A Research on Functional Grammar of Chinese Bojiang Zhang,Mei Fang,2020-04-21 The functional perspective on Chinese syntax has yielded various new achievements since its introduction to Chinese linguistics in the 1980s. This two-volume book is one of the earliest and most influential works to study the Chinese language using functional grammar. With local Beijing vernacular (Pekingese) as a basis, the information structure and focus structure of the Chinese language are systematically examined. By using written works and recordings from Beijingers, the authors discuss topics such as the relationship between word order and focus, and the distinction between normal focus and contrastive focus. In addition, the authors also subject the reference and grammatical categories of the Chinese language to a functional scrutiny while discussion of word classes and their functions creatively combines modern linguistic theories and traditional Chinese linguistic theories. This book will be of interest to students and scholars of Chinese linguistics and linguistics in general.

Chinese Cinemas Felicia Chan,Andy Willis,2016-05-20 Chinese Cinemas: International Perspectives examines the impact the rapid expansion of Chinese filmmaking in mainland China has had on independent and popular Chinese cinemas both in and outside of China. While the large Chinese markets are coveted by Hollywood, the commercial film industry within the People's Republic of China has undergone rapid expansion since the 1990s. Its own production, distribution and exhibition capacities have increased exponentially in the past 20 years, producing box-office success both domestically and abroad. This volume gathers the work of a range of established scholars and newer voices on Chinese cinemas to address questions that interrogate both Chinese films and the place and space of Chinese cinemas within the contemporary global film industries, including the impact on independent filmmaking both within and outside of China; the place of Chinese cinemas produced outside of China; and the significance of new internal and external distribution and exhibition patterns on recent conceptions of Chinese cinemas. This is an ideal book for students and researchers interested in Chinese and Asian Cinema, as well as for students studying topics such as World Cinema and Asian Studies.

Historical Dictionary of Hong Kong Cinema Lisa Odham Stokes,Rachel Braaten,2020-01-15 Hong Kong cinema began attracting international attention in the 1980s. By the early 1990s, Hong Kong had become Hollywood East as its film industry rose to first in the world in per capita production, was ranked second to the United States in the number of films it exported, and stood third in the world in the number of films produced per year behind the United States and India. This second edition of Historical Dictionary of Hong Kong Cinema contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on directors, producers, writers, actors, films, film companies, genres, and terminology. This book is an excellent resource for students, researchers, and anyone wanting to know more about Hong Kong cinema.

Citing China Gina Marchetti,2018-03-31 *Citing China* explores the role film plays in creating a common ground for the exchange of political and aesthetic ideas between China and the rest of the world. It does so by examining the depiction of China in contemporary film, looking at how global filmmakers “cite” China on screen. Author Gina Marchetti’s aim is not to point to how China continues to function as a metaphor or allusion that has little to do with the geopolitical actualities of contemporary China. Rather, she highlights China’s position within global film culture, examining how cinematic quotations link current films to past political movements and unresolved social issues in a continuing multidirectional conversation. Marchetti covers a wide range of cinematic encounters across the China-West divide. She looks closely at specific movements in world film history and at key films that have influenced the way “China” is depicted in global cinema today, from popular entertainment to international art cinema, the DV revolution, video activism, and the emergence of “festival films.” Marchetti first considers contemporary Chinese-language cinema (Edward Yang, Hou Hsiao-Hsien); she then turns to Italian Neorealism and its importance to the Chinese Sixth Generation (Jia Zhangke) and the French New Wave’s ripple effect on filmmakers associated with the Hong Kong New Wave and Taiwan New Cinema (Ann Hui, Evans Chan). As the People’s Republic of China has gained increased global economic clout, filmmakers draw on Euro-American formulae (Bruce Lee, Clara Law) to attract new viewers and define cinematic pleasures for new audiences on the other side of the earth. The book concludes with a consideration of the role film festivals, women filmmakers, and emerging audiences play in the new world of global cinema. *Citing China* offers a framework for examining cinematic influence as a dynamic and multidirectional process. It is carefully researched, theoretically sophisticated, and animated by detailed and historically nuanced studies of individual films, making clear just how much a part of global film culture today’s China is. The book makes important contributions to debates in transnational film studies, postmodern versus modernist aesthetics and politics, and Asian as well as European art cinema.

The Borrowed Chan Ho-Kei,2017-01-03 A legendary detective uncovers Hong Kong’s darkest crimes: “An ambitious narrative brilliantly executed . . . What an achievement!” (John Burdett, author of *Bangkok 8*). From award-winning author Chan Ho-kei, *The Borrowed* tells the story of Kwan Chun-dok, a detective who’s worked in Hong Kong fifty years. Across six decades of Hong Kong’s volatile history, the narrative follows Kwan through the Leftist Riot of 1967, when a bombing plot threatens many lives; the conflict between the HK Police and ICAC (Independent Commission Against Corruption) in 1977; the Tiananmen Square Massacre in 1989; the Handover in 1997; and the present day of 2013, when Kwan is called on to solve his final case, the murder of a local billionaire, in a modern Hong Kong that increasingly resembles a police state. Along the way we meet Communist rioters, ultra-violent gangsters, pop singers enmeshed in the high-stakes machinery of star-making, and a people always caught in the shifting balance of political power, whether in London or Beijing. Tracing a broad historical arc, *The Borrowed* reveals just how closely everything is connected, how history repeats itself, and how we have come full circle to repeat the political upheaval and societal unrest of the past. It is a gripping, brilliantly constructed novel from a talented new voice.

Hong Kong and Bollywood Joseph Tse-Hei Lee,Satish Kolluri,2016-09-27 This volume examines the transmission, reception, and reproduction of new cinematic styles, meanings, practices, and norms in early twenty-first-century Asia. Hong Kong and Bollywood offers new answers to the field of inter-Asian cultural studies, which has been energized by the trends towards transnationalism and translatability. It brings together a team of international scholars to capture the latest development in the film industries of Hong Kong and Mumbai, and to explore similar cross-cultural, political, and socioeconomic issues. It also explains how Hong Kong and Bollywood filmmakers have gone beyond the traditional focus on nationalism, urbanity and biculturalism to reposition themselves as new cultural forces in the pantheon of global cinema.
