**Clean Copy** R.R. Brooks, 2021-12-13 Peter Valois is about to make history. A scientist on a hot project, his days consist of recording brains and sending the files into robots for conditioning. His plan is to use the results to fix their behavior, and then use the same method with humans. Peter's been on the straight and narrow and everything is going well, until problems with his teenage son force Peter out of his comfort zone. His scheme to save his son backfires when his cutting-edge research attracts the interest of someone who will stop at nothing to get what they want. In danger of losing his son, his research, or both, Peter soon has to make drastic choices. But how much is he willing to sacrifice, and is there a way out?

*The Shenzhen Experiment* Juan Du, 2020-01-07 A rural borderland just forty years ago, today Shenzhen is a city of twenty million and a technology hub. This success is attributed to its status as a Special Economic Zone, but no other SEZs compare. Juan Du looks to the past to understand why. It turns out that Shenzhen is no prefab "instant city," but a place influenced by deep local history.

*Germany and Vocational Education in Republican China* Henrike Rudolph, 2022-05-13 This book offers a new perspective on the transnational dimensions of China's educational and economic history by focusing on Sino-German interactions in the field of vocational education. It explores how Chinese perceptions of manual work, vocational skills, and educational practices changed dramatically throughout the first half of the twentieth century as Chinese educators increased their efforts to study and translate German pedagogical writings. Case studies researched in this book illustrate how a Chinese appreciation for German technological and scientific advances and German interests in profiting from a growing Chinese economy are not just recent phenomena but have their roots in the early twentieth century.

**New Racial Missions of Policing** Paul Amar, 2013-09-13 This book identifies new formations of race, racism and ethnicity at the intersection of neoliberalism, security, urban governance and the law through a comparative, international analysis of police organizations and practices. It pushes analytical and theoretical boundaries by examining racialization and ethnicization in locations where the topic is politically taboo, such as in China, India and France, and where racial and ethnic hierarchies have supposedly been banished to the past, as in Bosnia and South Africa. This book also examines police and security services not as mere artefacts of state authority or the prerogatives of capitalist development, but as relatively autonomous and uniquely productive intersections of new kinds of state, social and cultural formations that are remaking race, embodiment, fear and control on their own terms. This book was published as a special issue of *Ethnic and Racial Studies*.

**Mapping Modern Beijing** Weijie Song, 2018 Annotation 'Mapping Modern Beijing' investigates various modes of representing Beijing by writers travelling across mainland China, Taiwan, Hong Kong, and overseas Sinophone and non-Chinese communities.

*Reinventing Modern China* Huaiyin Li, 2012-10-31 This work offers the first systematic analysis of writings on modern Chinese history by historians in China from the early twentieth century to the present. It traces the construction of major interpretive schemes, the evolution of dominant historical narratives, and the unfolding of debates on the most controversial issues in different periods. Placing history-writing in the context of political rivalry and ideological contestation, Huaiyin Li explicates how the historians' dedication to faithfully reconstructing the past was compromised by their commitment to an imagined trajectory of history that fit their present-day agenda and served their needs of political legitimation. Beginning with an examination of the contrasting narratives of revolution and modernization in the Republican period, the book scrutinizes changes in the

revolutionary historiography after 1949, including its disciplinization in the 1950s and early 1960s and radicalization in the rest of the Mao era. It further investigates the rise of the modernization paradigm in the reform era, the crises of master narratives since the late 1990s, and the latest development of the field. Central to the author's analysis is the issue of truth and falsehood in historical representation. Li contends that both the revolutionary and modernization historiographies before 1949 reflected historians' lived experiences and contained a degree of authenticity in mirroring the historical processes of their own times. In sharp contrast, both the revolutionary historiography of the Maoist era and the modernization historiography of the reform era were primarily products of historians' ideological commitment, which distorted and concealed the past no less than revealed it. In search of a more effective approach to rewriting modern Chinese history, *Reinventing Modern China* proposes a within-time, open-ended perspective, which allows for different directions in interpreting the events in modern China and views modern Chinese history as an unfinished process remaining to be defined as the country entered the twenty-first century.

The Compensations of Plunder Justin M. Jacobs, 2020-07-13 "A very important contribution to the history of collecting in the new context of nationalism in China and in the West . . . innovative and engaging." -American Historical Review From the 1790s until World War I, Western museums filled their shelves with art and antiquities from around the world. These objects are now widely regarded as stolen from their countries of origin, and demands for their repatriation grow louder by the day. In *The Compensations of Plunder*, Justin M. Jacobs brings to light the historical context of the exodus of cultural treasures from northwestern China. Based on a close analysis of previously neglected archives in English, French, and Chinese, Jacobs finds that many local elites in China acquiesced to the removal of art and antiquities abroad, understanding their trade as currency for a cosmopolitan elite. In the decades after the 1911 Revolution, however, these antiquities went from being "diplomatic capital" to disputed icons of the emerging nation-state. A new generation of Chinese scholars began to criminalize the prior activities of archaeologists, erasing all memory of the pragmatic barter relationship that once existed in China. Recovering the voices of those local officials, scholars, and laborers who shaped the global trade in antiquities, *The Compensations of Plunder* brings historical grounding to a highly contentious topic in modern Chinese history, and informs heated debates over cultural restitution throughout the world. "Clearly the result of a very meticulously researched project, *The Compensations of Plunder* is a well-crafted and tremendously enjoyable read." -Pär Cassel, University of Michigan

*Middle Class Shanghai* Cheng Li, 2021-05-11 The United States may be headed toward a disastrous conflict with China unless Washington updates its understanding of contemporary Chinese society After four decades of engagement, the United States and China now appear to be locked on a collision course that has already fomented a trade war, seems likely to produce a new cold war, and could even result in dangerous military conflict. The current deterioration of the bilateral relationship is the culmination of years of disputes, disillusionment, disappointment, and distrust between the two countries. Washington has legitimate concerns about Beijing's excessive domestic political control and aggressive foreign policy stances, just as Chinese leaders believe the United States still has futile designs on blocking their country's inevitable rise to great-power status. Cheng Li's *Middle Class Shanghai* argues that American policymakers must not lose sight of the expansive dynamism and diversity in present-day China. The caricature of the PRC as a monolithic Communist apparatus set on exporting its ideology and development model is simplistic and misguided. Drawing on empirical research in the realms of higher education, avant-garde art, architecture, and law, this unique study highlights the strong, constructive impact of bilateral exchanges. Combining eclectic human stories with striking new data

analysis, this book addresses the possibility that the development of China's class structure and cosmopolitan culture—exemplified and led by Shanghai—could provide a force for reshaping U.S.-China engagement. Both countries should build upon the deep cultural and educational exchanges that have bound them together for decades. The author concludes that U.S. policymakers should neither underestimate the role and strength of the Chinese middle class, nor ostracize or alienate this force with policies that push it toward jingoistic nationalism to the detriment of both countries and the global community. With its unique focus, this book will enlighten policymakers, scholars, business leaders, and anyone interested in China and its increasingly fraught relations with the United States.

**Christian Social Activism and Rule of Law in Chinese Societies** Chris White, Fenggang Yang, 2021-06-10 The historical analysis, theological reflections, and sociological observations found in the chapters of *Christian Social Activism and Rule of Law in Chinese Societies* reveal the vibrant influence of Christian individuals and groups on social, political, and legal activism in mainland China, Taiwan, Hong Kong, and diasporic communities.

Military Force and Elite Power in the Formation of Modern China Edward A. McCord, 2014-01-21 The China we know today emerged at the end of a long period of internal rebellions, civil wars, foreign invasions, and revolutionary insurrections that stretched across the nineteenth century to the mid-point of the twentieth. This book explores one important consequence of this situation—the increased role of military force in the determination of elite social, political, and economic power, and presents fascinating case studies of the warlords, militia leaders, and military officers who benefited from this. Examining the intersection of military force and elite power in the formative years of modern Chinese history, this book highlights just how important military force was to elite power in nineteenth- and early twentieth-century China in a context of frequent warfare and political turmoil. It shows that the way in which military empowerment unfolded and who exactly was empowered, depended heavily on shifting military and political conditions, and each case confirms the extent to which military force emerged as a consistently significant determinant of elite power across this period. Indeed, the transformative effect of military force on social and political structures of power revealed by these studies sheds distinctive light on the prevalence, and wide-ranging impact, of military conflicts in this period. In turn, these studies also provide a particular perspective on the fluid boundaries of, as well as the constraints on, elite power in Chinese society in a time of intense social and political change. This book makes an important contribution to our understanding of the rise of modern China, and provides a keen insight into impact of war on the country, as such, it will be welcomed by students and scholars interested in Chinese history, Asian history, and military history more broadly.

Corporate Governance and Financial Reform in China's Transition Economy Jing Leng, 2009-06-01 The world economy is facing unprecedented challenges brought by the still unfolding global financial crisis. At this critical juncture in history, China's economic performance and financial stability are closely watched across the world. The current global economic downturn and the rigidities it poses on the growth prospects of any individual economy are a testing ground for the effects of China's corporate governance reform and financial reform that have been taking place in recent years. It is now a proper time to assess whether these reforms have yielded meaningful results which can help China withstand and navigate through the most severe economic difficulties of our times. This book provides a comprehensive and up-to-date review and critique of corporate governance reforms and related financial reforms in China during the country's transition to a market economy, involving its enterprise, banking and capital markets sectors. China's participation in economic globalization, symbolized by its accession to the World Trade Organization, is taken as a broad background to the country's

domestic reform agenda. By exploring the dynamics of China's evolving corporate governance regime, this book presents an important country study of corporate governance reforms in developing and post-communist transition economies to show the possibility of alternative paths to the market.

**The Early Modern Travels of Manchu** Marten Soderblom Saarela, 2020-06-19 A linguistic and historical study of the Manchu script in the early modern world Manchu was a language first written down as part of the Qing state-building project in Northeast Asia in the early seventeenth century. After the Qing invasion of China in 1644, and for the next two and a half centuries, Manchu was the language of state in one of the early modern world's great powers. Its prominence and novelty attracted the interest of not only Chinese literati but also foreign scholars. Yet scholars in Europe and Japan, and occasionally even within China itself, were compelled to study the language without access to a native speaker. Jesuit missionaries in Beijing sent Chinese books on Manchu to Europe, where scholars struggled to represent it in an alphabet compatible with Western pedagogy and printing technology. In southern China, meanwhile, an isolated phonologist with access to Jesuit books relied on expositions of the Roman alphabet to make sense of the Manchu script. When Chinese textbooks and dictionaries of Manchu eventually reached Japan, scholars there used their knowledge of Dutch to understand Manchu. In *The Early Modern Travels of Manchu*, Mårten Söderblom Saarela focuses on outsiders both within and beyond the Qing empire who had little interaction with Manchu speakers but took an interest in the strange, new language of a rising world power. He shows how—through observation, inference, and reference to received ideas on language and writing—intellectuals in southern China, Russia, France, Chosŏn Korea, and Tokugawa Japan deciphered the Manchu script and explores the uses to which it was put for recording sounds and arranging words.

**Routledge Handbook of Chinese Architecture** Jianfei Zhu, Chen Wei, Li Hua, 2022-11-30 This handbook, representing the collaboration of 40 scholars, provides a multi-faceted exploration of roughly 6,000 years of Chinese architecture, from ancient times to the present. This volume combines a broad-spectrum approach with a thematic framework for investigating Chinese architecture, integrating previously fragmented topics and combining the scholarship of all major periods of Chinese history. By organizing its approach into five parts, this handbook: Traces the practices and traditions of ancient China from imperial authority to folk culture Unveils a rich picture of early modern and republican China, revealing that modernization was already beginning to emerge Describes the social, intellectual, ideological, and formal enterprises of socialist architecture Frames a window on a complex and changing contemporary China by focusing on autonomy, state practices, and geopolitics of design, ultimately identifying its still evolving position on the world stage Examines the existing cultural and political theories to highlight potential avenues for future transformations in Chinese architecture that also retain Chinese identity Providing a pioneering combination of ancient and modern Chinese architecture in one coherent study, this book is a must-read for scholars, students, and educators of Chinese architecture, architectural history and theory, and the architecture of Asia.

**Inuyashiki** Hiroya Oku, 2017 *AFTERMATH* With Inuyashiki emerging victorious from the brutal fight with Shishigami, a peaceful Japan—and normal life for his family—appear to be attainable at last. Inuyashiki devotes himself to repairing his fractured relationships, including telling the truth about what he really is. But the newfound calm is tenuous. Is Shishigami really gone? Before his fate is discovered, Inuyashiki and everything he holds dear may be under an even more catastrophic threat.

**The Cambridge History of Communism: Volume 3, Endgames? Late Communism in Global Perspective, 1968 to the Present** Juliane Fürst, Silvio Pons, Mark Selden, 2017-09-21 The third volume of *The Cambridge History of Communism*

spans the period from the 1960s to the present, documenting the last two decades of the global Cold War and the collapse of Soviet socialism. An international team of scholars analyze the rise of China as a global power continuing to proclaim its Maoist allegiance, and the transformation of the geopolitics and political economy of Cold War conflict in an era of increasing economic interpenetration. Beneath the surface, profound political, social, economic and cultural changes were occurring in the socialist and former socialist countries, resulting in the collapse and transformations of the existing socialist order and the changing parameters of world Marxism. This volume draws on innovative research to bring together history from above and below, including social, cultural, gender, and transnational history to transcend the old separation between Communist studies and the broader field of contemporary history.

**The Global Circulation of Chinese Materia Medica, 1700–1949** Di

Lu, 2023-03-11 This book explores the dissemination of knowledge around Chinese medicinal substances from the eighteenth to twentieth centuries in a global context. The author presents a microhistory of the caterpillar fungus, a natural, medicinal substance initially used by Tibetans no later than the fifteenth century and later assimilated into Chinese materia medica from the eighteenth century onwards. Tracing the transmission of the caterpillar fungus from China to France, Britain, Russia and Japan, the book investigates the tensions that existed between prevailing Chinese knowledge and new European ideas about the caterpillar fungus. Emerging in eighteenth and nineteenth-century Europe, these ideas eventually reached communities of scientists, physicians and other intellectuals in Japan and China. Seeking to examine why the caterpillar fungus engaged the attention of so many scientific communities across the globe, the author offers a transnational perspective on the making of modern European natural history and Chinese materia medica.

John Fryer and The Translator's Vade-mecum Gabriele Tola, 2020-11-09 In John Fryer and The Translator's Vade-mecum, Tola offers for the first time a comprehensive study of the collection of scientific and technical glossaries, with English-Chinese parallel translation, compiled by the English scholar John Fryer (1839–1928).

Knowledge, Power, and Networks Cécile Armand, Christian Henriot, Huei-min Sun, 2022-09-12 This volume examines the formidable transformation of elites in China in the Republican period and how the redistribution of power, wealth and knowledge among the newly formed elites left a deep imprint on the rise of modern China up to this day.

*Push Button Agriculture* K. R. Krishna, 2017-03-16 This book covers three main types of agricultural systems: the use of robotics, drones (unmanned aerial vehicles), and satellite-guided precision farming methods. Some of these are well refined and are currently in use, while others are in need of refinement and are yet to become popular. The book provides a valuable source of information on this developing field for those involved with agriculture and farming and agricultural engineering. The book is also applicable as a textbook for students and a reference for faculty.
