**The Dragon's Teeth** Benjamin Lai, 2016-07-14 An in-depth look at the past, present, and future of China's military. When Mao Zedong proclaimed the People's Republic of China in 1949, China was a poor and wrecked society after years of continuous wars. For centuries, in fact, China had been seen as a sort of plunder-zone to be invaded, and then a backwater until the late 1980s—when domestic policy brought about monumental changes. The result is that China has grown to be the second largest economy in the world, and its military has grown proportionately. Successive decades of economic growth have transformed China—in addition to the weapons revolution during the computer age—so that the People's Liberation Army (PLA) has become a modern fighting force. No longer having to rely on massed infantry attacks, it now features a formidable arsenal, including nuclear submarines, ICBMs, stealth fighters, and modern battle tanks. Perhaps ominously for other maritime powers, the Chinese have also focused on beyond-the-horizon missile technology, as well as anti-aircraft systems, and have explored the possibilities of cyber-warfare. What is today's PLA really like? What are its traditions and histories, and how is it armed and equipped? How does it recruit and train? This book describes some of the lesser-known battles and wars the Chinese have undertaken and the development of their key weapons systems. The United States, having opened the door to drone warfare, has had an attentive audience for such technologies in Beijing. The last chapter provides thoughts on how

the Chinese view matters of security. It is not yet known whether foreign powers can still enforce their territorial wills on China—but future attempts will meet an increased challenge.

Chinese Power (English) , Do you think Chinese tanks and models are not interesting? Wait to see this book ... Until now is the most complete, detailed and exhaustive study about PLA for modelers ever done. This book is not only having historians in mind but also for modelers and readers that can be interested to know something more about the Chinese army power. After reading this book many modelers will have much more interest in building a Chinese vehicle as next model. Through its pages we will discover not only the power and main weapons of the Chinese PLA since its origins, but also the way to paint them, showing different techniques and camouflages for the Chinese vehicles. The kits which appear in this book, belong to the main Chinese brands, and makes this book the perfect guide not only for modelers and enthusiasts of Chinese tanks and its strange and exotic camouflages but also for any modelers that want to have a reference book. Modelers and historians like Adam Wilder, Kristof Pulinks, Lukasz Orczyyc-Musialek, Lester Plaskitt, Sven Frich, Zach Sex, Gordon Arthur, Lei Xu, Verlag Jochen, Chris Jerret, Oscar Ebrí, Brian Murdoch or David Bocquelet give us an idea of the quality of this publication that until now is the most complete, detailed and exhaustive study about PLA for modelers ever done.

*Chinese Strategy and Military Modernization in*

2015 Anthony H. Cordesman, Steven Colley, 2016-01-12 China's emergence as a global economic superpower, and as a major regional military power in Asia and the Pacific, has had a major impact on its relations with the United States and its neighbors. China was the driving factor in the new strategy the United States announced in 2012 that called for a "rebalance" of U.S. forces to the Asia-Pacific region. At the same time, China's actions on its borders, in the East China Sea, and in the South China Sea have shown that it is steadily expanding its geopolitical role in the Pacific and having a steadily increasing impact on the strategy and military developments in other Asian powers.

*Chinese Strategy and Military Power in 2014*

Anthony H. Cordesman, 2014-11-25 This report tracks and analyzes trends in Chinese military strategy, force structure, and regional activity. Chinese perspectives on their military's role and development are featured, as well as the views of other relevant regional actors.

**The Military Balance 2012** The International Institute for Strategic Studies (IISS), 2020-03-26 The Military Balance is the International Institute for Strategic Studies annual assessment of the military capabilities and defense economics of 170 countries worldwide. It is a useful resource for those involved in security policy making, analysis and research. The book is a region-by-region analysis of the major military and economic developments.

**The Evolving Military Balance in the Korean Peninsula and Northeast Asia** Anthony H.

Cordesman, Ashley Hess, 2013-07-10 The Evolving Military Balance in the Korean Peninsula and Northeast Asia describes the strategy, force deployments, and the military balance in potential current and future scenarios involving the Democratic People's Republic of Korea, Republic of Korea, People's Republic of China, Japan, and the United States.

The Chinese People's Liberation Army since 1949  
Benjamin Lai, 2012-11-20 The Chinese People's Liberation Army (PLA) is the largest army in the world. China is predicted to be on the brink of overtaking the USA as the world's largest economy, and China's military capabilities and global ambitions are the single greatest long-term pre-occupation of Western governments. The PLA has progressed steadily – if slowly – since its creation in 1949, from a mass army of unsophisticated infantry limited to 'human wave' tactics into a highly sophisticated force with wide capabilities. The most recent reforms (1989 to the present day) have been made possible by massive economic liberalization, and have seen not only the modernization of all the armed forces but the beginnings of global outreach, even including Chinese participation in UN peace-keeping missions to Africa, the Middle East, and Haiti. Featuring rare photographs and specially commissioned color artwork, this study explores the developing structure, organization, equipment, appearance, and character of the Chinese People's Liberation Army from its creation until today.

**China's Economic Footprint In South And Southeast Asia: A Futuristic Perspective - Case**

## **Studies Of Pakistan, Sri Lanka, Myanmar And Thailand**

Reena Marwah, Sanika Sulochani

Ramanayake, 2021-09-17 The labyrinthine BRI projects, aimed at realizing win-win benefits, have created new challenges for the host countries. Economic aspirations must be shielded and protected by security umbrellas, thus making these countries partners of the China-dominated security architecture. Nowhere is this more evident than in the countries of Sri Lanka and Pakistan. Despite Southeast Asian nations being viewed as within the ambit of China's historical sphere of influence, Myanmar and Thailand provide experiences different from their neighbours. This book analyzes China as an economic juggernaut, undergirded by global ambitions, expanding its economic footprint across South and Southeast Asia through trade, technological supremacy and territorial acquisitions. The authors also navigate China's policies at home and abroad, providing a futuristic perspective on China's path to victory. The book provides answers to compelling questions as:

**The Hunters: Books 1-3** Chris Kuzneski, 2020-10-12 The Hunters trilogy consists of the first three books in the award-winning Hunters series: THE HUNTERS, THE FORBIDDEN TOMB, and THE PRISONER'S GOLD. Every book in the series has hit #1 on Amazon. THE HUNTERS has been optioned for a major motion picture, and THE PRISONER'S GOLD won the ITW Thriller Award for Book of the Year. The first book in the series (THE HUNTERS) features a

diverse cast of characters. Financed by a mysterious philanthropist, this elite team -- a soldier (Jack Cobb), an historian (Jasmine Park), a computer whiz (Hector Garcia), a weapons expert (Josh McNutt), and a thief (Sarah Ellis) -- was asked to locate a Romanian train filled with riches that disappeared in Russia during World War I. The collection is now valued at over \$3.5 billion. Despite several attempts to find it, its location has remained a mystery...until now. The second book was called THE FORBIDDEN TOMB, and it was released in 2014. Tasked with finding the legendary tomb of Alexander the Great and the extraordinary riches that were rumored to be buried with him, the Hunters encountered hostile forces that would do anything to stop them. Before long, the treasure hunt became a deadly rescue mission with hundreds dead and a city in ruins. As the death toll continued to mount, the team was forced to rise to the challenge to find the ultimate prize. The third book in the series was called THE PRISONER'S GOLD, and it was released in 2015. At the end of the 13th century, Chinese Emperor Kublai Khan gave an Italian merchant unfettered access to his kingdom. The traveler was Marco Polo, and his journey would become legendary. Aided by a special passport that protected him throughout the land, Polo amassed unbelievable wealth and hid it before his return to Italy. Guided by firsthand accounts of Polo's travels, the Hunters quickly discovered there was a criminal empire willing to do anything to stop them from taking the riches from Chinese soil. Praise for Chris Kuzneski and THE HUNTERS series:

James Patterson, #1 national bestselling author—"Chris Kuzneski's writing has the same raw power as the early Stephen King." Clive Cussler, #1 national bestselling author—"Chris Kuzneski writes as forcefully as his tough characters act." Nelson DeMille, #1 national bestselling author—"Chris Kuzneski is a remarkable writer, who completely understands what makes for a good story: action, sex, suspense, humor, and great characters." Vince Flynn, #1 national bestselling author—"Chris Kuzneski is a master in the making." James Rollins, New York Times bestselling author—"Chris Kuzneski writes with an energy that is contagious! Action, suspense, mystery, and a biting thread of humor.... What more can you ask from a novel?" Steve Berry, #1 international bestselling author—"Kuzneski does it again with another terrific tale, filled with action and suspense, bringing the unimaginable to life. Definitely my kind of story!" Scott Mariani, #1 international bestselling author—"THE HUNTERS kicks off a brilliant new series from Chris Kuzneski. Adventure, history, mystery, and more—everything you'd want in a thriller!" The Daily Mail (UK)—"THE HUNTERS is taut and fierce—with a cast of agreeably idiosyncratic characters. It feels like the draft of a movie, and it could just be Kuzneski's breakthrough novel. It deserves to be." Herald Sun (Australia)—"THE HUNTERS is Mission: Impossible on steroids. The first in a new series, Kuzneski brings together a super-expert crew of renegades to track down a lost treasure, sent into hiding in 1916 and never seen again. . . It's all about the

action, which never stops. Half the fun is imagining the all-star cast for the movie that was clearly in Kuzneski's mind. Final verdict: Thrill Ride."

ITW Thriller Award Winner for Book of the Year!!!  
THE TREASURE: At the end of the 13th century, Chinese Emperor Kublai Khan gave an Italian merchant unfettered access to his kingdom. The traveler was Marco Polo, and his journey would become legendary. Aided by a special passport that protected him throughout the land, Polo amassed unbelievable wealth and hid it before his return to Italy. To this day, the location of his treasure remains a mystery. THE MISSION: The Hunters—an elite group assembled by an enigmatic billionaire to locate the world's greatest treasures—are tasked with finding the missing fortune. Guided by firsthand accounts of Polo's travels, they quickly discover there are hostile forces willing to do anything to stop them from taking the riches from Chinese soil. Before long, the treasure hunt becomes a deadly game of cat-and-mouse that will rewrite history while taking the lives of many. THE PRIZE: As the danger continues to mount, will the Hunters rise to the challenge? Or will the team be eliminated before they find Polo's treasure?

Electron-Photon Shower Distribution Function H.  
Messel, D. F. Crawford, 2013-10-22 Electron-Photon  
Shower Distribution Function: Tables for Lead,  
Copper and Air Absorbers presents numerical  
results of the electron-photon shower distribution  
function for lead, copper, and air absorbers.  
Electron or photon interactions, including Compton  
scattering, elastic Coulomb scattering, and the  
photo-electric effect, are taken into account in  
the calculations. This book consists of four  
chapters and begins with a review of both  
theoretical and experimental work aimed at  
deducing the characteristics of the cascade  
produced from the propagation of high energy  
electrons and photons through matter. The next two  
chapters discuss in some detail the method of  
simulating the electron-photon cascade on a  
computer. The final chapter discusses the  
application of the results to the design of  
detectors for high energy particles. The book  
contains a large number of tables of numerical  
results and a bibliography. The book is  
intended for physicists and engineers  
interested in the theory and application of  
high energy particle detectors.

**China Electronic Warfare Weapons/RUMINT** 中国 (Xīn Shìjiè), 2020-11 UPDATED 15 March 2023 - Added two ELINT ships, KJ-500 AWACS, YLC-8E High Mobility UHF Anti-Stealth Air Defense Alert Radar, SLC-7 L-band Ground-Based Long-Range 3D Surveillance Air Defense Radar, SLC-12 S-band Alert Radar and YLC-12 C-band Medium And Low Altitude Multifunctional Radar. Previously added the specifications for Surveillance, Reconnaissance and Targeting Pods (airborne). This book presents examples of China's land-based and airborne platforms with electronic warfare (EW) capabilities. Unfortunately, there is very little open source information available such as the specifications or even the intended use of most of the PLA's EW weapons. That said, some idea of a platform's EW capability can be gleaned by a close examination of the weapons on parade and static display at trade shows. If you have information, please send it to us for inclusion by visiting our website: [USGOVPUB.COM](http://USGOVPUB.COM). We will update the book as we find out more.
