The Golden Age of Piracy Benerson Little,2016-10-04 For thousands of years, pirates have terrorized the ocean voyager and the coastal inhabitant, plundered ship and shore, and wrought havoc on the lives and livelihoods of rich and poor alike. Around these desperate men has grown a body of myths and legends—fascinating tales that today strongly influence our notions of pirates and piracy. Most of these myths derive from the pirates of the “Golden Age,” from roughly 1655 to 1725. This was the age of the Spanish Main, of Henry Morgan and Blackbeard, of Bartholomew Sharp and Bartholomew Roberts. The history of pirate myth is rich in action, at sea and ashore. However, the truth is far more interesting. In *The Golden Age of Piracy*, expert pirate historian Benerson Little debunks more than a dozen pirate myths that derive from this era—from the flying of the Jolly Roger to the burying of treasure, from walking the plank to the staging of epic sea battles—and shows that the truth is far more fascinating and disturbing than the romanticized legends. Among Little’s revelations are that pirates of the Golden Age never made their captives walk the plank and that they, instead, were subject to horrendous torture, such as being burned or hung by their arms. Likewise, epic sea battles involving pirates were fairly rare because most prey surrendered immediately. The stories are real and are drawn heavily from primary sources. Complementing them are colorful images of flags, ships, and buccaneers based on eyewitness accounts. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

The Cambridge Prehistory of the Bronze and Iron Age Mediterranean A. Bernard Knapp,Peter van Dommelen,2015-01-12 The Cambridge Prehistory of the Bronze and Iron Age Mediterranean offers new insights into the material and social practices of many different Mediterranean peoples during the Bronze and Iron Ages, presenting in particular those features that both connect and distinguish them. Contributors discuss in depth a range of topics that motivate and structure Mediterranean archaeology today, including insularity and connectivity; mobility, migration, and colonization; hybridization and cultural encounters; materiality, memory, and identity; community and household; life and death; and ritual and ideology. The volume's broad coverage of different approaches and contemporary archaeological practices will help practitioners of Mediterranean archaeology to move the subject forward in new and dynamic ways. Together, the essays in this volume shed new light on the people, ideas, and materials that make up the world of Mediterranean archaeology today, beyond the borders that separate Europe, Africa, and the Middle East.

If Anything Happens I Love You Will McCormack,Michael Govier,2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

From Cave Man to Cave Martian Manfred "Dutch" von Ehrenfried,2019-04-05 This book explores the practicality of using the existing subsurface geology on the Moon and Mars for protection against radiation, thermal extremes, micrometeorites and dust storms rather than building surface habitats at great expense at least for those first few missions. It encourages NASA to plan a precursor mission using this concept and employ a “Short Stay” Opposition Class mission to Mars as the first mission rather than the “Long Stay” concept requiring a mission that is too long, too dangerous and too costly for man’s first missions to Mars. Included in these pages is a short history on the uses of caves by early humans over great periods of time. It then describes the ongoing efforts to research caves, pits, tunnels, lava tubes, skylights and the associated technologies that pertain to potential lunar and Mars exploration and habitation. It describes evidence for existing caves and lava tubes on both the Moon and Mars. The work of noted scientists, technologists and roboticists are referenced and described. This ongoing work is more extensive than one would think and is directly applicable to longer term habitation and exploration of the Moon and Mars. Emphasis is also given to the operational aspects of working and living in lunar and Martian caves and lava tubes.

This major publication introduces and presents the work from a global cast of painters selected by an international panel featuring some of the most prominent names in contemporary art. The resulting volume offers an intelligent snapshot of the best new talent in painting from across the world, gathered through an open call for submissions that drew over 4,300 applications. Open to any artist using paint as their primary medium, the submissions guidelines specified no age limit, but each of the selected artists has gained professional recognition in the last five years through their education, gallery representation, or in the production of a significant body of work. In addition, more than 100 of the world’s leading art schools were directly invited to participate, nominating recent graduates to submit their

applications. The book presents high-quality images of the rising stars’ work, along with essential biographic information and quotations from the artists.
