**Capture Japan** Marco Bohr,2022-12-01 Capture Japan investigates the formation of visual tropes and how these have contributed to perceptions of Japan in the global imagination. The book proposes that images are not incidental in the formation of such perceptions, but central to notions about identity, history and memory. From a tentative western ally in 1952 to a 'soft power' superpower with a huge global influence in the 21st century, the book locates questions about Japan in the global imagination to the country's transforming geopolitical position. By adopting an interdisciplinary approach, with a multiplicity of perspectives from around the world, Capture Japan goes beyond binarisms to uncover how images can also produce discourses that challenge, subvert or even contradict each other. The word 'capture' in the title of the book recognises both the deeply problematic role that images have played in relation to colonialism, as well as the potential dominance that visual spectacles can wield in a contemporary context. Diverse essays from a wide range of perspectives investigate the institutional framework that has allowed certain types of images of Japan to be promoted, while others have been suppressed. In doing so, the book points to a vast network of images that have shaped the perception of Japan both from within and from outside, revealing how these images are inextricably linked to wider ideological, political, cultural or economic agendas.

**The Coronavirus Pandemic in Japanese Literature and Popular Culture** Mina Qiao,2023-09-01 This volume is the first book-length collection on Japanese literary and popular cultural responses to the coronavirus pandemic in English. Disrupting the narrative of COVID-19 as a catastrophe without precedent, this book contextualizes the COVID-19 global public health crisis and pandemic-induced social and political turbulence in a post-industrial society that has withstood multiple major destructions and disasters. From published fiction by major authors to anonymous accounts on social media, from network TV shows to contents by Virtual YouTubers (VTubers), in both high and low culturescapes, timely representations of coronavirus and individual and social livings under its impact emerge. These narratives, either personal or top-down, all endeavor to fathom this unexpected disruption of modern linear progress. Exploring the paradoxes underlying the new normal of Japanese society of the present day, the book collectively demonstrates how the narratives of coronavirus are not neo- but re-: returning to the past, revealing existing problems and reclaiming memories lost and lessons forgotten. This edited volume will be of interest to researchers and students in the fields of Japanese culture and society, Japanese literature, and pandemic studies.

**Japan's Economic Planning and Mobilization in Wartime, 1930s-1940s** Yoshiro Miwa,2015-01-22 Although most economists maintain a mistrust of a government's goals when it intervenes in an economy, many continue to trust its actual ability. They retain, in other words, a faith in state competence. For this faith, they adduce no evidence. Sharing little skepticism about the government's ability, they continue to expect the best of governmental intervention. To study government competence in World War II Japan offers an intriguing laboratory. In this book, Yoshiro Miwa shows that the Japanese government did not conduct requisite planning for the war by any means. It made its choices on an ad hoc basis and the war itself quickly became a dead end. That the government planned for the war incompetently casts doubts on the accounts of Japanese government leadership more generally.

Decision-Making Reform in Japan Karol Zakowski,2015-04-24 In the election to the House of Representatives in 2009, the Democratic Party of Japan (DPJ) almost tripled the number of its lower house members by winning 308 seats. It subsequently formed a coalition government with the Social Democratic Party and the People’s New Party. The new ruling party promised to completely overhaul policymaking mechanisms that had been shaped over the past decades. Yet, the Japanese people quickly felt disappointed with the DPJ’s ‘policymaking engineering’. Examining the evolution of the decision-making process in Japan under the DPJ administration between the years 2009-2012, this book offers a multidimensional explanation for the reasons for the DPJ’s failure in producing effective policymaking mechanisms. Implementing conceptual tools borrowed from historical institutionalism, the author explains why the Democrats displayed inflexibility in introducing selected elements of the Westminster system, incoherence in regard to many aspects of the decision-making reform, and unwillingness to take advantage of all of the institutional resources at their disposal. The book argues that the examination of the DPJ’s origins and interactions with other parties is crucial in understanding its misconceptions regarding the institutional model, policy vision, and institutional tools required for a durable change in policymaking patterns. Illustrating its argument with a range of case studies, this book explains why, ultimately, the DPJ’s concept of a politician-led government resulted in failure. It will also be helpful in understanding the prerequisites for the success of institutional reforms in general. As such it will be of interest to students and scholars of Japanese studies, Political science, Asian studies.
