Zhitomir-Berdichev Stephen Barratt, 2014-05 This is the second volume of a two-volume set, which together comprise a detailed and well-researched history of the important but neglected operation that was to be the beginning of the liberation of western Ukraine. On 24 December 1943, the Red Army launched the first of a series of winter offensives against the German Army Group South under von Manstein, the overall object of which was to liberate western Ukraine from occupation. This first offensive is known to Soviet historians as the Zhitomir-Berdichev operation. Based on the unpublished records of the German 1st and 4th Panzer Armies, and supplemented by comprehensive mapping and order of battle data, this book provides an authoritative, detailed, day-by-day account of German operations as they developed in response to the Soviet offensive. It also provides a vivid insight into the planning and decision-making of the German Army field commands in conducting not only a mobile defense, but also a series of counterattacks, which, in the final analysis, could do little more than provide a temporary respite in the face of the growing strength and skill of the Red Army. Following on from where Volume 1 left off, this second volume describes events from 10 to 31 January 1944 and details the series of counterattacks undertaken by the Germans as they tried desperately to stabilize a situation that had already slipped beyond their control. By the time the last of these counterattacks was drawing to a close, the conditions had already been established for the next major Soviet offensive in the region: the Korsun' pocket. In tracing the course of these counterattacks, the book describes how the German operational situation developed during the period immediately leading up to the Soviet Korsun' offensive. Volume 2 includes the appendices, which provide order of battle detail for both sides, and comes with a separately bound book of 253 detailed daily situation maps in color to allow the reader to follow operations as they developed day by day. The first volume, already available from Helion, described operations until 9 January 1944, during which period the German forces were pushed back forcibly under the weight of the Soviet offensive. Together this two-volume set comprises a groundbreaking survey, which is likely to set a new standard for future studies of operational combat on the Eastern Front.

The Slaughter of the Jews in the Ukraine in 1919 Elias Heifetz, 1921

Polin: Studies in Polish Jewry Volume 14 Antony Polonsky, 2001-10-01 The Polish-Lithuanian Commonwealth, created in 1569, covered a wide spectrum of faiths and languages. The nobility, who were the main focus of Polishness, were predominantly Catholic, particularly from the later seventeenth century; the peasantry included Catholics, Protestants, and members of the Orthodox faith, while nearly half the urban population, and some 10 per cent of the total population, was Jewish. The partition of Poland

at the end of the eighteenth century and the subsequent struggle to regain Polish independence raised the question of what the boundaries of a future state should be, and who qualified as a Pole. The partitioning powers, for their part, were determined to hold on to the areas they had annexed: Prussia tried to strengthen the German element in Poland; the Habsburgs encouraged the development of a Ukrainian consciousness in Austrian Galicia to act as a counterweight to the dominant Polish nobility; and Russia, while allowing the Kingdom of Poland to enjoy substantial autonomy, treated the remaining areas it had annexed as part of the tsarist monarchy. When Poland became independent after the First World War more than a third of its population were thus Ukrainians, Belarusians, Germans, Jews, and Lithuanians, many of whom had been influenced by nationalist movements. The core articles in the volume focus especially on the triangular relationship between Poles, Jews, and Germans in western Poland, and between the different national groups in what are today Lithuania, Belarus, and Ukraine. In addition, the New Views section investigates aspects of Jewish life in pre-partition Poland and in the nineteenth and twentieth centuries. There are also the regular Review Essay and Book Review sections.

The Holocaust in the Soviet Union Yitzhak Arad, 2020-05-27 Published by the University of Nebraska Press, Lincoln, and Yad Vashem, Jerusalem The Holocaust in the Soviet Union is the most complete account to date of the Soviet Jews during the World War II and the Holocaust (1941-45). Reports, records, documents, and research previously unavailable in English enable Yitzhak Arad to trace the Holocaust in the German-occupied territories of the Soviet Union through three separate periods in which German political and military goals in the occupied territories dictated the treatment of the Jews. Arad's examination of the differences between the Holocaust in the Soviet Union compared to other European nations reveals how Nazi ideological attacks on the Soviet Union, which included war on Judeo-Bolshevism, led to harsher treatment of Jews in the Soviet Union than in most other occupied territories. This historical narrative presents a wealth of information from German, Russian, and Jewish archival sources that will be invaluable to scholars, researchers, and the general public for years to come.

Stalin's War with Germany: The road to Berlin John Erickson, 1999-01-01 Completing the most comprehensive and authoritative study ever written of the Soviet-German war, Erickson presents the vivid and compelling story of the Red Army's epic struggle to drive the Germans from Russian soil.

Collaboration in the Holocaust M. Dean, 2019-06-12 What was the role played by local police volunteers in the Holocaust? Using powerful eye-witness descriptions from the towns and villages of Belorussia and Ukraine, Martin Dean's new book reveals local policemen as hands-on collaborators of the Nazis. They brutally drove Jewish neighbors from their homes and guarded them closely on the way to their deaths. Some distinguished themselves as ruthless murderers. Outnumbering German police manpower in these areas, the local police were the foot-soldiers of the Holocaust in the east.

The Road To Berlin John Erickson, 2019-07-11 This book traces Russian campaigns from the counterattack at Stalingrad to the fall of Berlin and the capture of Prague. It explores in detail Stalin's wartime relations with Roosevelt and Churchill and examines the evolution of his policies toward Poland

and the Balkans.

Retribution Prit Buttar, 2019-10-31 From critically acclaimed Eastern Front expert Prit Buttar comes this paperback edition of his detailed and engrossing account of the World War II's Eastern Front as German forces were driven back following the Battle of Kursk. Making use of the extensive memoirs of German and Russian soldiers to bring this story to life, *Retribution* follows on from *On A Knife's Edge*, which described the encirclement and destruction of the German Sixth Army at Stalingrad and the offensives and counteroffensives that followed throughout the winter of 1942–43. Beginning towards the end of the Battle of Kursk, *Retribution* tells the story of the massive Soviet offensive that followed the end of Operation Zitadelle, which saw depleted and desperate German troops forced out of Western Ukraine. This title describes in detail the little-known series of near-constant battles that saw a weakened German army confronted by a tactically sophisticated force of over six million Soviet troops. As a result, the Wehrmacht was driven back to the Dnepr and German forces remaining in the Kuban Peninsula south of Rostov were forced back into the Crimea, a retreat which would become one of many in the months that followed.

Obedient Unto Death Werner Kindler, 2014-03-06 Between 1941 and 1944 Waffen-SS Oberscharführer (Sergeant) Werner Kindler took part in 84 days of close combat, qualifying him for the Close Combat Clasp in Gold, the Third Reich's highest decoration for a frontline soldier. He was also awarded the German Cross in Gold, the Iron Cross First and Second Class and the Wound Badge in Gold.??Drafted into the SS-Totenkopf in 1939, he served with a motorised unit in Poland, and in May 1941 was selected for the Leibstandarte-SS Adolf Hitler, with which he fought in the invasion of the Soviet Union. His unit converted to a Panzer Grenadier formation in 1942, and Kindler went on to fight at Kharkov and Kursk on the Eastern Front, and later in Belgium and France in 1944. At the end of the war, he was the last man of the Leibstandarte-SS to surrender to the Americans. This is one of the most dramatic first-hand accounts to come out of the Second World War.
