**Java with Object-oriented Programming** Paul S.

Wang,2003 Paul Wang's JAVA WITH OBJECT-ORIENTED PROGRAMMING eases students into an understanding of the object-oriented paradigm from the very first page, just as he does in JAVA WITH OBJECT-ORIENTED PROGRAMMING WITH WORLDWIDE WEB APPLICATIONS, on which this new book is modeled. After the early chapters that present classes and Java features and constructs, Wang introduces new object-oriented concepts throughout the book, while clearly showing how Java addresses these issues. He also goes the extra step of including case studies to illustrate how Java and object-oriented programming are applied. Early in the book, Wang introduces students to a case study involving a pocket calculator. This case study is revisited throughout the book as students learn new aspects of object-oriented programming and the Java language. The book then concludes with a chapter on some of the processes associated with object-oriented design. As a result, students are able to fully grasp the concepts they learn.

It is designed to stand by itself as an interpretation of the original, but it will also be useful as an aid to reading the Greek text.

*Audition Playbook* Rachelle Jenkins, 2019-03 The Audition Playbook is a two-part guide and workbook designed to help musicians of all instruments and levels efficiently and effectively plan and prepare for orchestra, band, or other ensemble auditions. No matter the goal, the Audition Playbook provides the framework upon which musicians can carefully create, implement, and follow their own plans from start to finish. Many factors go into having a successful audition and every winner will tell you about wildly different tools and secrets that set them apart from the pack. Every person--and every audition--is different. However, there are certain elements that tend to be universal among audition winners, and often, the most important factor is simply having a plan--a thoughtful, deliberate plan--and sticking with it. The Audition Playbook is not a one-size-fits-all template and does not set out to plan your entire audition for you. Part One: The Guide offers an overview of the the many different facets of audition preparation to consider and provides tools, suggestions, and exercises to implement into your own plan. Part Two: The Workbook provides the canvas upon which you will build your personal audition plan. Among the many topics covered: The four

phases of audition preparation Goal-setting and re-setting Taking honest assessments of your technique, knowledge of the repertoire, and other skills Planning your daily and weekly practicing The development of performance skills Planning for the unexpected Recording your practice Mock auditions Writing your Audition Day Script Reflecting on your auditions Whether you're already a regular on the audition trail, a first-timer new to the world of auditions, or an already-established professional looking to up your game, the Audition Playbook is for you. \*\* Rachelle Jenkins is an accomplished horn player who has played with the Los Angeles Philharmonic, Montréal Symphony, Iceland Symphony, Hawaii Symphony, and many other orchestras and chamber ensembles around the world.
