"Extra Ecclesiam nulla Salus." A sermon [on Acts x 35]. Edward STUART (M.A., Perpetual Curate of St. Mary Magdalene's, Munster Square.),1850

X-35 MR Hugh Harkins,2013-07 The Lockheed Martin X-35 Concept Demonstrator Aircraft was the winning contender in the international Joint Strike Fighter program, which led to X-35 and rival Boeing X-32, both of which were demonstrated in 2000/2001, with the prize being nothing less than domination of the production of 5th generation combat aircraft for the United States and many other countries for the next few decades. The JSF program, which spawned the X-35, was borne out a number of different research programs conducted in the 1980's and 1990's. A number of programs were combined to form a core program to replace a number of different legacy aircraft types on both sides of the Atlantic. The X-35 would be further developed into the F-35 Lightning II 5th generation strike fighter, formerly known as the JSF (Joint Strike Fighter), entering service with air forces on both sides of the Atlantic. This volume details the genesis of the Joint Strike Fighter program and describes the development, manufacture and flight testing of all three variants of the X-35: the X-35A conventional take-off and landing; X-35B short take off and vertical landing and the X-35C aircraft carrier variant, along with an overview of the rival Boeing X-32 design. Chronologies detail the flight test program of the Lockheed Martin X-35 and the Boeing X-32 aircraft.

Joint Strike Fighter Bill Sweetman,1999 Lockheed Martin and Boeing are vying to secure the Pentagon's Joint Strike Fighter contract to develop an advanced single-engine stealth fighter. This book provides rare behind-the-scenes coverage of the competitors' designs and their performance features. 80 color illustrations.

Spon's Architects' and Builders' Price Davis Langdon,2006-05-17 Spon's Architects' and Builders' Price Book 2004 is the most detailed, professionally relevant source of construction price information currently available anywhere. With competition growing fiercer throughout the industry and with increasing pressure to obtain a 'competitive advantage', the A and B's unique tender index will be more valuable than ever before. This is the only price book that publishes details of its cost base in such a way that it can be adjusted to allow for market conditions that affect building prices. A separate minor works section on coloured paper covers contracts of around £65,000 in value. The A and B comes with a 'free' CDROM that enables the reader to view the entire book on screen, cut and paste prices into other tender documents, export to other major packages, perform simple calculations, index search, produce estimate and tender documents and adjust rates and data. This complete package now means that Spon's Architects' and Builders' Price Book 2004 is now better than ever and is a resource that no building firm, surveyor or architect should be without. New features in this 129th edition include: an easier-to-read format; information on, and incorporating, the new CICJ three year wage agreement, effective from Monday, 30th June 2003. It also includes additional items for: hot and cold water piping systems; additional building boards and external wall cladding; further aluminium systems curtain walling; western red cedar external wall cladding; fire retardant steel beams; metal and glazed balustrading; sarnafil roofing and acoustic sliding partitions.
