How to Have Creative Ideas Edward de Bono,2012-05-31 Everybody wants to be creative. Creativity makes life more fun, more interesting and more full of achievement, but too many people believe that creativity is something you are born with and cannot be learned. In How to Have Creative Ideas Edward de Bono - the leading authority on creative thinking - outlines 62 different games and exercises, built around random words chosen from a list, to help encourage creativity and lateral thinking. For example, if the task were to provide an idea for a new restaurant and the random word chosen was 'cloak', ideas generated might be: a highwayman theme; a Venetian theme with gondolas; masked waiters and waitresses. Or, if asked to make a connection between the two random words 'desk' and 'shorts', readers may come up with: both are functional; desks have 'knee holes' and shorts expose the knees; traditionally they were both male-associated items. All the exercises are simple, practical and fun, and can be done by anyone.

Ready to Paint in 30 Minutes: Flowers in Watercolour Ann Mortimer,2017-07-24 This complete beginners guide to painting flowers in watercolour is ideal if you want to learn to paint but are short on time. Each of the 35 quick and easy exercises takes no more than 30 minutes to complete, and will teach you how to paint flowers of different shapes, colours and families lilies, orchids and hellebores amongst others or learn a key technique such as masking out, working wet in wet and colour-mixing. The exercises are all worked at postcard size ideal for a 6 x 4in (A6) watercolour pad, and tracings are included for each study. The book is broken down into five chapters that focus, respectively, on working with watercolour, watercolour techniques, colour and tone, form and detail, and finally flowers in context. The final section of the book contains three complete paintings that demonstrate how to combine all the techniques and elements of painting flowers, as learned from the preceding chapters. These paintings, too, are accompanied by actual-size tracings.

The Paradoxicon Nicholas Falletta,1990-11-08 This is an illustrated guide to a wonderland of reason where nothing is as it seems, through a maze of mental curiosities and contradictions. It discusses paradoxes of all types-- mathematical, logical, scientific, philosophical and more. Though many involve sophisticated concepts and logical reasoning, none requires a highly technical background-knowledge of ordinary language and simple arithmetic will do. Twenty-five stand-alone chapters each present and discuss a different paradox, including: the Barber Paradox; the Crocodile's Dilemma, M. C. Escher's Paradoxes, the Liar Paradox, the Prisoner's Dilemma, the Raven Paradox, Zeno's Paradox, and many others. Each chapter features an end note indicating related paradoxes elsewhere in the book. Includes 118 mind-boggling illustrations, optical illusions and visual acrobatics.

Agincourt 1415 Matthew Bennett,David Nicolle,Martin Marix Evans,2000-09-25 Osprey's Campaign title for one of the most important campaigns of the Hundred Years' War (1337-1453). Agincourt is one of the most evocative names in English military history. Henry V's forces were tired, hungry, and faced a French army three to six times more numerous. However, they possessed several advantages, and English success resulted from the combination of heavily armoured men-at-arms with troops armed with the infamous longbow - the havoc this weapon wreaked was crucial. Using original fifteenth century evidence, including the surviving French battle plan and the accounts of men present in both armies, this title discusses the lead-up to the battle, the tactical dispositions of the two forces and the reasons for the ultimate English success.

How I Learned To Cook Kimberly Witherspoon,Peter Meehan,2008-12-09 Before he was a top chef, Tom Colicchio learned to love cooking when he was still slinging burgers at a poolside snack bar. Barbara Lynch tells the story of lying her way into her first chef's job and then needing to cook her way out of trouble in the galley kitchen of a ship at sea. Stories of mentorship abound: Rick Bayless tells the story of finally working with Julia Child, his childhood hero; Gary Danko of earning the trust of the legendary Madeleine Kamman. How I Learned to Cook is an irresistible treat, a must-have for anyone who loves food and wants a look into the lives of the men and women who masterfully prepare it.
