic definition of the person as rational soul, not body, ignoring Epictetus' further whittling down of himself to just his will or policy decisions. He selects certain topics for special attention in chapters 1, 8, 27 and 31. Things are up to us, despite Fate. Our sufferings are not evil, but providential attempts to turn us from the body. Evil is found only in the human soul. But evil is parasitic (Proclus' term) on good. The gods exist, are provident, and cannot be bought off.With nearly all of this the Stoics would agree, but for quite different reasons, and their own distinctions and definitions are to a large extent ignored. This translation of the

Handbook is published in two volumes. This is the second volume, covering chapters 27-53; the first covers chapters 1-26.

Hiroshige 53 Stations of the Tōkaidō Kyōka Cristina Berna, Eric Thomsen, The reader may already be acquainted with the Hoeidō series (1833-34) of The Fifty-Three Stations of the Tōkaidō, author's ISBN 978-1-956215-09-0. This was the most popular print series ever made in Japan. In this Kyōka series (a different publisher, 1838) we follow Hiroshige on the same journey from Edo, modern day Tokyo, to Kyoto, when he travelled the road to participate in an important procession in 1832. There were 53 post stations along this important road, apart from the start and terminus, in all 55 prints, which are all here in the order from Edo to Kyoto. The reader experiences the same journey with a completely different set of prints and can compare to the Hoeidō series. It is possible to travel the same road today and some villages are still looking quite like they did back then. The postal stations were constructed between 1601 and 1624.

Hokusai 53 Stations of the Tokaido 1801 Cristina Berna, Eric Thomsen, 2023-10-06 Hokusai's 53 Stations of the Tokaido 1801 is something completely different. It is his first. And it is one of the

first at all. It is different from his famous 36 Views of Mt Fuji, which are sublime artistic expressions distilling a long life's work. It is different from much of Hokusai's other well-known work, like his 100 Views of Mt Fuji. But in that series Hokusai still retained a lot of the humor and the caricature found here. It is different from the many other well-known 53 Stations of the Tokaido in that Hokusai does not focus on the landscape and the markers that Hiroshige and others showed. Instead Hokusai focuses on the events, the interactions between the travellers, the tales that you will share with your friends when you get back home. It was a great and earlier contribution to the Tokaido literature.
