Sophie and the Rising Sun Augusta Trobaugh, 2011-10-14 An unforgettable story of an extraordinary love and a town's prejudice during World War II. Sophie and the Rising Sun suggests the small but heartwarming triumphs made possible by human dignity and courage. -Publisher's Weekly. In sleepy Salty Creek, Georgia, strangers are rare. When a quiet, unassuming stranger arrives--a Japanese man with a secret history of his own--he becomes the talk of the town and a new beginning for lonely Sophie, who lost her first love during World War I. Middle-aged Sophie had resigned herself to a passionless existence. That all begins to change as she finds herself drawn to the mysterious Mr. Oto. When the Japanese bomb Pearl Harbor, Mr. Oto's newfound life comes under siege; his safety, even in Salty Creek, is no longer certain. Sophie must decide how much she is willing to risk for a future with the man who has brought such joy into her life. Visit the author at: www.AugustaTrobaugh.com

Race the Rising Sun Chiao-Min Hsieh, Jean Kan Hsieh, 2009-05-16 This book is about Zhejiang University, one of the oldest and most prestigious universities in China, which was forced to evacuate from the Hangzhou when the Japanese arrived in 1937 and began torturing civilians, raping women, bombing towns, burning farms, and destroying factories, homes, schools, and libraries. The faculty, staff, and students fled to a succession of towns where they sought refuge from the war and set up temporary classrooms to continue with their educational mission. This exodus lasted eight years and spanned over a thousand miles. They faced constant fear and worry due to malnutrition, disease, abject poverty, and enemy air strikes. But with the resilience and spirit of its faculty and students, the University

survived to help revitalize a devastated nation.

Wings for the Rising Sun Jürgen P. Melzer, 2021-02-01 The history of Japanese aviation offers countless stories of heroic achievements and dismal failures, passionate enthusiasm and sheer terror, brilliant ideas and fatally flawed strategies. In *Wings for the Rising Sun*, scholar and former airline pilot Jürgen Melzer connects the intense drama of flight with a global history of international cooperation, competition, and conflict. He details how Japanese strategists, diplomats, and industrialists skillfully exploited a series of major geopolitical changes to expand Japanese airpower and develop a domestic aviation industry. At the same time, the military and media orchestrated air shows, transcontinental goodwill flights, and press campaigns to stir popular interest in the national aviation project. Melzer analyzes the French, British, German, and American influence on Japan's aviation, revealing in unprecedented detail how Japanese aeronautical experts absorbed foreign technologies at breathtaking speed. Yet they also designed and built boldly original flying machines that, in many respects, surpassed those of their mentors. *Wings for the Rising Sun* compellingly links Japan's

aeronautical advancement with public mobilization, international relations, and the transnational flow of people and ideas, offering a fresh perspective on modern Japanese history.

Japan is one of the United States' most important allies, yet relations between the two risk degenerating into serious conflicts over trade and other issues. This book outlines a new vision for U.S.-Japan relations that enables both countries to cooperate to achieve their mutual interests, while minimizing the conflicts that will inevitably arise between them. The new U.S.-Japan strategy must incorporate four critical elements. First, the strategy must be based upon a clear conception of U.S. national interest but be implemented in ways that capitalize on the mutual interests of both countries. Second, the strategy must integrate economic and security interests, which the United States decoupled during the cold war era. Third, a new U.S. strategy toward Japan must have an institutional expression, both domestically and internationally, if it is to be viable over the long term. Finally, the United States' Japan strategy must be part of a new global strategy for facing the challenges of the new world order. Contributors: Susan J. Pharr, Haruo Shimada, Clyde V. Prestowitz, Jr., C. Fred Bergsten, Paula Stern, Daniel I. Okimoto, and James H. Raphael. Co-published with the Aspen Strategy Group.

Embrace the Rising Sun: Essential Leadership During a Pandemic
By: Michael R. Peterson Each day, a rising sun brings opportunities to craft a great day and new memories, even during a pandemic. This book is a collection of daily short stories written during the COVID-19 pandemic. What started as Michael R. All are meant to inspire transformation and serve as a reminder that each new day is another step in the journey. Enjoy the stories, but live the

message.

Middle Kingdom and Empire of the Rising Sun June Teufel Dreyer, 2016-06-02 Japan and China have been rivals for more than a millennium. In more recent times, China was the more powerful until the late nineteenth century, while Japan took the upper hand in the twentieth. Now, China's resurgence has emboldened it even as Japan perceives itself falling behind, exacerbating long-standing historical frictions. June Teufel Dreyer's *Middle Kingdom and Empire of the Rising Sun* provides a highly accessible overview of one of the world's great civilizational rivalries that ranges from the seventh century to the present. Beginning in the mid-nineteenth century, the shrinking distances afforded by advances in technology and the intrusion of Western powers brought the two into closer proximity in ways that alternately united and divided them. In the aftermath of multiple wars between them, including a long and brutal conflict in World War II, Japan developed into an economic power but rejected militarism. China's journey toward modernization was hindered by ideological and leadership struggles that lasted until the death of Mao Zedong in 1976. The final part focuses on the issues that dominate China and Japan's current relationship: economic rivalry, memories of World War II, resurgent nationalism, military tensions, Taiwan, the Diaoyu/Senkaku Islands, and globalization. Dreyer

argues that recent disputes should be seen as manifestations of embedded rivalries rather than as issues whose resolution would provide a lasting solution to deep-standing disputes. For the paperback edition, she has added a new afterword that takes readers up to the present day.

Allies against the Rising Sun Nicholas Evan

Sarantakes, 2009-10-27 In the annals of World War II, the role of America's British allies in the Pacific Theater has been largely ignored. Nicholas Sarantakes now revisits this seldom-studied chapter to depict the delicate dance among uneasy partners in their fight against Japan, offering the most detailed assessment ever published of the U.S. alliance with Great Britain, Australia, New Zealand, and Canada. Sarantakes examines Britain's motivations for participating in the invasion of Japan, the roles envisioned by its Commonwealth nations, and the United States' decision to accept their participation. He shows how the interests of all allies were served by maintaining the coalition, even in the face of disputes between nations, between civilian and military leaders, and between individual services--and that allied participation, despite its diplomatic importance, limited the efficiency of final operations against Japan. Sarantakes describes how Churchill favored British-led operations to revive the colonial empire, while his generals argued that Britain would be further marginalized if it didn't fight alongside the United States in the assault on Japan's home islands. Meanwhile, Commonwealth partners, preoccupied with their own security concerns, saw an opportunity to support the mother country in service of their own separatist ambitions. And even though the United States called the shots, it welcomed allies to share the predicted casualties of an invasion. Sarantakes takes readers into the halls of both civil and

military power in all five nations to show how policies and actions were debated, contested, and resolved. He not only describes the participation of major heads of state but also brings in lesser-known Commonwealth figures, plus a cast of military leaders including General of the Army Douglas MacArthur and Fleet Admiral Chester Nimitz on the American side and Admiral of the Fleet Sir Andrew Cunningham and Field Marshal Sir Alan Brooke on the British. He also paints vivid scenes of battle, including the attack of the British Pacific Fleet on Japan and ground fighting on Okinawa. Deftly blending diplomatic, political, and military history encompassing naval, air, and land forces, Sarantakes's work reveals behind-the-scenes political factors in warfare alliances and explains why the Anglo-America coalition survived World War II when it had collapsed after World War I.

Sunset in the Land of the Rising Sun J. Black,A. Morrison,2010-05-07 Even casual observers will be familiar with the Cherry Blossom or Sakura tress of Japan. When in full bloom the sight is spectacular but it sadly only takes a week until the tree is bare. In a longer cycle of nations and business, we see, unfortunately, a similar pattern for Japanese Multinational Corporations.

Rising Sun, Falling Shadow Daniel Kalla,2013-09-24 In 1943, the Japanese, bowing to Nazi pressure, force 20,000 Jewish refugees, including Dr. Franz Adler and his wife, Sunny, to relocate to a one-square-kilometer Shanghai Ghetto where, despite the often-times subhuman conditions, the Jewish culture thrived.

Federal Theatre Project, a New Deal plan to fund theatre and other live artistic performances during the Great Depression, had the primary goal of employing out-of-work artists, writers, and directors, with the secondary aim of entertaining poor families and creating relevant art. These case studies explore the ties between the Federal Theatre Project and regional communities throughout the United States.

Garbage Can Model of Organizational Choice Richard Harrison,Alessandro Lomi,2012-11-11 This volume illustrates the broad range of research based on the garbage can model of organizational choice. This research varies with respect to decision making characteristics addressed, model extensions and integrations proposed, and organizational outcomes of interest. It suggests that the garbage can model is alive and kicking at forty.
