A Sister's All You Need., Vol. 7 (Light Novel) Yomi Hirasaka,2020-06-23 A new relationship begins. Itsuki Hashima and Nayuta Kani are now officially a couple, finding success in both love and work. This new era brings changes to not only them but Chihiro, Miyako, Haruto, and (for some reason) Itsuki's tax accountant, Ashley. Chihiro, meanwhile, has a new rival to deal with, while Haruto gets the full-court press from Ui Aioi, a beautiful rookie novelist who adores him. With Christmas bells ringing in the background, it's a new season for the whole ensemble—but as they say, the more things change, the more they stay the same...

Studies in the Contract Laws of Asia Mindy Chen-Wishart,Alexander Loke,Burton Ong,2016-02-11 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of commerce where until now, limited critical commentaries have been available in the English language. In this new six part series of scholarly essays from leading scholars and commentators, each volume will offer an insider's perspective into specific areas of contract law, including: remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy, and will explore how these diverse jurisdictions address common problems encountered in contractual disputes. Concluding each volume will be a closing discussion of the convergences and divergences throughout each across the jurisdictions, and comparisons with European jurisdictions from which Asians well as an overview of the common themes found throughout each jurisdiction. Contract law derive. Volume I of this series examines the remedies for breach of contract in the laws of China, India, Japan, Korea, Taiwan, Singapore, Malaysia, Hong Kong, Korea, and Thailand. Specifically, it addresses the readiness of each legal system in their action to insist that parties perform their obligations; the methods of enforcing the parties' agreed remedies for breach; and the ways in which monetary compensation are awarded. Each jurisdiction is discussed over two chapters; the first chapter will examine the performance remedies and agreed remedies, while the second explores the monetary remedies. A concluding chapter offers a comparative overview.

Interactive Collaborative Information Systems Robert Babuka,Frans C.A. Groen,2010-03-22 The increasing complexity of our world demands new perspectives on the role of technology in decision making. Human decision making has its limitations in terms of information-processing capacity. We need new technology to cope with the increasingly complex and information-rich nature of our modern society. This is particularly true for critical environments such as crisis management and traffic management, where humans need to engage in close collaborations with artificial systems to observe and understand the situation and respond in a sensible way. We believe that close collaborations between humans and artificial systems will become essential and that the importance of research into Interactive Collaborative Information Systems (ICIS) is self-evident. Developments in information and communication technology have radically changed our working environments. The vast amount of information available nowadays and the wirelessly networked nature of our modern society open up new opportunities to handle difficult decision-making situations such as computer-supported situation assessment and distributed decision making. To make good use of these new possibilities, we need to update our traditional views on the role and capabilities of information systems. The aim of the Interactive Collaborative Information Systems project is to develop techniques that support humans in complex information environments and that facilitate distributed decision-making capabilities. ICIS emphasizes the importance of building actor-agent communities: close collaborations between human and artificial actors that highlight their complementary capabilities, and in which task distribution is flexible and adaptive.

The Diamond Tiger Ann Maxwell,1999 Erin Windsor hires a shady prospector to help her find her newly inherited diamond mine in the outback of Australia, and together they embark on an adventure cluttered by natural and man-made obstacles.

Is This the Best God Could Do? Sarah Tirri,2021-02-19 I was in a bad mood, pre-menstrual and bitchy. I had turned my cold back on my husband the night before. I had yelled at my kids. I felt disgruntled, and negative thoughts plagued me. I couldn't be bothered to change the dogs' water bowl, and I couldn't be bothered to shower. I remained on the couch and looked to escape. I turned on the TV and watched the desperate or maladjusted reveal themselves to Jerry Springer. I watched the news: an assortment of third-world scarcity, including a load of sub-Saharan children who really didn't care whether they lived or died, first-world surplus, deadly epidemics, warfare, terrorist attacks, suicide bombings, opiate addiction, youth rebellion, earthquakes, overcrowded schools, homelessness, identity theft, global warming, stock market uncertainly, out of control brush fires, unemployment, illegal immigration, and political corruption. It was all depressing. I then changed the channel and watched a surgeon prepare to separate Siamese-twins while their mother agonized over the fact that she'd had to choose. I changed it again and saw live coverage of a prison riot, and then I watched a documentary about the binge-drinking culture that is cursing my motherland. "Entertainment Television" was my last stop; here I learned about Hollywood's most acrimonious divorces....."What a crap planet this is," I said to God out loud. "Is this the best you could do?"

Pop Goes Korea Mark James Russell,2012-10-20 Mr. Russell's book is the first by a non-Korean to explain the rise of Korea's entertainment industries....the book could hardly be more approachable.—Wall Street Journal “For a country that traditionally received culture, especially from China but also from Japan and the United States, South Korea finds itself at a turning point in its new role as exporter.”—The New York Times From kim chee to kim chic! South Korea came from nowhere in the 1990s to become one of the biggest producers of pop content (movies, music, comic books, TV dramas, online gaming) in Asia—and the West. Why? Who's behind it? Mark James Russell tells an exciting tale of rapid growth and wild success marked by an uncanny knack for moving just one step ahead of changing technologies (such as music downloads and Internet comics) that have created new consumer markets around the world. Among the media pioneers profiled in this book is film director Kang Je-gyu, maker of Korea's first blockbuster film Shiri; Lee Su-man, who went from folk singer to computer programmer to creator of Korea's biggest music label; and Nelson Shin, who rose from North Korea to the top of the animation business. Full of fresh analysis, engaging reportage, and insightful insider anecdotes, Pop Goes Korea explores the hallyu (the Korean Wave) hitting the world's shores in the new century. Mark James Russell has been living in Korea since 1996. His articles about Korean and Asian cultures have appeared in Newsweek, The New York Times, International Herald-Tribune, and many other publications. He is currently the Korea/Japan Bureau Chief for Asian Movie Week magazine.
