*The Land of Zond* Faye Berryman,Philip O'Carroll,2002 Readers 1x-10x are 10 new stories, set at the beginner level (as 1-10). These were requested by teachers to provide children with more practice on simple sounding words before moving on to the next level (11-20) with its many digraphs.Without introducing any new spelling principles, the Readers 1x-10x provide more long words which can be simply sounded out.The printer's a (a rather than a) is introduced in story 4x.There are hardly any new special words in the 1x-10x series. The basic principles of sounding out are consolidated with more sounding words and longer sounding words.

**Soviet and Russian Lunar Exploration** Brian Harvey,2007-08-17 This book tells the story of the Soviet and Russian lunar programme, from its origins to the present-day federal Russian space programme. Brian Harvey describes the techniques devised by the USSR for lunar landing, from the LK lunar module to the LOK lunar orbiter and versions tested in Earth's orbit. He asks whether these systems would have worked and examines how well they were tested. He concludes that political mismanagement rather than technology prevented the Soviet Union from landing cosmonauts on the moon. The book is well timed for the return to the moon by the United States and the first missions there by China and India.
