The Black Jacobins C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791-1803 "One of the seminal texts about the history of slavery and abolition.... Provocative and empowering." --The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces--and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

To the Lighthouse Virginia Woolf, 2023-01-01 This landmark work of modernist literature explores the inner lives of a typical English family while vividly exploring the nature of loss and memory. Following her celebrated masterpiece *Mrs. Dalloway*, Virginia Woolf continues to develop her groundbreaking stream-of-consciousness technique in *To the Lighthouse*. Every summer, the Ramsey family returns to the Isle of Skye for a tranquil holiday, where the imposing lighthouse seems to promise everlasting constancy. But as their idyllic holiday confronts the realities of World War I, the Ramseys must also face the inescapable nature of change. A profound evocation of marriage, parenthood, aging, and grief, *To the Lighthouse* is regarded as one of the greatest novels of the twentieth century.

The Faber Book of Nursery Verse Barbara Ireson, 1983 A collection of rhymes, verses, jingles, riddles, and limericks from traditional sources, together with a selection of favorite poems by English and American authors, chiefly of the nineteenth and twentieth centuries.

The lives of the most eminent English poets: with critical observations on their works Samuel Johnson, 1821

Vietnam Studies Col Francis J. Kelly, 2016-12-10 As long ago as 1957, U.S. Army Special Forces soldiers were in

the Republic of Vietnam. going about their business of training, advising, and assisting members of the Vietnamese Army. Despite the old Army witticism about never volunteering for anything, the Special Forces soldier is. in fan, a double volunteer, having first volunteered for airborne training and then again for Special Forces training. From a very meager beginning but sustained by a strong motivation and confidence in his mission, the Special Forces soldier has marched through the Vietnam struggle in superb fashion. In 1957 some fifty-eight Vietnamese soldiers were given military training by Special Forces troops. Ten years later the Special Forces were advising and assisting over 40,000 paramilitary troops, along with another 40,000 Regional Forces and Popular Forces soldiers. This monograph traces the development and notes the progress, problems. successes, and failures of a unique program undertaken by the U.S. Army for the first lime in its history. It is hoped that all the significant lessons learned have been recorded and the many pitfalls of such a program uncovered. I am responsible for the conclusions reached, yet my thought processes could not escape the influence of the many outstanding officers and men in the Special Forces who joined in the struggle. Particularly, I must lake note of the contributions of the Special Forces noncommissioned officers, without question the most competent soldiers in the world. With the withdrawal of the Special Forces from Vietnam in 1971, the Army could honestly lay claim to a new dimension in ground warfare-the organized employment of a paramilitary force in sustained combat against a determined enemy. I know I speak for my predecessors and successors in claiming that the 5th Special Forces Group (Airborne) was the finest collection of professional soldiers ever assembled by the U.S. Army, anywhere, anytime. Francis John Kelly Colonel, Armor 1972
