Francis Ford Coppola's The Godfather Trilogy Nick Browne, 1999-11-13 The Godfather trilogy is among the most significant works of Hollywood cinema of the last quarter century. They provide a richly complex look at a whole segment of American life and culture spanning almost the whole century. In six essays, written especially for this volume, The Godfather trilogy is re-examined from a variety of perspectives. Providing analyses on the form and significance of Coppola's achievement, they demonstrate how the filmmaker revised the conventions of the American crime film in the Viet Nam era, his treatment of the capitalism of the criminal underworld and its inherent violence, the power struggles within Hollywood over the film, and the contribution of opera to the epic force and cinematic style of Coppola's vision of an American criminal dynasty. The Godfather articulates the themes, styles, mythologies, performances, and underlying cultural values that have made the film a modern

classic.

Preserver William Shatner,2012-10-09 In the Mirror Universe the tyrannical Emperor Tiberius,

once captain of the ISS Enterprise, had great success turning captured alien weaponry to his advantage. Until, that is, his failure to seize the tantalising advances of the ancient First Federation. Now, in the more peaceful universe of the United Federation of Planets, Tiberius sees his second chance. And a new ally will help him take it - his alter ego for whom he has nothing but contempt - Starfleet Captain James T. Kirk. Honorable, idealistic and decent, James T. Kirk is many things Tiberius is not. But he is also a man deeply in love with his wife - and Teilani is dying. To save her life, Kirk is prepared to compromise his ideals and enter into his most dangerous alliance yet. Battling Captain Jean-Luc Picard and a new generation of Starfleet heroes, Kirk must guide Tiberius to a long-abandoned First Federation base which conceals a power so great it will enable Tiberius to conquer the mirror universe - and his own. But on that journey Kirk uncovers long-hidden secrets that raise the stakes far beyond the mere survival of family and friends. At the heart of their quest, something else is waiting: an object from a civilisation whose technology is far more advanced than any Kirk or Tiberius could hope to acquire, placed there for Kirk's eyes only by mysterious aliens who appear to have

influenced life within the galaxy over eons of time - a message from the Preservers...

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Mogworld Yahtzee Croshaw,2018-05-29 In a world full to bursting with would-be heroes, Jim

couldn't be less interested in saving the day. His fireballs fizzle. He's awfully grumpy. Plus, he's been dead for about sixty years. When a renegade necromancer wrenches him from eternal slumber and into a world gone terribly, bizarrely wrong, all Jim wants is to find a way to die properly, once and for all. On his side, he's got a few shambling corpses, an inept thief, and a powerful death wish. But he's up against tough odds: angry mobs of adventurers, a body falling apart at the seams — and a team of programmers racing a deadline to hammer out the last few bugs in their AI. *Mogworld is the debut novel from video-game icon Yahtzee Croshaw (Zero Punctuation)! With an exclusive one-chapter preview of Yahtzee Croshaw's next novel, Jam—coming to bookstores in October 2012! *Ben Yahtzee Croshaw's video review site, Zero Punctuation, receives over 2,500,000 unique hits a month, and has been licensed by G4 Television. *Yahtzee's blog receives about 150,000 hits per day.
