*Now or Then* Linda Zock,2009-10-12 Season-Marie is a beautiful, but lonely woman. Even being a successful editor of a popular fashion magazine didn't take that feeling of loneliness away. She desperately wanted to meet the man of her dreams. One who would bring her happiness, and the kind of love she had been searching for all of her life. In her spare time Season-Marie read romance novels wishing for her own happy ending. She dreamed of being the belle of the ball, and finding her own true love. But being the optimist she was, she didn't think he would just come knocking on her door. Then one Saturday night after a few glasses of wine and finishing one of her books the strangest thing happened. As Season-Marie rose from the couch to head for bed, everything around her became surreal. Passing out, she later woke to find herself 100 years in the past. That's when she met Lord Jonathan Drake. The man of her dreams. The kind of man she had been looking for all of her life. One who truly cared for her and loved her deeply. But could she really have somehow been transported back in time, or was all of it just a dream?

**Religious Voices in Self-Narratives** Marjo Buitelaar,Hetty Zock,2013-07-31 In present-day pluralistic and individualized societies, the question of how individuals appropriate religious traditions has become particularly relevant. In this volume, psychologists, anthropologists, and historians examine the presence of religious voices in narrative constructions of the self. The focus is on the multiple ways religious stories and practices feature in self-narratives about major life transitions. The contributions explore the ways in which such voices inform the accommodation and interpretation of these transitions. In addition to being inspired by Dan McAdams' approach to life stories as 'personal myths' that inform us about the quests of individuals for a satisfactory balance between agency and communion, most of the contributors have found the theory of 'the dialogical self' developed by Hubert Hermans particularly useful. Thus the contributions explore the ways in which identity formation is shaped by internal dialogues between personal and collective voices in the context of the specific constellations of power in which these voices are embedded. The volume is divided into three parts addressing theoretical and methodological considerations, religious resources in narratives on life transitions, and religious positioning in diaspora.

*Trends in Natural Language Generation - An Artificial Intelligence Perspective* Giovanni Adorni,Michael Zock,1996-03-13 This proceedings volume gives an up-to-date overview of the most recent results in the field of plant molecular response to environmental constraints, especially heat, cold, water/drought, salt or light. It centers on molecular approaches in understanding the bases of plant tolerance to physical stresses, links among different environmental stresses, and the manipulation of gene expression by recombinant DNA technology to obtain tolerant transgenic plants.

The Temple of Gold William Goldman,2001-10-02 Acclaimed for such Academy Award—winning screenplays as Butch Cassidy and the Sundance Kid and such thrillers as Marathon Man, not to mention the bestselling classic The Princess Bride, William Goldman stands as one of the most beloved writers in America. But long before these triumphs, he caused a sensation with his brilliant first novel, a powerful story of reckless youth that was hailed as a worthy rival to The Catcher in the Rye. THE TEMPLE OF GOLD Ray Trevitt is coming of age in the American midwest of the late 1950s. Handsome, restless, eager to live life and to find his place in the world, Ray hurtles headlong through a young man's rite of passage—searching for answers and somewhere to belong. What he discovers is that within friendships and love affairs, army tours and married life, victory and tragedy, lie the experiences that will shape his destiny, scar his soul, and ultimately teach him profound lessons he never expected.

**Ant on the Run** Jan Cookson,2003-09-24 Ant on the Run is an adventure story that teaches children about insects and other tiny creatures, in an interesting way that will hold the attention of the child. The creatures in the book face the sorts of dangers each day that would make humans heroes. The story tells of a bond between three unlikely friends, that other animals in their world find hard to understand. One of the friends, an arrogant sugar ant who is a prince, discovers that he has to leave the nest in a hurry. The ant in this story (Aaron), and his two friends (Lucy, a caterpillar who matches wits with Aaron, and Zack, a kind hearted skink) flee from the nest and its huge soldier ants. Their journey takes them through many adventures, and they meet some unusual creatures along the way before finding their new home. But finding this home results in Zack having to face his greatest fear.

Rocky Boyer's War Allen D Boyer,2017-05-15 In Rocky Boyer's War, Allen Boyer offers a wry, keen-eyed, and occasionally disgruntled counterpoint history of the hard-fought, brilliant campaign that won World War II in the Southwest Pacific. Based in part on an unauthorized diary kept by the author's father, 1st Lt. Roscoe "Rocky" Boyer, this narrative history offers the reader an account of Allied air commander Gen. George Kenney's air blitz offensive as it was lived both in the cockpit and on the ground. During 1944, as Gen. Douglas MacArthur's forces fought their way from New Guinea to the Philippines, Kenney, discarding pre-war doctrine, planned and ran an "air blitz" offensive. His 5th Air Force drove forward like a tank army, crash-landing in open country, seizing terrain, bulldozing new airfields, winning air control, and moving forward. At airfields on the front line, Rocky kept the radios working for the 71st Tactical Reconnaissance Group, a fighter-bomber unit. Diaries were forbidden, but Rocky kept one—full of casualties, accidents, off-duty shenanigans, and rear-area snafus. He had friends killed when they shot it out with Japanese anti-aircraft gunners, or when their bombers vanished in bad weather. He wrote about wartime camp life at Nadzab, New Guinea, the largest air base in the world, part Scout camp and part frontier boomtown. He knew characters worthy of Catch-22: combat flyers who played contract bridge, military brass who played office politics, black quartermasters, and chaplains who stood up to colonels when a promotion party ended with drunken gunplay and dynamite. This is a narrative of the war as airmen lived it. Rocky's experience of life on the front line gives from-the-bottom-up detail to the framework of Kenney's air blitz. The author uses Rocky's story as a jumping-off point from which to understand the daily life, pranks, mishaps, and casualties, of the men who in 1944 fought their way over the two thousand miles from New Guinea to the Philippines.

**William Goldman: The Reluctant Storyteller** Sean Egan, William Goldman is one of the world’s most popular storytellers. Amongst his more than two-dozen motion picture screenplays are such iconic works as Butch Cassidy and the Sundance Kid, The Stepford Wives, All the President’s Men and A Bridge Too Far. His acclaimed novels include The Temple of Gold, Boys and Girls Together, The Princess Bride and Marathon Man. His non-fiction embraces The Season and Adventures in the Screen Trade, considered the definitive studies on Broadway and Hollywood respectively. Yet despite his success, Goldman has always been a tormented man, unable to enjoy either his art or the respect it has garnered him. Convinced he is “in on a pass,” he has rarely written without a profound sense of self-doubt. In William Goldman: The Reluctant Storyteller, Sean Egan analyzes both Goldman’s life and output, a task in which he has been assisted by Goldman himself via a series of interviews. The result is an enthralling book that gets to the core of a man who is both supreme talent and perplexing enigma.

**Advances in Natural Language Generation** Michael Zock,Gerard Sabah,1988 This collection of essays deals with the problem of natural language generation, that is: how to simulate by computer the determinism, organization and expression of thoughts in oral or written form. Compared to sentence or text-analysis (parsing) little work has been done in the field of generation, which is still a young discipline.

Current Research in Natural Language Generation Robert Dale,Christopher S. Mellish,Michael Zock,1990 Natural language generation research has been boosted in the past decade by an increased engagement in the problems of constructing coherent and purposeful texts with computers. In the course of this research many linguistic formalisms have been adopted. This book provides a snapshot of the state-of-the-art in natural language. It gathers the leading U.S. and European NLG researchers and sets them in the context of five themes--text planning, linguistic realism, building realization, building descriptions, and connectionist approaches.
