Yokosuka, Base of an Empire Tom Tompkins,1981 This illustrated volume traces the history of the Yokosuka naval base from its use by Imperial Japan to the early 1980s.

Yokosuka D4Y 'Judy' Units Mark Chambers,2021-09-16 In 1938, the Yokosuka Naval Air Technical Arsenal, acting under the requirements issued by the Kaigun Koku Hombu for a Navy Experimental 13-Shi Carrier Borne specification for a dive-bomber to replace the venerable 'Val' aboard carriers. The resulting D4Y Suisei ('Comet'), codenamed 'Judy' by the Allies, was initially powered by a licence-built German Daimler-Benz DB 601 inline engine as used in the Bf 109E. Despite making an inauspicious combat debut during the Battle of Midway in June 1942, the 'Judy' eventually proved to be an important asset for the IJNAF during battles in the latter years of the Pacific War. Its great successes resulted in the sinking of the escort carrier USS Princeton in an early kamikaze attack of the Philippines and the near sinking of the fleet carrier USS Franklin in a dive-bombing attack off Japan. While the Judy had an impressive top-speed, like its predecessor, and many other Japanese military aircraft, it possessed design shortcomings including inadequate armour protection for its aircrew and no self-sealing fuel tanks. As a result, when pitted against new, advanced US Navy fighters suffered horrendous losses. During the final months of World War 2 it became apparent that there would be no Japanese victory. Acting out of desperation, the IJNAF employed the 'Judy' in the dreaded kamikaze role, in which it excelled due to its high-speed characteristics. Most notably, the D4Y mounted one of the last combat actions of World War 2 when a flight of 11 Judies, personally led by the instigator of the suicide attacks, Vice Admiral Matome Ugaki, took off on a 'search mission' on August 15, 1945. This volume chronicles the action-packed wartime exploits of Japan's finest dive-bomber of World War 2.

The United States Marines in the Occupation of Japan Henry I. Shaw,1969 This document presents a concise narrative of the major events which took place when Marine air and ground units were deployed to the main islands of Japan at the close of World War II. The text is based on official records, interviews with participants in the operations described, and reliable secondary sources. The pamphlet is published for the information of Marines and others interested in this significant period of Marine Corps history. The war was over, but the victory was not yet secure. Foremost among the multitude of new and pressing problems confronting Allied planners was the question of how the Japanese military would react to the sudden peace. On bypassed islands throughout the Pacific, on the mainland of Asia, and in Japan itself, over 4 million fighting men were still armed and organized for combat. Would all these men, who had proven themselves to be bitter-end, fanatical enemies even when faced with certain destruction, accept their Emperor's order to lay down their weapons? Or would some of them fight on, refusing to

accept or believe the decision of their government? Logically, the focal point of Japanese physical and moral strength was the seat of Imperial rule. If Tokyo were occupied without incident, the chances for a successful and bloodless occupation of Japan and the peaceful surrender of outlying garrisons would be greatly enhanced. General MacArthur's command contributed the 11th Airborne Division to stage from Luzon through Okinawa to an airfield outside Tokyo. Admiral Nimitz ordered the Third Fleet, cruising the waters off Japan, to form a landing force from ships' complements to seize Yokosuka Naval Base in Tokyo Bay. To augment this naval force, the Fleet Marine Force, Pacific (FNFpac) was directed to provide a regimental combat team (RCT) for immediate occupation duty. These Marines, and others that followed them, were destined to play an important part in the occupation of Japan.

Knock off Ship's Work Mark Douglas, 2012-10-11 Lee Harrison Stewart, seaman apprentice and seaman, USN-EV, served on the USS Hoquiam (PF-5) as a radioman during the first two years of the Korean Conflict (later labeled a war.) In this third book in his series on the USS Hoquiam PF-5, he brings the experiences of young sailor in the 1950s to life. The Hoquiam, after being recommissioned in Yokosuka, Japan, sailed in harms way off the east coast of North Korea. It participated in all the east coast landings and the Hungnam evacuation. This story begins where Road to Hungnam ended back in Yokosuka on New Years Eve, 1950, for a few weeks of pier-side overhaul, as the crew winds down from Hungnam. There is hard work preparing the ship for a new assignment to Task Force Ninety-Five off Wonsan, North Korea. Still, there's time for romance and hijinks on liberty in Yokosuka and later in Sasebo, Japan. The Hoquiam's crew sees a full range of work in the next assignment period including work they detest with the Service Force, firing remote-controlled target aircraft for other ships to shoot at, days spent on submarine patrol (when they doubled as targets for the North Korean or Chinese gunners in Wonsan caves), convoy escort duty, and the best assignment of all shooting at the potbellied narrow-gauge trains coming down from Mongolia. Eventually, the crew of the Hoquiam again sails for Yokosuka and prepares for yet another trip to the Korean bomb line.

Hachi Nana Go Gary T. O'Neil, 2010-02-11 This complete 28 year history of a commissioned Navy Destroyer (USS Henry W. Tucker DD-875) was a member of the Asiatic Squadron. The title HACHI NANA GO is Japanese for the hull number 875. Stationed in Yokosuka and visiting many ports of call, the crew would hear the familiar Hey Hachi Nana Go from bar owners and shop keepers as they would go into town on Liberty.

From Hiroshima with Love Raymond A. Higgins, 1997 The Allied Military Governor's remarkable story of the rebuilding of Japan's business and industry after WWII. The author details the transformation of a tough-minded

American businessman, Commander Wallace L. Higgins, who was, like many Americans, shocked and resentful because of Japan's military atrocities. After defeating the Japanese judo champ five days after landing in Japan with Occupation Forces, Wally Higgins won the admiration of his hosts. He learned to appreciate and admire the Japanese people with whom he dealt.

Black Ships Sean Michael Wilson, 2017-03-07 On the 14th of July, 1853, the USS Plymouth, Mississippi, Saratoga, and Susquehanna sailed into Yokosuka, Japan. The mysterious Black Ships had arrived. In this stirring account of a pivotal moment in modern Japanese history, award-winning author and illustrator team Sean Michael Wilson and Akiko Shimojima tell the story of the four American Black Ships that arrived in Japan in 1853 under the command of Commodore Perry to force Japan to open up to trade. The book compellingly portrays the apprehension and confusion of the Japanese people witnessing the Black Ships steaming into view over the horizon; the anxious response of the samurai; the cat-and-mouse game that ensued; the protracted negotiations; and the eventual agreement signed on March 31st, 1854, as the Treaty of Kanagawa. Historically accurate and with an easy-to-read visual format, Black Ships conveys the personalities of the key figures in the drama: on one side, Commodore Perry and his captains, and on the other, Shogunate officials Abe Masahiro and Hayashi Akira. Wilson and Shimojima vividly capture the atmosphere of threat and change that pervaded Japan during Bakumatsu, the final years of the Edo period, as the feudal Tokugawa shogunate took its last breaths and gave way to the new Meiji government.

Military, Department of Defense (DoD), U. S. Marine Corps (USMC), U. S. Government, 2017-10-23 This unique monograph is a concise narrative of the major events which took place when Marine air and ground units were deployed to the main islands of Japan at the close of World War II. The text is based on official records, interviews with participants in the operations described, and reliable secondary sources. The pamphlet is published for the information of Marines and others interested in this significant period of Marine Corps history. The war was over, but the victory was not yet secure. Foremost among the multitude of new and pressing problems confronting Allied planners was the question of how the Japanese military would react to the sudden peace. Would all these men, who had proven themselves to be bitter-end, fanatical enemies even when faced with certain destruction, accept their Emperor's order to lay down their weapons? Or would some of them fight on, refusing to accept or believe the decision of their government? Would the tradition of fealty to the wishes of the Emperor overbalance years of conditioning that held surrender to be a crushing personal and national disgrace? Logically, the focal point of Japanese physical and moral strength was the seat of Imperial rule. If Tokyo were occupied without incident, the chances for a successful and bloodless occupation of Japan and the peaceful surrender of

outlying garrisons would be greatly enhanced. Plans for seizure of ports of entry in the Tokyo Bay area for occupation forces received top priority. Speed was essential and the spearhead troops of the occupying forces were selected from those with high combat readiness.

Inside the Skin Kurt Brindley, 2011-09 Boot Camp didn't join the navy to die, he joined to become a sailor, a real sailor, and to do all those things that real sailors are known to do. But after reporting to his first duty station, a laid-up warship filled with a disgruntled crew who welcomes him aboard with a brutal hazing and violent displays of intolerance and harassment, Boot Camp learns the hard way that to be a real sailor, you sometimes have to put yourself into harm's way to defend what you believe in. However, after his only true shipmate---an eccentric nonconformist who, himself, had to overcome intolerance and harassment---is discharged from the navy, Boot Camp is left on his own to face the discrimination and dangers that await him. Alone, he has to find the courage and strength to stand up for his own self and fight for what he believes in, even if it kills him. **INSIDE THE SKIN**, a psychological drama set on a U.S. warship in the port city of Yokosuka, Japan, is a story about the harsh realities of navy life during the Don't Ask Don't Tell era. But it's more than that. It is also a story about each of us and how we perceive the world around us. Written with a narrative starkness, it leaves us with only our own prejudices and stereotypes to draw from and forces us to make assumptions about character and identity, and, in the end, determine not just who did it but if it was even done at all.
