Choreonarratives ,2021-05-31 Choreonarratives, a collection of essays by classicists, dance scholars, and dance practitioners, explores the uses of dance as a narrative medium. Case studies from Greek and Roman antiquity illustrate how dance contributed to narrative repertoires in their multimodal manifestations, while discussions of modern and contemporary dance shed light on practices, discourses, and ancient legacies regarding the art of dancing stories. Benefitting from the crossover of different disciplinary, historical, and artistic perspectives, the volume looks beyond current narratological trends and investigates the manifold ways in which dance can acquire meaning, disclose storyworlds ranging from myths to individual life-stories, elicit the narratees' responses, and generate powerful narratives of its own. Together, the eclectic approaches of Choreonarratives rethink dance's capacity to tell, enrich, and inspire stories. Contributors are Sophie M. Bocksberger, Iris J. Bührle, Marie-Louise Crawley, Samuel N. Dorf, Karin Fenböck, Susan L. Foster, Laura Gianvittorio-Ungar, Sarah Olsen, Lucia Ruprecht, Karin Schlapbach, Danuta Shanzer, Christina Thurner, Yana Zarifi-Sistovari, Bernhard Zimmermann

The Physical Geography of Southeast Asia Avijit Gupta,2005-02-24 The Physical Geography of Southeast Asia examines the complex mosaic of physical environments which comprise Southeast Asia, and the current environmental problems and management practices which have arisen in this part of the world. The book is in three sections. The first section introduces the basic environmental components (geology, landforms, rivers, vegetation, and others) across the entire region. The second section discusses specific environments that are characteristic of this assemblage of continental and maritime landscapes (volcanic islands, coastal environment, granitic terrains, karst, etc.). The third and final section illustrates the ecological relationship between the environment and people (volcanic hazards, urban environment, coastal zone development, coralreefs, and others).The physical environment of Southeast Asia is examined at different levels, covering a world region that ranges from ancient, stable landmasses to dynamic, unstable plate boundaries, from aged, primary rainforests to brash, vibrant, resource-demanding built environments. Southeast Asia has been perceived as a laboratory for studying plate tectonics. It is an assemblage of large river basins, peninsulas and archipelagos, and seas surrounded by islands. It is an area of great physical variationswhere parts of the physical environment have been significantly degraded anthropogenically, following rapid population growth and development. In large parts of the region, the forms and processes on land and offshore should no longer be seen as entirely natural. As this book repeatedly illustrates,plate tectonics and people are both important contributors to the physical geography of Southeast Asia.The contributors to this volume are distinguished, scholarly, and have a long association with Southeast Asia. The chapters are not only skilfully built on state-of-the-art research findings but also include new material from the on-going research activities of the authors. The book goes beyond being the first comprehensive and detailed volume of the biophysical geography of Southeast Asia in that it also deals with the tropical environment and the relationship between environment and people in a rapidly developing world region.

Business & Management Practices Duygu Fırat,Osman Yılmaz,Detelina Smilkova,2019-12-18 Businesses are important for economic development of nation and increasing of living standards of people. Also, management is a critical factor for both businesses because it creates utility for businesses. All the success and failure depend upon business functions and management. In this context, this book contains three important factors of business management. In the first part of the book covers strategic management subjects; especially entrepreneurship and human resource management. The second part of the book includes accounting and auditing. The third part of the book is about marketing.

Arjunawijaya S. Supomo,2013-11-11 Like many works of Old Javanese literature, the kakawin Arjunawijaya (Arj.) was first introduced to the world of Western scholarship in 1849 through the well-known report of Friederich, Voorloopig Verslag van het Eiland Baii. In this report Friederich (1959: 25) says: 'The Arjuna Vijaya (the Triumph of Arjuna) is fonned after the Uttarak?l4a ... It contains the combat of Arjuna with R?vat]. a and his victory. R?vat]. a is here bound, but not yet killed, because his time has not yet arrived. Re is to be destroyed by R?ma ... ' Written in 1849, when the study of Old Javanese had barely taken the first step in its slow progress on a long and arduous road, Friederich's report was a promising start. It is therefore disheartening to discover how, 120 years later, the Arj. is still little more than a closed book. To the best of my knowledge there is not one article exclusively devoted to any aspect of the poem, let alone a major publication. It would be an exaggeration, however, to say that the Arj. is completely unknown to students of Old Javanese. Short descriptions of the manuscripts of this kakawin, and even outlines of their contents, have been given in the Catalogues of the Old Javanese manuscripts in the possession of the Library of the University of Leiden, and in the few articles and books treating Old Javanese literature in general. Occasionally a reference to the Arj

Literature of Java Theodore G. TH. Pigeaud,2013-06-29 The third, concluding volume of Literature of Java contains Addenda and a General Index, preceded by Illustrations, Facsimiles of Manuscripts, Maps and some Minor Notes, additions which may be of U'se to students of Javanese literature. The older catalogues of collections of Indonesian manuscripts (Javanese, Malay, Sundanese, Madurese, Balinese), which were written in Dutch, did not offer such additional aids to interested readers. One of the reasons was. , that the authors (Vreede, Brandes, van Ronkel, Juynboll, Berg) presupposed a certain knowledge of the Indones,ian peoples, their countries and their culture with Dutch students. As often as not the latter, or their families, had lived for many years in Java, and they were destined, when they had completed their studies in The Netherlands, to pass one or more decades of 'their active life in the ,tropics in the service of Government, the Christian Missions or the Bible Society. The Archipelago was their second home country. Some familiarity with things Indonesian was found in several circles of society in The Netherlands before the second world war, and information (though not always scholarly and exact) was supplied by quite a number of books and periodicals. For this reason it was thought superfluoU's to encumber specialistic books like catalogues of manuscripts with maps and general information which could be found easily elsewhere, for instance in the Dutch Encyclopaedie van Nederlandsch-Indie. As circumstances have changed it is.

Seafood Safety Institute of Medicine,Food and Nutrition Board,Committee on Evaluation of the Safety of Fishery Products,1991-02-01 Can Americans continue to add more seafood to their diets without fear of illness or even death? Seafood-caused health problems are not widespread, but consumers are at risk from seafood-borne microbes and toxinsâ€with consequences that can range from mild enteritis to fatal illness. At a time when legislators and consumer groups are seeking a sound regulatory approach, Seafood Safety presents a comprehensive set of practical recommendations for ensuring the safety of the seafood supply. This volume presents the first-ever overview of the field, covering seafood consumption patterns, where and how seafood contamination occurs, and the effectiveness of regulation. A wealth of technical information is presented on the sources of contaminationâ€microbes, natural toxins, and chemical pollutantsâ€and their effects on human health. The volume evaluates methods used for risk assessment and inspection sampling.
