Takelma Texts and Grammar Victor Golla,2010-12-14 The works of Edward Sapir (1884 - 1939) continue to provide inspiration to all interested in the study of human language. Since most of his published works are relatively inaccessible, and valuable unpublished material has been found, the preparation of a complete edition of all his published and unpublished works was long overdue. The wide range of Sapir's scholarship as well as the amount of work necessary to put the unpublished manuscripts into publishable form pose unique challenges for the editors. Many scholars from a variety of fields as well as American Indian language specialists are providing significant assistance in the making of this multi-volume series.

Mechademia 5 Frenchy Lunning,2013-11-30 Passionate fans of anime and manga, known in Japan as otaku and active around the world, play a

significant role in the creation and interpretation of this pervasive popular culture. Routinely appropriating and remixing favorite characters, narratives, imagery, and settings, otaku take control of the anime characters they consume. Fanthropologies—the fifth volume in the Mechademia series, an annual forum devoted to Japanese anime and manga—focuses on fans, fan activities, and the otaku phenomenon. The zones of activity discussed in these essays range from fan-subs (fan-subtitled versions of anime and manga) and copyright issues to gender and nationality in fandom, dolls, and other forms of consumption that fandom offers. Individual pieces include a remarkable photo essay on the emerging art of cosplay photography; an original manga about an obsessive doll-fan; and a tour of Akihabara, Tokyo's discount electronics shopping district, by a scholar disguised as a fuzzy animal.
