Chongqing's Red Culture Campaign Xiao Mei, 2017-07-06
Between 2009 and 2012, the city of Chongqing came into the national, and even international spotlight, as it became the geographical centre of the 'Singing Red, Smashing Black' campaign, and later the political storm that swept China. Chongqing's Red Culture Campaign drew an incredible amount of interest at the time, but speculation and prejudice has since blurred the public understanding of the sensational story that ties the campaign with the rise and fall of a political star, Bo Xilai. This book, therefore, seeks to study the nature of Chongqing's Red Culture Campaign, and the interaction between the political programme and the practices of its participants. Based on fieldwork conducted in Chongqing, it seeks to question whether the Red Culture Campaign was actually a return to Maoist revolutionary mass campaigning whilst examining the relationship between the CCP's political power and the lives of the ordinary people as reflected in the case of the campaign. Ultimately, it highlights that the campaign was not in fact a real Maoist mass movement. Although it followed the pre-existing model of past mass campaigns in China, containing a series of frequent and highly performative operations, Xiao Mei argues that it essentially demonstrated critical features of 'simulation'. By contributing to our understanding of the discrepancies between a designed political programme, and what it actually becomes when implemented on the ground, this book will be of use to students and scholars of Chinese Studies, Politics and Sociology.

Shanghai Messenger Andrea Cheng, 2005 A free-verse novel about eleven-year-old Xiao Mei's visit with her extended family in China, where the Chinese-American girl finds many differences but also the similarities that bind a family together.

Musical Bows and Zithers along the Great Silk Road Xiao

Mei,Gisa Jähnichen,2023-10-04 The musical bow is usually considered one of the earliest instruments in the history of instrumental development; yet, the validity of this view has not been proven. In all likelihood, it was one among many other early instruments created to produce sound. The same can be said in general for all the simple chordophones called zithers, of which the musical bow is one type. The papers collected in this volume have been initially presented at the International Council for Traditional Music Colloquium (ICTM) held in Shanghai in December 2022. They try to challenge some previous depictions of instrumental development and one-sided explanations of musical histories. They specifically focus on exploring the interrelationship between instrumental development and the availability of natural resources in particular geographical regions. While the papers at the colloquium focused on sound production, they also explored the role of ethnomusicology as a discipline in guiding local decision making and interregional research co-operation.

The Oxford Handbook of Music in China and the Chinese Diaspora Distinguished Professor Yu Hui,Yu Hui,Jonathan P. J. Stock,2023-07-09 In The Oxford Handbook of Music in China and the Chinese Diaspora, twenty-three scholars advance knowledge and understandings of Chinese music studies. Each contribution develops a theoretical model to illuminate new insights into a key musical genre or context. This handbook is categorized into three parts. In Part One, authors explore the extensive, remarkable, and polyvocal historical legacies of Chinese music. Ranging from archaeological findings to the creation of music history, chapters address enduring historical practices and emerging cultural

expressions. Part Two focuses on evolving practice across a spectrum of key instrumental and vocal genres. Each chapter provides a portrait of musical change, tying musical transformations to the social dimensions underpinning that change. Part Three responds to the role that prominent issues, including sexuality, humanism, the amateur, and ethnicity, play in the broad field of Chinese music studies. Scholars present systematic orientations for researchers in the third decade of the twenty-first century. This volume incorporates extensive input from researchers based in China, Taiwan, and among Chinese communities across the world. Drums and Drum Ensembles along the Great Silk Road

Xiao Mei, Gisa Jähnichen, 2022-01-21 This volume comprises fifteen selected papers in five chapters from the 27th ICTM Colloquium on Drums and Drum Ensembles along the Great Silk Road. It testifies to how human cultures are never created in seclusion. The richness of drums and drum ensembles, including their repertoires, are also connected to long-term exchanges in military affairs, trades, and religions of various peoples. Despite the obvious prevalence of drums among all peoples around the world, their understanding and their repertoires vary due to different contexts. The studies of music originating on the Silk Road presented in this volume pay particular attention to the multiple flows of knowledge between numerous distinctive regions in the narrower geographical and temporal scope.

How Much You Love Me , Zhenyinfang,2020-03-10 I don't know how much love there is

The Columbia Anthology of Modern Chinese Drama Xiaomei Chen,2014-03-25 This condensed anthology reproduces close to a dozen plays from Xiaomei Chen's well-received original collection, *The Columbia Anthology of Modern Chinese Drama*, along with her critical introduction to the historical, cultural, and aesthetic evolution of twentieth-century Chinese spoken drama. Comprising representative works from the Republican era to postsocialist China, the book encapsulates the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty and vividly portrays the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. Chosen works from 1919 to 1990 also highlight the formation of national and gender identities during a period of tremendous social, cultural, and political change in China and the genesis of contemporary attitudes toward the West. PRC theater tracks the rise of communism, juxtaposing ideals of Chinese socialism against the sacrifices made for a new society. Post-Mao drama addresses the nation's socialist legacy, its attempt to reexamine its cultural roots, and postsocialist reflections on critical issues such as nation, class, gender, and collective memories. An essential, portable guide for easy reference and classroom use, this abridgment provides a concise yet well-rounded survey of China's theatricality and representation of political life. The original work not only established a canon of modern Chinese drama in the West but also made it available for the first time in English in a single volume.

Occidentalism Xiaomei Chen,2002 This revised and expanded edition of the first comprehensive study of Occidentalism in post-Mao China includes a new preface, foreword, and chapter on Chinese diaspora writings in the Chinese language. Xiaomei Chen

offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post-Mao China since 1978. She examines the cultural and political interrelationship between the East and West from a vantage point more complex than that accommodated by most current theories of Western imperialism and colonialism. Going beyond Edward Said's construction in *Orientalism* of cross-cultural appropriations as a defining facet of Western imperialism, Chen argues that the appropriation of Western discourse--what she calls Occidentalism--can actually have a politically and ideologically liberating effect on contemporary non-Western culture. She maintains that simplistic allegations of Orientalism frequently found in current critical discourses seriously underestimate the complexities of intercultural and multicultural relationships. Using China as the focus of her analysis, Chen examines a variety of cultural media, from Shakespearean drama, to modernist poetry, to contemporary Chinese television and popular fiction. She thus places sinology in the general context of Western theoretical discourses, such as Eurocentrism, postcolonialism, nationalism, modernism, feminism, and literary hermeneutics, showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship. Occidentalism presents a new model of comparative literary and cultural studies that reenvisions cross-cultural appropriation. It will be indispensable to future discussions of Orientalism, Occidentalism, and postcolonialism, as well as subaltern studies, Asian studies, comparative literature, cultural studies, and non-Western drama.

Contemporary Logistics in China Ling Wang, Shao-ju Lee, Ping Chen, Xiao-mei Jiang, Bing-lian Liu, 2016-06-20 This book is the sixth volume in a series entitled "Contemporary Logistics in China," authored by researchers at the Logistics Center, Nankai University. In the spirit of the five preceding volumes, published annually in previous years, this book carries on the ideal of providing a

systematic exposition on the development of logistics in China to the English-speaking community. Specifically, this volume captures China's logistics development at a crucial turning point. On the one hand, it echoes the new horizon advocated by the Government's One-Belt-One-Road Initiative for global cooperation; on the other, it resonates with the new blueprint of implementing the main contents of the 13th Five-year Plan on logistics development. Subjects covered include the macro-factors pertaining to logistics development, region-specific plans, industry-wide transformation, globally oriented moves, and current hot topics. Expositions and analyses on these subjects are based on the latest available sources and statistical data. As with the previous volumes, the ultimate aim of this book is to present a timely portrait of the rapid growth of China's logistics market and the status of its logistics industry's evolution. In so doing, this book offers an in-depth analysis of the critical issues and dilemmas amid the ongoing, dynamic and multi-faceted development, and presents a valuable reference source for interested readers in the academic and professional fields.

Lion's Head, Four Happiness Xiaomei Martell, 2013-01-31
Lion's Head, Four Happiness is the captivating story of Xiaomei Martell, who was born in one of China's most remote regions just two years before Mao launched the Cultural Revolution. The youngest of four daughters - her name means 'Little Sister' - her family had no money or connections, yet they raised her with a thirst for knowledge and a love of food, ranging from the Lion's Head meatballs her Uncle Deng cooked to the 'phoenix feet' that apparently cured wrinkles, by way of two-hundred-year-old eggs. Xiaomei's entertaining and inspiring story takes us to a world where children play with painted pig toes, dumplings give you perfect ears and rather than saying hello, you ask 'chilema' or 'Have you eaten?' This is a unique and engaging account of a culture and cuisine that is a world away from the China we know today.

Performing the Socialist State Xiaomei Chen,2023-02-07 Performing the Socialist State offers an innovative account of the origins, evolution, and legacies of key trends in twentieth-century Chinese theater. Instead of seeing the Republican, high socialist, and postsocialist periods as radically distinct, it identifies key continuities in theatrical practices and shared aspirations for the social role and artistic achievements of performance across eras. Xiaomei Chen focuses on the long and remarkable careers of three founders of modern Chinese theater and film, Tian Han, Hong Shen, and Ouyang Yuqian, and their legacy, which helped shape theater cultures into the twenty-first century. They introduced Western plays and theories, adapted traditional Chinese operas, and helped develop a tradition of leftist theater in the Republican period that paved the way for the construction of a socialist canon after 1949. Chen investigates how their visions for a free, democratic China fared in the initial years after the founding of the People's Republic, briefly thriving only to founder as artists had to adapt to the Communist Party's demand to produce ideologically correct works. Bridging the faith play and "antiparty plays" of the 1950s, the "red classics" of the 1960s, and their reincarnations in the postsocialist period, she considers the transformations of the depictions of women, peasants, soldiers, scientists, and revolutionary history in plays, operas, and films and examines how the market economy, collective memories, star culture, social networks, and state sponsorship affected dramatic productions.

Countering the view that state interference stifles artistic imagination, Chen argues that theater professionals have skillfully navigated shifting ruling ideologies to create works that are politically acceptable yet aesthetically ingenious. Emphasizing the power, dynamics, and complexities of Chinese performance cultures, *Performing the Socialist State* has implications spanning global theater, comparative literature, political and social histories, and Chinese cultural studies.
