Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. Citroen Lance Cole,2014-03-31 In this new view of the Citroen story, automotive/aviation writer

and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. *The Automotive Industry and European Integration* A. J. Jacobs,2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the

knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

**Barthes' Mythologies Today** Pete Bennett, Julian McDougall, 2013-09-11 This is Barthes' seminal text reimagined in a contemporary context by contemporary academics. Through a revisiting of *Mythologies*, a key text in cultural and media studies, this volume explores the value these disciplines can add to an understanding of contemporary society and culture. Leading academics in media, English, education, and cultural studies here are tasked with identifying the new mythologies some fifty or so years on from Barthes' original interventions. The contributions in this volume, then, are readings of contemporary culture, each engaging with a cultural event, practice, or text as mythological. These readings are then contextualized by an introduction which reflects on the 'how' of these engaging responses and an essay at the back of the book which replaces *Myth Today* with a reflection on the contemporary provenance of both Barthes and his most famous book. Thus the book is at least two things at once whichever way you look: a 'new' *Mythologies* and a book about Barthes' legacy, an exploration of the place of theory in critical writing, and a book about contemporary culture.
