Internet for Nursing Research Joyce J. Fitzpatrick,Kristen S. Montgomery,2004-09-20 This book is a resource for using the internet as a tool in all aspects of nursing research--conducting it, teaching it, and using it. From searching online databases to creating surveys and recruiting research subjects online, the internet opens new possibilities in the research process, as well as new problems. Experienced researchers describe internet-based research methods, information on online methods for teaching research, and accessing the research of others. The appendixes include samples of existing research projects that use internet-based methodologies, as well as a listing of online resources for researchers.

Rigorous State-Based Methods Alexander Raschke,Dominique Méry,2021-05-22 This book constitutes the proceedings of the 8th International Conference on Rigorous State-Based Methods, ABZ 2021, which was planned to take place in Ulm, Germany, during June 6-11, 2021. The conference changed to an online format due to the COVID-19 pandemic. The 6 full and 8 short papers included in this volume were carefully reviewed and selected from 18 submissions. The proceedings also include 3 PhD symposium contributions. They deal with state-based and machine-based formal methods, mainly Abstract State Machines (ASM), Alloy, B, TLA+, VDM, and Z.

Kissing Architecture Sylvia Lavin, 2011-05-09 Architecture's growing intimacy with new types of art Kissing Architecture explores the mutual attraction between architecture and other forms of contemporary art. In this fresh, insightful, and beautifully illustrated book, renowned architectural critic and scholar Sylvia Lavin develops the concept of kissing to describe the growing intimacy between architecture and new types of art—particularly multimedia installations that take place in and on the surfaces of buildings—and to capture the sensual charge that is being designed and built into architectural surfaces and interior spaces today. Initiating readers into the guilty pleasures of architecture that abandons the narrow focus on function, Lavin looks at recent work by Pipilotti Rist, Doug Aitken, the firm Diller Scofidio + Renfro, and others who choose instead to embrace the viewer in powerful affects and visual and sensory atmospheres. Kissing Architecture is the first book in a cutting-edge new series of short, focused arguments written by leading critics, historians, theorists, and practitioners from the world of urban development and contemporary architecture and design. These books are intended to spark vigorous debate. They stake out the positions that will help shape the architecture and urbanism of tomorrow. Addressing one of the most spectacular and significant developments in the current cultural scene, Kissing Architecture is an entertainingly irreverent and disarmingly incisive book that offers an entirely new way of seeing--and experiencing--architecture in the age after representation.

The Nurse, the Math, the Meds Joyce L. Mulholland, Joyce M. Mulholland, 2006-10 This text emphasizes the simplicity of the dimensional analysis method to help even those students with math anxiety minimize or eliminate medication calculation errors. It begins with a comprehensive review of general math skills and an explanation of basic dimensional analysis methodology. The book focuses on the analysis and setup of practice problems, formulation of a reasonable answer, and evaluation of the answer. This one-of-a-kind text is designed for nursing students at all levels, including graduate nurses and practicing nurses who want a refresher. It is an appropriate text selection for agency in-service programs as well as for physician assistant medication math courses. A companion CD-ROM packaged with the text offers additional practice problems. A self-assessment test precedes the comprehensive math review in Chapter 1, promoting a strong math foundation. Chapter 2 introduces the dimensional analysis method and includes several basic practice problems, facilitating consistent application of the method throughout the text. The analysis and setup of practice problems increases comprehension, reduces errors, and complements use of the dimensional analysis method. To help reduce medication errors, the text follows JCAHO and ISMP recommendations regarding avoidance of ambiguous abbreviations, acronyms, and symbols. Each chapter begins with a quick overview of chapter contents to orient students as they prepare to read and study the material. The text's full-color design includes a special margin section in which students can work out practice problems on the spot. Rapid Practice exercises follow each main concept, allowing students to review even when their study time is limited or frequently interrupted. Test Tips enhance comprehension and improve students' test-taking skills and comfort level. Selected Mnemonics are supplied to facilitate memorization and conserve learning time. Red Arrow Alerts call attention to critical math concepts and patient-safety theory as well as to key nursing practice issues. FAQs and Answers are derived from students' actual classroom questions. They are particularly helpful to students who are studying outside of a traditional classroom environment. Ask Yourself questions help students comprehend and synthesize content. Communication boxes, which present sample nurse-patient and nurse-prescriber dialogues, illustrate clinical applications of medication administration. Cultural boxes describe selected math-notation and medication-related cultural practices. Clinical Relevance boxes show how abstract concepts, such as legal issues, apply to everyday clinical practice. Website addresses

and other useful references are provided where applicable. Two chapter finals are included at the end of each chapter, one multiple-choice format and one traditional format, with answers provided in the back of the book. Two comprehensive finals, one using an NCLEX examination-style multiple-choice format and one following a traditional format, test the major concepts covered in the text and offer an opportunity for additional practice. An answer key in the back of the book contains step-by-step solutions to the Rapid Practice exercises, chapter finals, and comprehensive text finals, allowing the student to pinpoint specific areas for further review.

Kinfolk Volume 14 Various,2014-11-25 The Winter Issue: This edition has a seasonal theme that brings the focus back to the magazine's core goals, ideas and values. The issue will feature personal essays, simple recipes, uplifting photo essays and portraits of people living the good life. It also offers inspiration to do some indoor sparring; Professor Deane Curtin talking about eating in the moment; sculptures that show the way our bodies change when chilled; a visit to a hot spring; home tours in Copenhagen and Melbourne; a profile of a changing neighborhood in South East London; and something to inspire you while commuting. The issue contains a special themed section about Light, one of the most missed aspects of our winter days, with features on circadian rhythms, solstice traditions and the aurora borealis, along with profiles on artists and designers who work with light. Along with lots of things to cook, make and do, Kinfolk suggests ways to live a more creative, simple, connected life.

Burnished Rows of Steel Jeremy Davies,2016-01-05 Most who read the Declaration of Independence find three foundational liberties promised to our citizens: life, liberty, and the pursuit of happiness. An increasing number of citizens seem to be discovering the fourth: the right to alter or abolish a form of government that leads invariably to tyranny. Since leaving the military and his security contracting work behind, Dave has been preparing himself for the time when exercising the right to alter or abolish may become necessary. When he is approached on behalf of some powerful men who are prepared to risk their fortune to strike a blow against the political tyranny embodied by the president, Dave is prepared to accept the role of assassin. As he prepares to accept the mission of a lifetime, an alternate narrative begins to unfold. He struggles to discover whether the hit will be on behalf of a besieged gun maker or whether it has been orchestrated by members of the president's own party, who feel that his death would rescue the chances of their party heading into an election. As the motive becomes clear, so does Dave's course of action. He is caught in a race against time to thwart their plans, not for the leader of a country but for the life of a friend.
