**Music Scenes** Andy Bennett,Richard A. Peterson,2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

**Paint by Sticker Kids: Dinosaurs** Workman Publishing,2020-07-21 Paint by Sticker Kids just gets stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid’s favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don’t forget about the king of them all: a ferocious T-Rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without them even thinking they’re doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!

*Original Grin* Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

**Achtung-Panzer!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
