Understanding Game Scoring Mack Enns,2021-11-21

Understanding Game Scoring explores the unique collaboration between gameplay and composition that defines musical scoring for video games. Using an array of case studies reaching back into the canon of classic video games, this book illuminates the musical flexibility, user interactivity and sound programming that make game scoring so different from traditional modes of composition. Mack Enns explores the collaboration between game scorers and players to produce the final score for a game, through case studies of the Nintendo Entertainment System sound hardware configuration, and game scores, including the canonic scores for Super Mario Bros. (1985) and The Legend of Zelda (1986). This book is recommended reading for students and researchers interested in the composition and production of video game scores, as well as those interested in ludo-musicology.

Whose Blues? Adam Gussow, 2020-09-28 Mamie Smith's pathbreaking 1920 recording of Crazy Blues set the pop music world on fire, inaugurating a new African American market for race records. Not long after, such records also brought black blues performance to an expanding international audience. A century later, the mainstream blues world has transformed into a multicultural and transnational melting pot, taking the music far beyond the black southern world of its origins. But not everybody is happy about that. If there's No black. No white. Just the blues, as one familiar meme suggests, why do some blues people hear such pronouncements as an aggressive attempt at cultural appropriation and an erasure of traumatic histories that lie deep in the heart of the music? Then again, if blues is black music, as some performers and critics insist, what should we make of the vibrant global blues scene, with its all-comers mix of nationalities and ethnicities? In *Whose Blues?*, award-winning blues scholar and performer Adam Gussow confronts these challenging questions head-on. Using blues literature and history as a cultural anchor, Gussow defines, interprets, and makes sense of the blues for the new millennium. Drawing on the blues tradition's major writers including W. C. Handy, Langston Hughes, Zora Neale Hurston, and Amiri Baraka, and grounded in his first-person knowledge of the blues performance scene, Gussow's thought-provoking book kickstarts a long overdue conversation.

Women of the Underground: Art Zora von Burden, 2012-11-20

"It is not about provocation, reaction or even invocation, it is about transformation: mentally and physically."—Marina Abramovic, artist "Art is subjective, and if one sees something in an image, that projection is a reflection of the spectator, who sees what he or she wants to see, whose critique is relevant to him or herself, exposing his or her own perversions."—Irina Ionesco, artist Until the late twentieth century, women's creative skills were relegated to craft and decorative arts, and valued only for utilitarian purposes in service to others and the manufacturing of products to benefit society. After enduring the great injustice of being denied the freedom that self-expression brings through art for the joy of the human spirit, *Women of the Underground: Art* celebrates those female cultural innovators who are creating new artwork that pushes boundaries, dares to question, and redefines the genres of mixed media; theater; film; photography; and visual, conceptual, and performance art. In this groundbreaking anthology that will inspire artists and everyone interested in alternatives to mainstream culture, as well as serve as a reference book for art historians, twenty-six female artists describe their ideas, beginnings, influences, and creative techniques. Contains interviews with Lady Pink, Marina Abramovic, Orlan, Aleksandra Mir, Penny Arcade, Johanna Went, the Guerrilla Girls, and many others. Editor Zora von Burden was born and raised in San Francisco, California. A frequent contributor to *The San Francisco Herald*, von Burden also wrote the screenplay for Geoff Corder's underground cult classic film, *Hotel Hopscotch*.

American Playwrights, 1880-1945 William W. Demastes, 1995

During the years 1880 to 1945, American theatre grew up, moving from entertainment-driven motives and melodramatic formulas to serious confrontations with issues of its time and to an experimentation with forms that would allow those confrontations to be frank and earnest. Many of the playwrights of this time wrote works of lasting significance, while others have impacted the work of contemporary dramatists. This reference is a guide to American theatre during this formative period. The volume includes alphabetically arranged entries for 40 American playwrights active between 1880 and 1945. Included are the most frequently canonized figures, as well as previously neglected women and minority playwrights whose work is a vital part of American theatre history. Each entry includes a biographical overview, a summary of the critical reception of major productions and significant revivals, a critical assessment of the playwright's career, and a listing of archival, primary, and secondary bibliographic material.

The Whole Machinery Benjamin S. Child, 2019-11-01 A familiar story holds that modernization radiates outward from metropolitan origins. Expanding on Walter Benjamin's notion of *die Moderne*, *The Whole Machinery* explores representations of people and places, objects and occasions, that reverse that trajectory, demonstrating how modernizing agents move in a contrary direction as well—from the country to the city. In a crucial reconsideration, these figures aren't pulled by or into urban modernity so much as they bring alternate—and transformative—iterations of the modern to the urban world. Upending the U.S. South's reputation as either retrograde or unresponsive to modernity, Benjamin S. Child shows how the effects of national and transnational exchange, emergent technologies, and industrialization animate environments and bodies associated with, or performing, versions of the rural. To this end, he also exposes the shadow side of the cosmopolitan modern by investigating the rural sources—the laboring bodies and raw materials—that made such urban spaces possible, thus taking a

broader survey of landscapes created by the Atlantic world's histories of uneven development. In this investigation of the rural modern that considers multiple media and forms of technology, Child's sources range widely, encompassing a spectrum of texts and their networks of transmission, reception, and signification. These include novels, poems, and short stories but also radio broadcasts, sound recordings, political pamphlets, photographs, magazine articles, newspaper reports, and agricultural bulletins. Folding such expressive artifacts into his larger arguments, Child considers how they both reflect and form modern(ist) culture. The result is a geography of southern modernism that includes an unexpected combination of landmarks, both actual and imagined: Twisted Oak, Arkansas, and Tukabahchee County, Alabama; Manhattan, Manchester, and Moscow; Tuskegee and Gobbler's Knob, North Carolina.

Going Up the Country Marina Bokelman, David Evans, 2022-11-08 At the height of the blues revival, Marina Bokelman and David Evans, young graduate students from California, made two trips to Louisiana and Mississippi and short trips in their home state to do fieldwork for their studies at UCLA. While there, they made recordings and interviews and took extensive field notes and photographs of blues musicians and their families. *Going Up the Country: Adventures in Blues Fieldwork in the 1960s* presents their experiences in vivid detail through the field notes, the photographs, and the retrospective views of these two passionate researchers. The book includes historical material as well as contemporary reflections by Bokelman and Evans on the times and the people they met during their southern journeys. Their notes and photographs take the reader into the midst of memorable encounters with many obscure but no less important musicians, as well as blues legends, including Robert Pete Williams, Mississippi Fred McDowell, Al Wilson (cofounder of Canned Heat), Babe Stovall, Reverend Ruben Lacy, and Jack Owens. This volume is not only an adventure story, but also a

scholarly discussion of fieldwork in folklore and ethnomusicology. Including retrospective context and commentary, the field note chapters describe searches for musicians, recording situations, social and family dynamics of musicians, and race relations and the racial environment, as well as the practical, ethical, and logistical problems of doing fieldwork. The book features over one hundred documentary photographs that depict the field recording sessions and the activities, lives, and living conditions of the artists and their families. These photographs serve as a visual counterpart equivalent to the field notes. The remaining chapters explain the authors' methodology, planning, and motivations, as well as their personal backgrounds prior to going into the field, their careers afterwards, and their thoughts about fieldwork and folklore research in general. In this enlightening book, Bokelman and Evans provide an exciting and honest portrayal of blues field research in the 1960s.

Zora and Langston: A Story of Friendship and Betrayal

Yuval Taylor, 2019-03-26 A Finalist for the 2019 Los Angeles Times Book Prize in Biography "A complete pleasure to read." —Lisa Page, Washington Post Novelist Zora Neale Hurston and poet Langston Hughes, two of America's greatest writers, first met in New York City in 1925. Drawn to each other, they helped launch a radical journal, *Fire!!* Later, meeting by accident in Alabama, they became close as they traveled together—Hurston interviewing African Americans for folk stories, Hughes getting his first taste of the deep South. By illuminating their lives, work, competitiveness, and ambitions, Yuval Taylor savvily details how their friendship and literary collaborations dead-ended in acrimonious accusations.

Developmental Editing Scott Norton, 2023 First published in 2009, Scott Norton's book is the only guide dedicated solely to the art of developmental editing. With more than three decades of experience in the field, Norton offers expert advice on how to approach the task of diagnosing and fixing structural problems with book manuscripts in consultation with authors and publishers.

He illustrates these principles through a series of detailed case studies featuring before-and-after tables of contents, samples of edited text, and other materials to make an otherwise invisible process tangible. This revised edition includes a new chapter on editing fiction, which presents similar challenges to nonfiction plus a range of additional ones, including issues of premise, setting, plot, and character development. For the first time, the book comes with a set of exercises that allow readers to edit sample materials and compare their work with that of an experienced professional. And it includes new or expanded coverage of basic business arrangements for freelancers, self-publishing, e-books, and content marketing, among other topics. Aspiring and experienced developmental editors as well as the authors who work with them will find a wealth of insight in this new edition--

Developmental Editing Scott Norton, 2011-11-30 Editing is a tricky business. It requires analytical flair and creative panache, the patience of a saint and the vision of a writer. Transforming a manuscript into a book that edifies, inspires, and sells? That's the job of the developmental editor, whose desk is the first stop for many manuscripts on the road to bookdom—a route ably mapped out in the pages of *Developmental Editing*. Author Scott Norton has worked with a diverse range of authors, editors, and publishers, and his handbook provides an approach to developmental editing that is logical, collaborative, humorous, and realistic. He starts with the core tasks of shaping the proposal, finding the hook, and building the narrative or argument, and then turns to the hard work of executing the plan and establishing a style. *Developmental Editing* includes detailed case studies featuring a variety of nonfiction books—election-year polemic, popular science, memoir, travel guide—and authors ranging from first-timer to veteran, journalist to scholar. Handy sidebars offer advice on how to become a developmental editor, create effective illustration programs, and adapt sophisticated fiction techniques (such as point of view, suspense, plotting, character, and setting)

to nonfiction writing. Norton’s book also provides freelance copyeditors with a way to earn higher fees while introducing more creativity into their work lives. It gives acquisitions, marketing, and production staff a vocabulary for diagnosing a manuscript’s flaws and techniques for transforming it into a bestseller. And perhaps most importantly, Developmental Editing equips authors with the concrete tools they need to reach their audiences.
