The Others Matthew Rohrer, 2017-04-10 A gripping, eerie, and hilarious novel-in-verse from poet Matthew Rohrer. In a Russian-doll of fictional episodes, we follow a midlevel publishing assistant over the course of a day as he encounters ghost stories, science fiction adventures, Victorian hashish eating, and robot bigfoots. Rohrer mesmerizes with wildly imaginative tales and resonant verse in this compelling love letter to storytelling. this night they all seemed asleep for a while the stark shadows held me only my mind moved wildly behind my eyes until I heard a tiny song coming from the driver song of a bandit's broken heart, song of his betrayal I slept and dreamed I was awake Matthew Rohrer is the author of *Surrounded by Friends* (Wave Books, 2015), *Destroyer and Preserver* (Wave Books, 2011), *A Plate of Chicken* (Ugly Duckling Presse, 2009), *Rise Up* (Wave Books, 2007) and *A Green Light* (Verse Press, 2004), which was shortlisted for the 2005 Griffin Poetry Prize. He is also the author of *Satellite* (Verse Press, 2001), and co-author, with Joshua Beckman, of *Nice Hat. Thanks.* (Verse Press, 2002), and the audio CD *Adventures While Preaching the Gospel of Beauty*. He has appeared on NPR's *All Things Considered* and *The Next Big Thing*. His first book, *A Hummock in the Malookas* was selected for the National Poetry Series by Mary Oliver in 1994. He lives in Brooklyn, New York, and teaches at NYU.

When I Care about Others Cornelia Maude Spelman,2002-01-01 In today's society, perhaps more than ever, young children need to develop empathy. In this simple book, the author begins by helping children see that when they are sick, hurt, or unhappy, others care about them. Children can then begin to see that others need to be cared about as well. Common situations will further a child's appreciation for and understanding of what others feel and need.

The Book of Other People Zadie Smith,2008-01-02 A stellar host of writers explore the cornerstone of fiction writing: character The Book of Other People is about character. Twenty-five or so outstanding writers have been asked by Zadie Smith to make up a fictional character. By any measure, creating character is at the heart of the fictional enterprise, and this book concentrates on writers who share a talent for making something recognizably human out of words (and, in the case of the graphic novelists, pictures). But the purpose of the book is variety: straight realism-if such a thing exists-is not the point. There are as many ways to create character as there are writers, and this anthology

features a rich assortment of exceptional examples. The writers featured in *The Book of Other People* include: Aleksandar Hemon Nick Hornby Hari Kunzru Toby Litt David Mitchell George Saunders Colm Tóibín Chris Ware, and more Read Zadie Smith's newest novel, *Swing Time*.

Others James Herbert, 2011-05-11 From the Master of Horror, James Herbert's *Others*, private investigator Nicholas Dismas is hired to track down a missing baby stolen away at birth, he finds himself immersed in a grim underworld of lies and deceit. His investigations ultimately lead him to a mysteriously located place with the seemingly innocent name of Perfect Rest, a nursing home where the elderly can live out their days in peace . . . But appearances can be deceptive and Dismas discovers the shadowy presence of the Others lurking in the hidden rooms and passages of Perfect Rest. His own dark heart is called into question in the events that follow and, in an astonishing and spectacular finale, Dismas finally resolves the enigma of his existence and answers the disturbing questions . . . who and what are the Others?

The Lives of Others Neel Mukherjee, 2014-10-01 Shortlisted for the Man Booker Prize, this “dazzling” (Entertainment Weekly) saga of epic scope is both a family and a political drama. The aging patriarch and matriarch of the Ghosh family preside over their large household, made up of their five adult children and their respective children, unaware that beneath the barely ruffled surface of their lives the sands are shifting. Each set of family members occupies a floor of the home, in accordance to their standing within the family. Poisonous rivalries between sisters-in-law, destructive secrets, and the implosion of the

family business threaten to unravel bonds of kinship as social unrest brews in greater Indian society. This is a moment of turbulence, of inevitable and unstoppable change: the chasm between the generations, and between those who have and those who have not, has never been wider. The eldest grandchild, Supratik, compelled by his idealism, becomes dangerously involved in extremist political activism—an action that further catalyzes the decay of the Ghosh home. Ambitious, rich, and compassionate, *The Lives of Others* anatomizes the soul of a nation as it unfolds a family history, at the same time as it questions the nature of political action and the limits of empathy. It is a novel of unflinching power and emotional force.

Regarding the Pain of Others Susan Sontag, 2013-10-01 A brilliant, clear-eyed new consideration of the visual representation of violence in our culture--its ubiquity, meanings, and effects Watching the evening news offers constant evidence of atrocity--a daily commonplace in our society of spectacle. But are viewers inured -or incited--to violence by the daily depiction of cruelty and horror? Is the viewer's perception of reality eroded by the universal availability of imagery intended to shock? In her first full-scale investigation of the role of imagery in our culture since her now-classic book *On Photography* defined the terms of the debate twenty-five years ago, Susan Sontag cuts through circular arguments about how pictures can inspire dissent or foster violence as she takes a fresh look at the representation of atrocity--from Goya's *The Disasters of War* to photographs of the American Civil War, lynchings of blacks in the South, and Dachau and Auschwitz to contemporary horrific images of Bosnia, Sierra Leone, Rwanda, and New York City on September 11, 2001. As John Berger wrote when *On Photography* was first published, All

future discussions or analysis of the role of photography in the affluent mass-media societies is now bound to begin with her book. Sontag's new book, a startling reappraisal of the intersection of information, news, art, and politics in the contemporary depiction of war and disaster, will be equally essential. It will forever alter our thinking about the uses and meanings of images in our world.

We Others Steven Millhauser, 2011-08-23 From the Pulitzer Prize-winning author: the essential stories across three decades that showcase his indomitable imagination. Steven Millhauser's fiction has consistently, and to dazzling effect, dissolved the boundaries between reality and fantasy, waking life and dreams, the past and the future, darkness and light, love and lust. The stories gathered here unfurl in settings as disparate as nineteenth-century Vienna, a contemporary Connecticut town, the corridors of a monstrous museum, and Thomas Edison's laboratory, and they are inhabited by a wide-ranging cast of characters, including a knife thrower and teenage boys, ghosts and a cartoon cat and mouse. But all of the stories are united in their unfailing power to surprise and enchant. From the earliest to the stunning, previously unpublished novella-length title story—in which a man who is dead, but not quite gone, reaches out to two lonely women—Millhauser in this magnificent collection carves out ever more deeply his wondrous place in the American literary canon.

The Other Thomas Tryon, 2012-10-02 Holland and Niles Perry are identical thirteen-year-old twins. They are close, close enough, almost, to read each other's thoughts, but they couldn't be more different. Holland is bold and mischievous, a bad influence, while Niles is kind and eager to please, the sort of boy who makes parents proud. The Perrys live

in the bucolic New England town their family settled centuries ago, and as it happens, the extended clan has gathered at its ancestral farm this summer to mourn the death of the twins' father in a most unfortunate accident. Mrs. Perry still hasn't recovered from the shock of her husband's gruesome end and stays sequestered in her room, leaving her sons to roam free. As the summer goes on, though, and Holland's pranks become increasingly sinister, Niles finds he can no longer make excuses for his brother's actions. Thomas Tryon's best-selling novel about a homegrown monster is an eerie examination of the darkness that dwells within everyone. It is a landmark of psychological horror that is a worthy descendent of the books of James Hogg, Robert Louis Stevenson, Shirley Jackson, and Patricia Highsmith.

Plays Well with Others Allan Gurganus, 1999-02-02 With great narrative inventiveness and emotional amplitude, Allan Gurganus gives us artistic Manhattan in the wild 1980s, where young artists--refugees from the middle class--hurl themselves into playful work and serious fun. Our guide is Hartley Mims Jr., a Southerner whose native knack for happiness might thwart his literary ambitions. Through his eyes we encounter the composer Robert Christian Gustafson, an Iowa preacher's son whose good looks constitute both a mythic draw and a major limitation, and Angelina Alabama Byrnes, a failed deb, five feet tall but bristling with outsized talent. These friends shelter each other, promote each other's work, and compete erotically. When tragedy strikes, this circle grows up fast, somehow finding, at the worst of times, the truest sort of family. Funny and heartbreaking, as eventful as Dickens and as atmospheric as one of Fitzgerald's parties, Plays Well with Others combines a fable's high-noon energy with an elegy's evening grace. Allan Gurganus's celebrated new

novel is a lovesong to imperishable friendship, a hymn to a brilliant and now-vanished world.

The Origin of Others Toni Morrison, 2017-09-18 What is race and why does it matter? Why does the presence of Others make us so afraid? America's foremost novelist reflects on themes that preoccupy her work and dominate politics: race, fear, borders, mass movement of peoples, desire for belonging. Ta-Nehisi Coates provides a foreword to Toni Morrison's most personal work of nonfiction to date.

Mothers and Others Sarah Blaffer Hrdy, 2011-04-15 Mothers and Others finds the key in the primatologically unique length of human childhood. Renowned anthropologist Sarah Hrdy argues that if human babies were to survive in a world of scarce resources, they would need to be cared for, not only by their mothers but also by siblings, aunts, fathers, friends—and, with any luck, grandmothers. Out of this complicated and contingent form of childrearing, Hrdy argues, came the human capacity for understanding others. In essence, mothers and others teach us who will care, and who will not.

The Others Sarah Blau, 2021-04-27 A biting and propulsive thriller in which a pact made twenty years before lands one woman at the heart of a murder investigation—but is she the next victim, or the primary suspect? “Singularly creepy. —New York Times Book Review “A dark and funny page-turner.” —Ayelet Gundar-Goshen, author of Waking Lions As soon as Sheila hears the news, she knows the police will be calling. Dina Kaminer—one of Israel's preeminent feminist scholars and Sheila's oldest friend—has been found murdered, the word “mother” carved into her forehead and a baby doll fixed to her hands. For Sheila, that word is a warning. Two decades before, she and Dina had joined a group of

women who swore they would never have children. Instead, they would follow the example of “The Others,” women the Torah considered childless, but they saw as willingly child-free. Sheila has upheld her vow year after year, even as her friendship with Dina fell apart. But now, as more women turn up dead, each transformed into a mother against her will, Sheila must decide if she’s made the right choice . . . and who might want to make her pay the ultimate price. An instant international bestseller with shades of *The Perfect Nanny* and *My Sister, the Serial Killer*, *The Others* is a dark, witty, and riveting psychological thriller.

In the Country of Others Leila Slimani, 2022-05-10 The award-winning, #1 internationally bestselling new novel by the author of *The Perfect Nanny* that “lays bare women’s intimate, lacerating experience of war” (The New York Times Book Review) After World War II, Mathilde leaves France for Morocco to be with her husband, whom she met while he was fighting for the French army. A spirited young woman, she now finds herself a farmer’s wife, her vitality sapped by the isolation, the harsh climate, and the mistrust she inspires as a foreigner. But she refuses to be subjugated or confined to her role as mother of a growing family. As tensions mount between the Moroccans and the French colonists, Mathilde’s fierce desire for autonomy parallels her adopted country’s fight for independence in this lush and transporting novel about race, resilience, and women’s empowerment.

Cities of Others Xiaojing Zhou, 2014-12-01 Asian American literature abounds with complex depictions of American cities as spaces that reinforce racial segregation and prevent interactions across boundaries of race, culture, class, and gender. However, in *Cities of Others*, Xiaojing Zhou uncovers a much different narrative, providing the most

comprehensive examination to date of how Asian American writers - both celebrated and overlooked - depict urban settings. Zhou goes beyond examining popular portrayals of Chinatowns by paying equal attention to life in other parts of the city. Her innovative and wide-ranging approach sheds new light on the works of Chinese, Filipino, Indian, Japanese, Korean, and Vietnamese American writers who bear witness to a variety of urban experiences and reimagine the American city as other than a segregated nation-space. Drawing on critical theories on space from urban geography, ecocriticism, and postcolonial studies, Zhou shows how spatial organization shapes identity in the works of Sui Sin Far, Bienvenido Santos, Meena Alexander, Frank Chin, Chang-rae Lee, Karen Tei Yamashita, and others. She also shows how the everyday practices of Asian American communities challenge racial segregation, reshape urban spaces, and redefine the identity of the American city. From a reimagining of the nineteenth-century flaneur figure in an Asian American context to providing a framework that allows readers to see ethnic enclaves and American cities as mutually constitutive and transformative, Zhou gives us a provocative new way to understand some of the most important works of Asian American literature.

Helping Yourself Help Others Rosalynn Carter, 2023-07-17 In Helping Yourself Help Others, former first lady Rosalynn Carter draws upon her own experiences and those of hundreds of others to offer reassuring, practical advice to caregivers. Long before the COVID-19 pandemic inspired national conversations about the vast undervaluing of unpaid caregiving, the dangers of burnout, and the merits of self-care for relief, Rosalynn Carter was shining a light on these matters and everything else that caregivers confront--

Seeing What Others Don't Gary Klein, 2013-06-25 A renowned cognitive psychologist reveals the science behind achieving breakthrough discoveries, allowing readers to confidently solve problems, improve decision-making, and achieve success. Insights-like Darwin's understanding of the way evolution actually works, and Watson and Crick's breakthrough discoveries about the structure of DNA-can change the world. Yet we know very little about when, why, or how insights are formed-or what blocks them. In *Seeing What Others Don't*, Gary Klein unravels the mystery. Klein is a keen observer of people in their natural settings-scientists, businesspeople, firefighters, police officers, soldiers, family members, friends, himself-and uses a marvelous variety of stories to illuminate his research into what insights are and how they happen. What, for example, enabled Harry Markopolos to put the finger on Bernie Madoff? How did Dr. Michael Gottlieb make the connections between different patients that allowed him to publish the first announcement of the AIDS epidemic? How did Martin Chalfie come up with a million-dollar idea (and a Nobel Prize) for a natural flashlight that enabled researchers to look inside living organisms to watch biological processes in action? Klein also dissects impediments to insight, such as when organizations claim to value employee creativity and to encourage breakthroughs but in reality block disruptive ideas and prioritize avoidance of mistakes. Or when information technology systems are dumb by design and block potential discoveries. Both scientifically sophisticated and fun to read, *Seeing What Others Don't* shows that insight is not just a eureka! moment but a whole new way of understanding.
