**Foreign Bodies** Bronwen Douglas,Chris Ballard,2008-10-01 From the 18th century, Oceania became the principal laboratory of raciology for scholars, voyagers, and colonizers alike. By juxtaposing encounters and theory, this magisterial book explores the semantics of human difference in all its emotional, intellectual, religious, and practical dimensions. The argument developed is subtle, engrossing, and gives the paradigm of 'race' its full use value. Foreign Bodies is a model of analysis and erudition from which historians of science and everyone interested in intercultural relations will greatly profit.

Tibetan Ritual Jose Ignacio Cabezon, 2009-12-08 Ritual is one of the most pervasive religious phenomena in the Tibetan cultural world. Despite its ubiquity and importance to Tibetan cultural life, however, only in recent years has Tibetan ritual been given the attention it deserves. This is the first scholarly collection to focus on this important subject. Unique in its historical, geographical and disciplinary breadth, this book brings together eleven essays by an international cast of scholars working on ritual texts, institutions and practices in the greater Tibetan cultural world - Tibet, Nepal, Bhutan, and Mongolia. While most of the chapters focus on Buddhism, two deal with ritual in Tibet's indigenous Bon religion. All of the essays are original to this volume. An extensive introduction by the editor provides a broad overview of Tibetan ritual and contextualizes the chapters within the field of Buddhist and Tibetan studies. The book should find use in advanced undergraduate courses and graduate seminars on Tibetan religion. It will also be of interest to students and scholars of ritual generally.

Romanesque Renaissance Konrad Adriaan Ottenheim, 2021-01-11 In the renaissance also architecture from c. 800–1200 was regarded as a useful source of inspiration for contemporary building, sometimes by misinterpreting these

medieval architecture as roman structures, sometimes because that era was also regarded as a glorious 'ancient' past.

*Conquer the Crash* Robert R. Prechter, Jr., 2009-11-20  
Today's financial and economic tribulations were a long time in the making. Many people ask, Why didn't someone see it coming? A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's *Conquer the Crash*, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one.

But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates the book's recommended services and institutions.

*Shamanhood* Juha Pentikäinen, Hanna Saressalo, 2001  
Presumably people who were involved in it discuss the philosophy behind the exhibition Shamans--The Secret World of Siberia's Peoples, on display at the Vapriikki Museum Centre in Tampere, Finland, between May 1998 and January 1999. It was the most extensive display so far of the shamanic collections of Kunstkamera, Museum of Anthropology

and Ethnography, founded in the 1720s by Peter the Great. In addition to exploring aspects of Siberian shamanhood, the 19 essays also show links to similar traditions elsewhere in the world. There are a few monochrome illustrations. No index is provided. Distributed in the US by ISBS. Annotation copyrighted by Book News, Inc., Portland, OR.

**Scarlet Citadel for 5th Edition** Steve Winter,2021-08-17 Once a functional fortress where wizards honed their eldritch craft, little now remains of the Scarlet Citadel--on the surface. The place now has a sinister and deadly reputation among adventurers and lorekeepers, and for good reason. The dungeon's well-trod stairs have seen few return from their journeys below. Here, deep underground, dwarven mercenaries once bred their owlbears for war, sorcerers from the White Forest practiced their arts, and strange cults from other realms drew from mysterious nodes of power.

Ancient treasures and secrets are still scattered everywhere. Malevolent creatures spin shadowy webs, enchant foul magics, and summon forth dark gods. The Scarlet Citadel for 5th Edition hardcover is: \* A massive hardcover tome containing a classic-style adventure for 10 levels of play, fully compatible for D&D 5E. \* Easily paired with the Scarlet Citadel Map Folio, a fold-out set of playable battle maps from Kobold Press. \* Suited for newcomers to tabletop RPGs as well as long-time Game Masters. \* Optimized for evocative combats and magical mysteries, and brimming with plots and subplots to uncover. \* Full of original traps and new monsters as well as a complete write-up of the nearby town of Redtower, where the adventurers can set up a home base.
