Tatra – The Legacy of Hans Ledwinka Ivan Margolius, John G. Henry, 2020-01-28 Tatra – The Legacy of Hans Ledwinka is the story of the Tatra company, which originated in the Central European country of Czechoslovakia. It is a tale of great innovation and avant-garde design in automobile engineering. It is also the story of one man – Hans Ledwinka – and his visionary concepts which have become highly influential, although often undervalued, contributions to the development of car technology. Until now, Hans Ledwinka's talent has hardly been recognised; in retrospect, he can be judged equal to car designers such as Benz, Daimler and Porsche, whose endeavours have been fully recorded many times over. With his revolutionary Tatra cars, Ledwinka consistently pushed back the frontiers of automobile construction, and it's certain that without his inspiration, the Volkswagen in its air-cooled rear-engined form would perhaps never have been conceived. This book suggests that Ledwinka played a greater part in this development than has previously been appreciated. The authors have covered the full history of the Tatra company, which is one of the oldest factories in continuous automobile manufacture, dating back to the 19th century. By doing this, they have placed both Ledwinka and the Czechoslovak Tatra company in their rightful place in the history of car design, and provided a fully comprehensive assessment of the influence of Tatra car designs and their inspired creator. The text of this larger format 2nd edition has been fully revised and updated since the 1990 edition. This new edition also contains many additional illustrations. The book also has a new foreword, written by Norman Foster, the British architect, and proud owner of a Tatra T87, who pays tribute to the aesthetic qualities of this design classic and captures the fascination of both designers and motor historians with the development of Tatra.

India and Central Europe Rajendra K. Jain, 2021-09-01 This book explores the transformation of India's relations with Central and Eastern Europe from being a subset of Indo-Soviet relations during the Cold War to the rediscovery and rebuilding of relations with the region almost from scratch in the post-Cold War era. It examines how the combination of Brexit, the rise of China and India's expanding geo-economic interests in Europe has led the Narendra Modi government to contemplate relations with Central Europe through a more strategic lens and treat the region as an autonomous element within India's foreign policy rather than a footnote of its relations with other great powers. Fulfilling a long-felt gap in existing literature, this volume examines India's political, economic, investment, defence and cultural relations with the Visegrad Four (the Czech Republic, Hungary, Poland and Slovakia). It analyzes Indian perceptions of Central Europe and explores prospects of New Delhi's political and economic engagement with the region. The painstakingly compiled appendices on the exchange of bilateral visits and agreements between India and the Visegrad Four would be of immense use as a handy reference to scholars, policy-makers, and other interested persons and institutions.

They write, President Putin may hope to achieve glory through restoring, through intimidation and force, Russian dominion over its neighbors.
