Vegan Eats World Terry Hope Romero,2012-10-30 What If the World Was Vegan? The true building blocks of cuisines across the planet are the spices, herbs, and grains—from basmati rice to buckwheat, coconut to caraway seeds. Apply those flavors to vegan staples such as seitan, or tofu and even straight-up vegetables, and the possibilities? If not endless, pretty darned expansive. So what if the world was vegan? Your own cooking is the answer to that question; fire up the stove and make a green curry, simmer a seitan date tagine stew, or hold a freshly made corn tortilla piled high with chile-braised jackfruit in your hand. Chart your course in the great, growing map of vegan food history. Award-winning chef, author of *Veganomicon*, and author of *Viva Vegan* Terry Hope Romero continues the vegan food revolution with more than 300 bold, delicious recipes based on international favorites. With chapters devoted to essential basics such as Spice Blends; The Three Protein Amigos; and Pickles, Chutneys & Saucier Sauces, you can make everything from salads to curries, dumplings and desserts. *Vegan Eats World* will help you map your way through a culinary world tour, whether you want to create a piergoi party or Thai feast, easy Indian chaat lunch or Your International House of Dinner Crepes.

Transforming the Workforce for Children Birth Through Age 8 National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

International Macroeconomics in the Wake of the Global Financial Crisis Laurent Ferrara,Ignacio Hernando,Daniela Marconi,2018-06-13 This book collects selected articles addressing several currently debated issues in the field of international macroeconomics. They focus on the role of the central banks in the debate on how to come to terms with the long-term decline in productivity growth, insufficient aggregate demand, high economic uncertainty and growing inequalities following the global financial crisis. Central banks are of considerable importance in this debate since understanding the sluggishness of the recovery process as well as its implications for the natural interest rate are key to assessing output gaps and the monetary policy stance. The authors argue that a more dynamic domestic and external aggregate demand helps to raise the inflation rate, easing the constraint deriving from the zero lower bound and allowing monetary policy to depart from its current ultra-accommodative position. Beyond macroeconomic factors, the book also discusses a supportive financial environment as a precondition for the rebound of global economic activity, stressing that understanding capital flows is a prerequisite for economic-policy decisions.

Ethnicity and Family Therapy Monica McGoldrick,John K. Forensic Neuropathology Jan E. Leestma,Sanford Bon,2008-10-14 Over the past 30 years, as both forensic pathology and neuropathology have grown in sophistication, the two specialties have forged a heightened level of interaction. Reflecting the vast increase in knowledge and scientific progress in the past two decades, *Forensic Neuropathology, Second Edition* examines the new developments that have arisen since

Artificial Hells Claire Bishop,2012-07-24 Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato

Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as social practice. Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

Realising REDD+ Arild Angelsen, 2009-01-01 REDD+ must be transformational. REDD+ requires broad institutional and governance reforms, such as tenure, decentralisation, and corruption control. These reforms will enable departures from business as usual, and involve communities and forest users in making and implementing policies that affect them. Policies must go beyond forestry. REDD+ strategies must include policies outside the forestry sector narrowly defined, such as agriculture and energy, and better coordinate across sectors to deal with non-forest drivers of deforestation and degradation. Performance-based payments are key, yet limited. Payments based on performance directly incentivise and compensate forest owners and users. But schemes such as payments for environmental services (PES) depend on conditions, such as secure tenure, solid carbon data and transparent governance, that are often lacking and take time to change. This constraint reinforces the need for broad institutional and policy reforms. We must learn from the past. Many approaches to REDD+ now being considered are similar to previous efforts to conserve and better manage forests, often with limited success. Taking on board lessons learned from past experience will improve the prospects of REDD+ effectiveness. National circumstances and uncertainty must be factored in. Different country contexts will create a variety of REDD+ models with different institutional and policy mixes. Uncertainties about the shape of the future global REDD+ system, national readiness and political consensus require flexibility and a phased approach to REDD+ implementation.

Legacy of Ash Matthew Ward, 2019-11-05 *Legacy of Ash* is an unmissable fantasy debut—an epic tale of intrigue and revolution, soldiers and assassins, ancient magic and the eternal clash of empires. A shadow has fallen over the Tressian Republic. Ruling families -- once protectors of justice and democracy -- now plot against one another with sharp words and sharper knives. Blinded by ambition, they remain heedless of the threat posed by the invading armies of the Hadari Empire. Yet as Tressia falls, heroes rise. Viktor Akadra is the Republic's champion. A warrior without equal, he hides a secret that would see him burned as a heretic. Josiri Trelanis Viktor's sworn enemy. A political prisoner, he dreams of reigniting his mother's failed rebellion. And yet Calenne Trelan, Josiri's sister, seeks only to break free of their tarnished legacy; to escape the expectation and prejudice that haunts the family name. As war spreads across the Republic, these three must set aside their differences in order to save their home. Yet decades of bad blood are not easily set aside. And victory -- if it comes at all -- will demand a darker price than any of them could have imagined.

Women, Business and the Law 2021 World Bank, 2021-04-05 *Women, Business and the Law 2021* is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, *Women, Business and the Law 2021* makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

The Manchurian Candidate Richard Condon, 2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: “Brilliant . . . wild and exhilarating.” —*The New Yorker* A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors’ signal. Now he’s been returned to the United States with a covert mission: to kill a candidate running for US president . . . This “shocking, tense” and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (*San Francisco Chronicle*). “Crammed with suspense.” —*Chicago Tribune* “Condon is wickedly skillful.” —*Time*

At Risk Piers Blaikie, Terry Cannon, Ian Davis, Ben Wisner, 2014-01-21 The term 'natural disaster' is often used to refer to natural events such as earthquakes, hurricanes or floods. However, the phrase 'natural disaster' suggests an uncritical acceptance of a deeply engrained ideological and cultural myth. At Risk questions this myth and argues that extreme natural events are not disasters until a vulnerable group of people is exposed. The updated new edition confronts a further ten years of ever more expensive and deadly disasters and discusses disaster not as an aberration, but as a signal failure of mainstream 'development'. Two analytical models are provided as tools for understanding vulnerability. One links remote and distant 'root causes' to 'unsafe conditions' in a 'progression of vulnerability'. The other uses the concepts of 'access' and 'livelihood' to understand why some households are more vulnerable than others. Examining key natural events and incorporating strategies to create a safer world, this revised edition is an important resource for those involved in the fields of environment and development studies.

Handbook of Research on Student Engagement Sandra L. Christenson, Amy L. Reschly, CATHY WYLIE, 2012-02-23 For more than two decades, the concept of student engagement has grown from simple attention in class to a construct comprised of cognitive, emotional, and behavioral components that embody and further develop motivation for learning. Similarly, the goals of student engagement have evolved from dropout prevention to improved outcomes for lifelong learning. This robust expansion has led to numerous lines of research across disciplines and are brought together clearly and comprehensively in the Handbook of Research on Student Engagement. The Handbook guides readers through the field's rich history, sorts out its component constructs, and identifies knowledge gaps to be filled by future research. Grounding data in real-world learning situations, contributors analyze indicators and facilitators of student engagement, link engagement to motivation, and gauge the impact of family, peers, and teachers on engagement in elementary and secondary grades. Findings on the effectiveness of classroom interventions are discussed in detail. And because assessing engagement is still a relatively new endeavor, chapters on measurement methods and issues round out this important resource. Topical areas addressed in the Handbook include: Engagement across developmental stages. Self-efficacy in the engaged learner. Parental and social influences on engagement and achievement motivation. The engaging nature of teaching for competency development. The relationship between engagement and high-risk behavior in adolescents. Comparing methods for measuring student engagement. An essential guide to the expanding knowledge base, the Handbook of Research on Student Engagement serves as a valuable resource for researchers, scientist-practitioners, and graduate students in such varied fields as clinical child and school psychology, educational psychology, public health, teaching and teacher education, social work, and educational policy.

World War Z Max Brooks, 2013 An account of the decade-long conflict between humankind and hordes of the predatory undead is told from the perspective of dozens of survivors who describe in their own words the epic human battle for survival, in a novel that is the basis for the June 2013 film starring Brad Pitt. Framework for Equitable Allocation of COVID-19 Vaccine National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Board on Health Sciences Policy, Committee on Equitable Allocation of Vaccine for the Novel Coronavirus, 2020-11-30 In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. Vaccination

against this novel coronavirus, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), offers the possibility of significantly reducing severe morbidity and mortality and transmission when deployed alongside other public health strategies and improved therapies. Health equity is intertwined with the impact of COVID-19 and there are certain populations that are at increased risk of severe illness or death from COVID-19. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. Framework for Equitable Allocation of COVID-19 Vaccine offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.

Chocolate-Covered Katie Katie Higgins,2015-01-06 What if you CAN eat all of your favorite desserts . . . and still be healthy and fit into your skinny jeans? Meet Katie: a girl who eats chocolate every day and sometimes even has cake for breakfast! Soon, Katie's healthy dessert blog had become an Internet sensation, with over six million monthly visitors. Now, in her first cookbook, Katie shares over 80 never-before-seen recipes, such as Chocolate Obsession Cake, Peanut Butter Pudding Pops, and Ultimate Unbaked Brownies, that use only real ingredients, without any unnecessary fats, sugars, or empty calories. These desserts prove once and for all that health and happiness can go hand-in-hand-you can have your dessert and eat it, too!

Paper Cadavers Kirsten Weld,2014-02-26 In *Paper Cadavers*, an inside account of the astonishing discovery and rescue of Guatemala's secret police archives, Kirsten Weld probes the politics of memory, the wages of the Cold War, and the stakes of historical knowledge production. After Guatemala's bloody thirty-six years of civil war (1960–1996), silence and impunity reigned. That is, until 2005, when human rights investigators stumbled on the archives of the country's National Police, which, at 75 million pages, proved to be the largest trove of secret state records ever found in Latin America. The unearthing of the archives renewed fierce debates about history, memory, and justice. In *Paper Cadavers*, Weld explores Guatemala's struggles to manage this avalanche of evidence of past war crimes, providing a firsthand look at how postwar justice activists worked to reconfigure terror archives into implements of social change. Tracing the history of the police files as they were transformed from weapons of counterinsurgency into tools for post-conflict reckoning, Weld sheds light on the country's fraught transition from war to an uneasy peace, reflecting on how societies forget and remember political violence.

Surrealism and Cinema Michael Richardson,2006-03-01 Surrealism has long been recognised as having made a major contribution to film theory and practice, and many contemporary film-makers acknowledge its influence. Most of the critical literature, however, focuses either on the 1920s or the work of Buuel. The aim of this book is to open up a broader picture of surrealism's contribution to the conceptualisation and making of film. Tracing the work of Luis Buuel, Jacques Prvert, Nelly Kaplan, Walerian Borowczyk, Jan vankmajer, Raul Ruiz and Alejandro Jodorowsky, *Surrealism and Cinema* charts the history of surrealist film-making in both Europe and Hollywood from the 1920s to the present day. At once a critical introduction and a provocative re-evaluation, *Surrealism and Cinema* is essential reading for anyone interested in surrealist ideas and art and the history of film.
