Shadowrun Forbidden Arcana Catalyst Game Labs,2019-04-04

Magic is wild. Magic is undisciplined. You can try to impose order and understanding on it, but that's just surface. Underneath is chaos, an erratic heart beating to a staggering rhythm. You don't control it, any more than a surfer controls twenty-meter-tall wave; you don't direct the wave, you ride it, capture a piece of its power, and hope to survive. If you do it right, though, you catch a portion of unimaginable power-power those who control the Sixth World don't want you to have. All the more reason to push past their boundaries and grab it. Forbidden Arcana offers dozens of different ways for Awakened characters in Shadowrun to harness that power and make themselves a mana-slinger like no other. From new ways to distinguish spellcasters of different traditions to more chaotic methods for summoning spirits to options for Awakened characters who have mastered their craft, Forbidden Arcana shows players how to break out of conventional molds, use mana in new ways, and become true street legends riding the growing wave of Sixth World mana. Forbidden Arcana is an advanced magic rulebook for use with Shadowrun, Fifth Edition; magic concepts from the book can be used with Shadowrun: Anarchy, though

mechanics for that game are not included.

Ponyfinder: Campaign Setting David Silver,2014-02-14

Adventure in the world of Everglow, nestled in delicate balance between the elemental planes. It is a world of magic and mystery, where the fey are in control and the humanoid races are secondary. Foremost of the fey are Ponykind, who rallied behind their Queen to form the greatest empire Everglow had ever seen. We've brought ponies, griffons, felines, and other strange creatures to life in a world all of their own, where they are the primary PCs. Don't want to run a game all about ponies? That's alright! Use our post-empire suggestions to add ponies to any other existing world. Many spells, archetypes, and bloodlines are also usable by non ponies or other settings. Frostgrave: The Red King Joseph A. McCullough,2020-12-10
Fires rage throughout the Frozen City as an inhuman army pours out of the cracks between realities. In the distant past, a cabal of city elders sought to save their lives by making a pact with a demon prince... and now the Red King has come to collect what he is owed, claiming Frostgrave as his own. Many have already fled before the Red King's demonic hordes, while others seek to weather the storm, turning their bases into makeshift fortresses. The wizards of Frostgrave must choose – do they stand and fight, or do they abandon this great repository of mystical knowledge to

the ravages of unearthly fire? The Red King is the first supplement designed for Frostgrave: Second Edition. In this sprawling, epic campaign, wizards will be pushed to their limits, fighting not only against one another and the perils of the Frozen City, but also against an invading army.
