100 Birds and How They Got Their Names Diana

Wells, 2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll

find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

It's a huge, very noisy traffic jam and everyone's in a hurry to get somewhere The racing car, off to the track, goes vroooooom; the beach buggy, on its way to the coast, goes bumble bumble; and Mr Luiggi cries 'Mamma Mia My ice creams are melting ' What ever could be the cause of all this traffic?

With a chock-a block play page at the end of the book, too, there are so many hours of interactive fun to be had! Accents of English: Volume 2 John C. Wells, 1982-04-08

Accents of English is about the way English is pronounced by different people in different places. Volume 1 provides a synthesizing introduction, which shows how accents vary not only geographically, but also with social class, formality, sex and age; and in volumes 2 and 3 the author examines in greater depth the various accents used by people who speak English as their mother tongue: the accents of the regions of England, Wales, Scotland and Ireland (volume 2), and of the USA, Canada, the West Indies, Australia, New Zealand, South Africa, India, Black Africa and the Far East (volume 3). Each volume can be read independently, and together they form a major scholarly survey, of considerable originality, which not only includes descriptions of hitherto neglected accents, but also examines the implications for phonological theory. Readers will find the answers to many questions: Who makes 'good' rhyme with 'mood'? Which accents have no voiced sibilants? How is a Canadian accent different from an American one, a New Zealand one from an Australian one, a Jamaican one from a Barbadian one? What are the historical reasons for British-American pronunciation differences? What sound changes are currently in progress in New York, in London, in Edinburgh? Dr Wells has written principally for students of linguistics, phonetics and English language, but the motivated general reader will also find the study both fascinating and rewarding.

Frida Kahlo: The Paintings Hayden Herrera, 1993-09-03 In

small, stunningly rendered self-portraits, Mexican artist Frida Kahlo painted herself cracked open, hemorrhaging during a miscarriage, anesthetized on a hospital gurney, and weeping beside her own extracted heart. Her works are so incendiary in emotion and subject matter that one art critic suggested the walls of an exhibition be covered with asbestos. In this beautiful book,

art historian Hayden Herrera brings together numerous paintings and sketches by the amazing Mexican artist, documenting each with explanatory text that probes the influences in Kahlo's life and their meaning for her work. Included among the illustrations are more than eighty full-color paintings, as well as dozens of black-and-white pictures and line illustrations. Among the famous and little-known works included in *Frida Kahlo: The Paintings* are *The Two Fridas*, *Self-Portrait as a Tehuana*, *Without Hope*, *The Dream*, *The Little Deer*, *Diego and I*, *Henry Ford Hospital*, *My Birth*, and *My Nurse and I*. Here, too, are documentary photographs of Frida Kahlo and her world that help to illuminate the various stages of her life.

Working with Texts Ronald Carter, 2008 The core textbook in the popular Intertext series, *Working with Texts* introduces students to the main principles of language analysis, through real text examples. Featuring a wealth of contemporary examples of English in use, the book is supported by clear and accessible explication and commentary.

Evaluating Second Language Education J. Charles Alderson, Alan Beretta, 1992-02-27 Counter Responsibility for planning language teaching programs now carries with it a strong element of accountability. Evaluation of the whole process of course design, development, and implementation is therefore a necessary area of activity for course designers, language planners, and researchers. This book brings together accounts of recent work in this increasingly important field and will be a valuable resource both for those already engaged in evaluation and for those in training. Part One presents a review of the literature, covering past developments in the wider field of educational evaluation, as well as specifically in second language education. Part Two contains a series of eight original case-studies, written by scholars involved in evaluations in widely divergent settings. The focus in each case is on how the evaluator addresses the difficulties central to each study, and the findings are also

included. The final Part Three provides practical guidance for evaluators, offering suggestions about how to set up and carry out evaluations in any given setting.--Publisher's website.
