Dam Buster Richard Morris,2023-05-04 'A stunningly good and surely definitive biography of one of the most fascinating British engineers ever to have lived' JAMES HOLLAND Barnes Wallis became a household name after the hit 1955 film *The Dam Busters*, in which Michael Redgrave portrayed him as a shy genius at odds with bureaucracy. This simplified a complicated man. Wallis is remembered for contributions to aviation that spanned most of the 20th century, from airships at its start to reusable spacecraft near the end. In the years between he pioneered new kinds of aircraft structure, bombs to alter the way in which wars are fought, and aeroplanes that could change shape in flight. Later work extended to radio telescopes, prosthetic limbs, and plans for a fleet of high-speed cargo submarines to travel the world's oceans in silence. For all his fame, little is known about the man himself - the confirmed bachelor who in his mid-30s fell hopelessly in love with his teenage cousin-in-law, the enthusiast for outdoor life who in his eighties still liked to walk up a mountain, or the rationalist who dallied with Catholic spirituality. *Dam Buster* draws on family records to reveal someone thick with contradictions: a Victorian who in his imagination ranged far into the 21st century; a romantic for whom nostalgic pastoral and advanced technology went together; an unassuming man who kept a close eye on his legacy. Wallis was last in a line of engineers who combined hands-on experience with searching vision. Richard Morris sets out to locate him in Britain's grand narrative.

CHURCHILL'S CHILDREN - The Phantom Zeppelin A R Grogan,2013-11 *Churchill's Children* is a coming of age story set against a back drop of the true events of the Second World War. Christopher Finch is the son of a wealthy American diplomat and a British journalist who live in London in 1939. The events that unfurl during the next five years, from his spying for Winston Churchill - the British war-time Prime minister - to escaping the closing claws of the Nazi empire, forms and shapes the talented Mr. Finch. Christopher Finch is not alone in his adventures, he is joined by a group of children from other wealthy and powerful families who have been evacuated from London to Christopher's parent's estate in the countryside of England. Together they form a close group of comrades, each with their own lives affected by the war clouds that are covering Europe.

Zeppelin; the Story of a Great Achievement Harry Vissering,1922

Zeppelins and Super-Zeppelins R. P. Hearne,1916 Page xiv (blank on the first edition), printed as a footnote to the Introduction on the second edition. Since the first edition went to press two more Zeppelin raids were made on England...

Bloody British History: Coventry David McGrory,2013-03-15 The decapitated Lord: Medieval slaughter at the castle! Yellows vs Blues: Coventry's most violent elections revealed! Kings, rebellions and rioters! Civil war comes to the city! Boiled in beer! Baked in his oven! The most dreadful Christmas calamities in Coventry's history are inside! Coventry has one of the darkest histories on record. With sieges, battles, crimes, riots, disasters, all-out attempts at demolition and some truly dreadful punishments to boot, you'll never see the city in the same way again.

Zeppelins of World War I Wilbur Cross,1991 *Zeppelins of World War I* details the German Naval Airship Division's (Luftschiffe) history, the psychological horrors of its bombing attacks on London, and the zeppelin's ultimate failure to remain a wartime vehicle or peacetime transport. With riveting first-person accounts and archival photographs, Wilbur Cross depicts the aerial battles between brave German airmen and British fighter pilots. Action from both sides of the war is presented including the determined efforts of Lieutenant William Leefe Robinson of the Royal Flying Corps, the first pilot to shoot down a zeppelin; the launching and aftermath of the greatest airship raid in history; and the spectacular death of Zeppelin L-48 (including the miraculous survival of the young German officer) that foreshadowed the ultimate demise of the Luftschiffe and Strasser's own violent death.--Jacket.

Zeppelin Vs British Home Defence 1915-18 Jon Guttman,2018-03-20 The German Zeppelin threat of World War I terrified the British public and presaged the Blitz of World War II. This fully illustrated study tells the fascinating story of the first ever German aircraft to attack British soil and the defenses that sought to bring them down.

The Zeppelin Phil Carradice,2017-09-09 For a brief period in the early Twentieth Century it seemed as if the future of air travel lay with the giant airships of Count von Zeppelin. The First World War ended that dream, fixed wing aircraft superseding the slow moving and unwieldy airships. As weapons of war the Zeppelins were never truly successful although they did manage to terrify huge numbers of unknowing and naive civilians-perhaps more by imagination than by any practical manifestation of their power. The Zeppelin crews of the First World War spent hours in the air, cold and hungry-and with the prospect of a horrendous death, either by fire or by falling thousands of feet to the ground, ever present. As vehicles of mass destruction the Zeppelins were remarkably ineffective. Their real value, lay in their ability to make silent reconnaissance missions over enemy territory and sea lanes. In the post-war days the public began to realise that airships offered a form of air travel that was comfortable, mostly stable and, sometimes, even luxurious. The 'Graf Zeppelin' and the 'Hindenburg' were the height of elegance.Unfortunately, they had two major defects-they were

vulnerable to the elements and, due to the hydrogen that kept them aloft, they were also highly flammable. The 'Hindenburg' disaster of 1937 effectively spelled the end of the giant airship as a commercial enterprise but for almost half a century these wonderful machines had cruised elegantly through the clouds.

The Zeppelin Reader Robert Hedin,1998 Tracing the history of the airship from its beginning in the nineteenth century to its fiery conclusion in 1937, Robert Hedin has gathered the finest stories, descriptions, poems, music, and illustrations about what the era was like in fact and in spirit.

Zeppelin Margaret L. Goldsmith,2017-07-31 IN his fiery, adventurous youth he joined the Union Army in our Civil War, and became vitally interested in aeronautics AS a man he was known as the most fearless and audacious officer the Württemberg Army AT fifty-two he retired and began the great adventure of his life—the conquest of the air THEN, with magnificent courage, he rode over obstacle and failure to an achievement immortal in the history of flying Originally published in 1931, this is a biography of Count von Zeppelin, the German general turned aircraft manufacturer who founded the Zeppelin airship company. Ferdinand Adolf Heinrich August Graf von Zeppelin (8 July 1838 - 8 March 1917), the scion of a noble family, was born in Konstanz, Grand Duchy of Baden (now part of Baden-Württemberg) in Germany. His father was Württemberg Minister and Hofmarschall Friedrich Jérôme Wilhelm Karl Graf von Zeppelin (1807-1886). Count Zeppelin's military career spanned more than three decades, beginning as an army officer in the army of Württemberg in 1855, seeing active service in the Franco-Prussian War of 1870-1871, and rising through the ranks to commander of the 19th Uhlans in Ulm and envoy of Württemberg in Berlin from 1882-1885. He retired from the army with the rank of Generalleutnant in 1891 at age 52. He was awarded the Ritterkreuz (Knight's Cross) of the Order of Distinguished Service of Württemberg. His service as an official observer with the Union Army during the American Peninsular War led him to travel to St. Paul, Minnesota, where the German-born former Army balloonist John Steiner offered tethered flights; it was his first ascent in a balloon during this visit that is said to have been the inspiration of Count Zeppelin's later interest in aeronautics. He passed away in 1917 at the age of 78, before the end of World War I. The unfinished World War II German aircraft carrier Graf Zeppelin and two rigid airships were named after him.

Zeppelin! Guillaume de Syon,2007-07 Six decades later, there is still a mystique surrounding these technological leviathans, one that Zeppelin! addresses with insight and wit.

What Was the Hindenburg? Janet B. Pascal,Who HQ,2014-12-26 At 800-feet long, the Hindenburg was the largest airship ever built--just slightly smaller than the Titanic! Also of a disastrous end, the zeppelin burst into flame as spectators watched it attempt to land in Lakehurst, New Jersey on May 6, 1937. In under a minute, the Hindenburg was gone, people jumping from windows to escape. However, only 62 of the 97 crew members and passengers onboard survived. The exact cause of the disaster is still unknown and remains a fascinating historical mystery perfect for this series.

The Golden Age of the Great Passenger Airships Harold Dick,Douglas Robinson,2014-12-02 Drawing on the extensive photographs, notes, diaries, reports, recorded data, and manuals he collected during his five years at the Zeppelin Company in Germany, from 1934 through 1938, Harold G. Dick tells the story of the two great passenger Zeppelins. Against the background of German secretiveness, especially during the Nazi period, Dick's accumulation of material and pictures is extraordinary. His original photographs and detailed observations on the handling and flying of the two big rigids constitute the essential data on this phase of aviation history.

The Zeppelins Passenger E. Phillips Oppenheim,2014-06-14 Narrative of a journey in the golden age of the Zeppelin. Reprint of the original book, originally published in 1918.

Zeppelin Hunters Simon Chapman,2014-02-01 WOW Facts! are specifically written for struggling readers. 1915. German Zeppelin airships were bombing London and nothing could be done about it. They flew too high up for the British biplanes to shoot them down. But they did have one major weakness.They were filled with explosive gas.

The Zeppelin in the Atomic Age Edwin J. Kirschner,1957

From Airbus to Zeppelin Norman Ferguson,2016-10-06 A must-have A–Z guide with fascinating facts, figures, quotes and statistics from the high-flying world of aviation, From Airbus to Zeppelin has it all. D is for Desert Island Discs: just what would Dambuster Guy Gibson have liked while marooned on his desert island? E is for Everest: did you know that two Scotsmen were the first to fly over the magnificent mountain? F is for Faster than the sun: which aircraft was the first to fly faster than the Earth's rotation? A must-read for anyone interested in the world of aviation – and may win the reader a pub quiz or two!

Peter Grant: The Man Who Led Zeppelin Chris Welch,2009-12-15 An unforgettable history of the 'fifth' member of Led Zeppelin and the toughest rock manager of them all. Chris Welch separates fact from myth and uncovers his complete story from childhood in war torn London, to becoming a bouncer, doorman and wrestler and helping turn Zep into rock's biggest attraction of the 70s.

The Zeppelin Christopher Chant,2000 The story of an invention that still exerts a certain fascination. This account of the Zeppelin begins at the turn of the century, paints a remarkable picture of its role during World War I and then takes the reader through the golden age of airship travel in the 1920s

and 30s.
