**Russian Motor Vehicles** Maurice A. Kelly, 2011-04-15 A book concerning Russian Limousines, and the Chinese models that were initially derived from them, has never been attempted before. This book investigates the whole story of why the Soviet Communist Party required such a bourgeois product, and how production was subsequently achieved. Following the orders of Stalin, work on the Limousines commenced during the first Five Year Plan (1927-1933) at the Putilov Works, later the Kirov Zavod, where the Leningrad L-1 was made in a limited number. From these beginnings, the Moscow and Gorky models emerged, and later the Chinese-derived types made with Russian aid during the late 1950s. Covering all of these models, up to the last one produced in 2003, and featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of a previously neglected subject.

**Driveline Systems of Ground Vehicles** Alexandr F. Andreev, Viachaslau Kabanau, Vladimir Vantsevich, 2010-09-07 With this book, Prof. Dr. Vantsevich brings a tremendous contribution to the field of Automotive Transmission and Driveline Engineering, including his innovative methods for optimum driveline synthesis, as well as his experience with the development of various hardware solutions, from the basic limited slip differentials to the most sophisticated mechatronic systems. —Dr.-Ing. Mircea Gradu Director, Transmission and Driveline Engineering Head, Virtual Analysis Tools Chrysler Group LLC ? Now that vehicles with four and more driving wheels are firmly ensconced in the consumer market, they must provide energy/fuel-saving benefits and improved operational quality including terrain mobility, traction and velocity properties, turnability, and stability of motion. A first-of-its-kind resource, *Driveline Systems of Ground Vehicles: Theory and Design* presents a comprehensive and analytical treatment of driveline research, design, and tests based on energy efficiency, vehicle dynamics, and operational properties requirements. This volume addresses fundamental engineering problems including how to investigate the effect of different driveline systems on the properties of vehicles and how to determine the optimal characteristics of the driveline system and its power-dividing units (PDUs) and design it for a specific vehicle to ensure high level of vehicle dynamics, energy efficiency, and performance. The authors develop an analytical apparatus for math modeling of driveline systems that can be compiled from different types of PDUs. They also introduce methodologies for the synthesis of optimal characteristics of PDUs for different types of vehicles. Structured to be useful to engineers of all levels of experience, university professors and graduate students, the book is based on the R&D projects conducted by the authors. It explores intriguing engineering dilemmas such as how to achieve higher energy and fuel efficiency by driving either all the wheels or not all the wheels, solve oversteering issues by managing wheel power distribution, and many other technical problems.

**Soldiers of Peace** Vladimir Wilson, 2017-04-18 What happens when a communist falls in love with a capitalist in the middle of the Cold War? This story revolves around a Russian Spy who falls in love with a British Spy. The matter no longer remains personal. It becomes a threat to the State security of the countries that are involved in espionage activities. World's premier agencies at the time like the KGB, MI6, and CIA etc. become the antagonist of the plot and the whole world act in hypocrisy. The division of their love is in Berlin. It is the Berlin Wall. This wall divided not just two individuals, but the entire humanity into two pieces. The Book answers some of the deepest questions of philosophy too. The dialogues are philosophical in nature. Some new concepts, interpretations as well as terms have been coined and introduced in the story. Also, it has seriously-witty situations. Some of the questions that are answered include: What is Cold War? What is Propaganda? What is Love-crime? What is Body complex? What is Slave-paradox? What is Love-republic? What is Rims Psychology? What is Cemetery paradox? What is Operation-separation? Why is Life not a Bed of Roses? How to pass a secret mail? Where is the heart of a KGB Spy? How to suppress a Counter-revolution?

*Auta východního bloku* Jan Tuček, 2009-01-01 Bezkonkurenční ojedinělá publikace o automobilech značek Škoda, Tatra, Trabant, Wartburg, Polski Fiat, Dacia, Olcit, Moskvíč, Lada, Volga, které neodmyslitelně patřily ke koloritu předlistopadové éry. Někdy jsme nad nimi ohrnovali nos a toužili po něčem lepším, většina z nás však stejně neměla na vybranou. Dnes se nad tím můžeme pousmát, zapomenout bychom však neměli. Extra Lemon! Tony Davis, 2005 'The sales slogan was 'Make way for the Austin Freeway'. Car buyers did more than that. 'They gave it the widest berth possible.' 'You may not recall the Falcon EA. But Ford certainly does. It had to recall tens of thousands of them.' 'During 27 years, the Trabant evolved from a primitive, badly built deathtrap into a primitive, badly built deathtrap with a 12-volt electrical system.' 'In this laugh out-loud sequel to the bestselling LEMON!, Tony Davis inducts 65 more cars into his Motoring Hall of Shame. Read about cars like the East German Trabant, with its cotton-reinforced body; or the dafter-than-you'd-believe-possible Lightburn Zeta Sports, which the brochure bizarrely dubbed a 'super car' (the only thing it could leap in a single bound was out of gear). There's the appalling Piazza, the ridiculously hyped Tucker 48 and the explosive Ford Pinto: all shining examples of the hair-brained, the unsightly, the excruciatingly dull and the magnificently unsuccessful. EXTRA LEMON will make you wince, groan and avert your eyes - once you've stopped laughing. More heroic failures of motoring by the author of the bestselling LEMON!

**Pedro and Ricky Come Again** Jonathan Meades, 2021-03-18 This landmark publication collects three decades of writing from one of the most original, provocative and consistently entertaining voices of our time. Anyone who cares about language and culture should have this book in their life. Thirty years ago, Jonathan Meades published a volume of reportorial journalism, essays, criticism, squibs and fictions called *Peter Knows What Dick Likes*. The critic James Wood was moved to write: 'When journalism is like this, journalism and literature become one.' *Pedro and Ricky Come Again* is every bit as rich and catholic as its predecessor. It is bigger, darker, funnier, and just as impervious to taste and manners. It bristles with wit and pin-sharp eloquence, whether Meades is contemplating northernness in a German forest or hymning the virtues of slang. From the indefensibility of nationalism and the ubiquitous abuse of the word 'iconic', to John Lennon's shopping lists and the wine they call Black Tower, the work assembled here demonstrates Meades's unparalleled range and erudition, with pieces on cities, artists, sex, England, concrete, politics and much, much more.

*Kara Kush* Idries Shah, 2019-03-10 In December of 1979, Soviet tanks rolled across the borders of Afghanistan, beginning a period of barbaric aggression that triggered a turning point in modern history. Idries Shah's brilliant novel chronicles the courageous 10-year resistance of the Afghan people, an epic story of triumph over tyranny that deserves to be immortalized. *Kara Kush* is the definitive story of freedom fighters. It is a story of patriotism-in-action, mobilized and fuelled not by a mass-media propaganda machine, or the charisma of a single individual, but by a thousands-of-years-old tradition of proud independence, deep love of one's land, and fierce will to survive. *Kara Kush* was first published in 1986, at a time when most of the outside world dismissed the Afghan resistance as a rag-tag lot of rival guerrilla factions in a futile holdout against an invincible military machine. With extraordinary insight into human nature and the course of human history, *Kara Kush* told the real story. According to Shah, almost all of the people in the text of the novel actually exist or did. The

accounts of battles and raids, precise military details, and the stories of Soviet and red Afghan atrocities were all from primary sources eye witnesses, participants, defectors, victims, and prisoners. This remarkable book, among all other sources, offers keys to understanding not only this important strategic region, but the very phase in world history in which we find ourselves today. Much more than a novel, even more than a tribute, Kara Kush stands as a model of human vision, leadership, cooperation, and capacity at a time when we need it most. 'I collected this material from freedom fighters, some of them my own relatives, from refugees, and from men and women, fighting shoulder to shoulder, from all over Afghanistan.' - Idries Shah
