Dan Rather

The Practice of Public Relations Fraser P. Seitel, 2014 Pairing Fraser Seitel's unique, humorous voice with the most up-to-date case studies, interviews, news photos, and other techniques, the Practice of Public Relations is truly an in-your-face Public Relations textbook. The 12th edition continues the theme of giving readers the knowledge and skills they need to know to be successful in today's world of public relations --including heavy emphasis on social media and ethics.

Central Works of Philosophy: The twentieth century: Quine and after John Shand, 2005 Volume 1 gives readers a deep understanding of the contribution that the ancient Greek and medieval philosophers have made to contemporary philosophical debate. From Plato to William of Ockham, the philosophical texts covered offer a remarkable insight into a world out of which our present way of thinking emerged.

Rather Outspoken Dan Rather, 2012-05-01 An in-depth memoir from famed newsman Dan Rather, who looks back over his storied and sometimes controversial career and reveals his personal thoughts and reflections. This memoir by Dan Rather is told in a straightforward and conversational voice, and covers all the important moments of his journalistic career, including a frank accounting of his dismissal from CBS, the Abu Ghraib story, the George W. Bush Air National Guard controversy, new insights on the JFK assassination, the origin of Hurricane Dan as well as inside stories about all the U.S. Presidents he covered and all the top personalities Dan has either interviewed or worked with over his distinguished career. The book will also include Dan's thoughts on the state of journalism today and what he sees for its future, as well as never-before-revealed personal observations and commentary.

Called to Life Jacques Philippe, 2017-03-30 How do I find fulfillment in life? How do I obtain happiness? Despite a multitude of self-help books in recent years, these eternal questions have become increasingly urgent in today's directionless world. Author Jacques Philippe provides some answers. In his new book, Called to Life, he explains that a complete and fulfilled life is much more assured when we stop trying to chart our own course, when we realize that we are essentially creatures called by God. He goes on to describe where and how these calls take place: the events of life, the Word of God in Scripture, and interior motions of the Holy Spirit. Learning to recognize and follow these calls is what leads to a happy and full life. Called to Life includes a special section on how to read Sacred Scripture prayerfully (Lectio Divina), making this a timely source of inspiration and guidance following up on the recommendations of Pope Benedict XVI and the 2008 Synod of Bishops on the Word of God.
