Water+Ink Coloring Book Winter 2020 Kim Winberry, 2019-07-22 I begin my paintings with a sketch and application of colorful/bright pigment and water to the paper. I disrupt the blends with salt or water, watching as one color blossoms in water, as another color starts to travel across the paper. I utilize India Ink to demarcate changes, also adding swirls other artifacts, in the aim to achieve whimsy. My coloring books are my paintings! I run the paintings through filters and drop the color from them, leaving the lines so that you can add your own color. But wait, there's more... I've added an Augmented Reality component to this. Wonder what colors I used for that piece in the corner there? Take out your phone, download the Zappar app from your app store and zap the code. What happens? At the very least an image of the original painting will pop up and you can see what it looks

like, side by side with the coloring page. Beyond that, you'll meet Mist, my liaison to the AR world. She will be a recurring character in all my AR work. Stay tuned and enjoy.

The Funerary Art of Ancient Egypt abeer el shahawy,2005 Ancient Egyptian artists produced masterpieces and works of funerary art on a scale never seen before or since. This book is the first to discuss the artistic development of funerary scenes over the four hundred years of the New Kingdom, covering the different reigns of the period. It shows the sequence of events in the funeral processions and how they developed over the course of time. Moreover, it covers many different sites in the

Theban necropolis, including scenes from many closed and unpublished tombs. This first-ever survey describes the pictorial drama that was the funeral procession, explores rare and unique scenes, and shows the echoes that remain from these ancient funerals in modern Egypt today.

Death and the Afterlife in Ancient Egypt John H. Taylor, 2001-04 Of all the ancient peoples, the Egyptians are perhaps best known for the fascinating ways in which they grappled with the mysteries of death and the afterlife. This beautifully illustrated book draws on the British Museum's world-famous collection of mummies and other funerary evidence to offer an accessible account of Egyptian beliefs in an afterlife and examine the ways in which Egyptian society responded materially to the challenges these beliefs imposed. The author describes in detail the numerous provisions made for the dead and the intricate rituals carried out on their behalf. He considers embalming, coffins and sarcophagi, shabti figures, magic and ritual, and amulets and papyri, as well as the mummification of sacred animals, which were buried by the millions in vast labyrinthine catacombs. The text also reflects recent developments in the interpretation of Egyptian burial practices, and incorporates the results of much new scientific research. Newly acquired information derives from a range of sophisticated applications, such as the use of noninvasive imaging techniques to look inside the wrappings of a mummy, and the

chemical analysis of materials used in the embalming process. Authoritative, concise, and lucidly written, *Death and the Afterlife in Ancient Egypt* illuminates aspects of this complex, vibrant culture that still perplex us more than 3,000 years later.
