Paradoxical Japaneseness Andrew Dorman, 2016-11-22 This book offers insightful analysis of cultural representation in Japanese cinema of the early 21st century. The impact of transnational production practices on films such as *Dolls* (2002), *Sukiyaki Western Django* (2007), *Tetsuo: The Bullet Man* (2009), and *13 Assassins* (2010) is considered through textual and empirical analysis. The author discusses contradictory forms of cultural representation – cultural concealment and cultural performance – and their relationship to both changing practices in the Japanese film industry and the global film market. Case studies take into account popular genres such as J Horror and jidaigeki period films, as well as the work of renowned filmmakers Takeshi Kitano, Takashi Miike, Shinya Tsukamoto and Kiyoshi Kurosawa.

Introduction to Japanese Horror Film Colette Balmain, 2008-10-14 This book is a major historical and cultural overview of an increasingly popular genre. Starting with the cultural phenomenon of *Godzilla*, it explores the evolution of Japanese horror from the 1950s through to contemporary classics of Japanese horror cinema such as *Ringu* and *Ju-On: The Grudge*. Divided thematically, the book explores key motifs such as the vengeful virgin, the demonic child, the doomed lovers and the supernatural serial killer, situating them within traditional Japanese mythology and folk-tales. The book also considers the aesthetics of the Japanese horror film, and the mechanisms through which horror is expressed at a visceral level through the use of setting, lighting, music and mise-en-scene. It concludes by considering the impact of Japanese horror on contemporary American cinema by examining the remakes of *Ringu*, *Dark Water* and *Ju-On: The Grudge*. The emphasis is on accessibility, and whilst the book is primarily marketed towards film and media students, it will also be of interest to anyone interested in Japanese horror film, cultural mythology and folk-tales, cinematic aesthetics and film theory.

The Art of Living Grant Snider, 2022-04-05 A humorous, uplifting look at mindfulness, from beloved illustrator Grant Snider “Find a quiet spot away from all distraction / Listen to your breath / Watch your thoughts float past you / Forget the obligations of today / Try not to consider your eventual decay / Let yourself drift away / Arise, connected with the Earth / Awakened to the Universe.” In *The Art of Living*, cartoonist Grant Snider, author of *The Shape of Ideas* and *I Will Judge You by Your Bookshelf*, has created an all-new collection of one- and two-page comics that map his inner thoughts, poetic observations, and frequent failures at living mindfully. With both humor and a touch of reality, *The Art of Living* centers on mindfulness, but also empathy, relaxation, gratitude, and awareness—evergreen

subjects that are more important and relevant now than ever. With a striking package, *The Art of Living* is an extension of the themes of Snider's first two books—which explored the creative process and the love of reading—and is the perfect gift for those in a need of reflection, commiseration, hope, and a little extra self-care. Above all, Snider's cartoons will inspire and encourage a more thoughtful way of experiencing the world.

The Dead Eye and the Deep Blue Sea Vannak Anan Prum, 2018-08-07 Too poor to pay his pregnant wife's hospital bill, Vannak Anan Prum left his village in Cambodia to seek work in Thailand. Men who appeared to be employers on a fishing vessel promised to return him home after a few months at sea, but instead Vannak was hostaged on the vessel for four years of hard labor. Amid violence and cruelty, including frequent beheadings, Vannak survived in large part by honing his ability to tattoo his shipmates—a skill he possessed despite never having been trained in art or having had access to art supplies while growing up. As a means of escape, Vannak and a friend jumped into the water and, hugging empty fish-sauce containers because they could not swim, reached Malaysia in the dark of night. At the harbor, they were taken into a police station . . . then sold by their rescuers to work on a plantation. Vannak was kept as a laborer for over a year before an NGO could secure his return to Cambodia. After five years away, Vannak was finally reunited with his family. Vannak documented his ordeal in raw, colorful, detailed illustrations, first created because he believed that without them no one would believe his story. Indeed, very little is known about what happens to the men and boys who end up working on fishing boats in Asia, and these images are some of the first records. In regional Cambodia, many families still wait for men who have disappeared across the Thai border, and out to sea. *The Dead Eye and the Deep Blue Sea* is a testament to the lives of these many fishermen who are trapped on boats in the Indian Ocean.

One Story Gipi, 2020-07-28 Dual graphic narratives by the acclaimed Italian cartoonist demonstrate how the choices our ancestors made dramatically affect generations to come. Silvano Landi is a successful writer who, at the age of 50, sees his family leave him and his life fall apart. Landi's great-grandfather, Mauro, is an anxious soldier being fed to the maw of carnage in the First World War. Alternating between past and present, a psych ward and the bloody trenches, and told through complex clues □ a lone gas station, an apathetic baroness, found love letters, and shifting from scratchy black-and-white to lush watercolors (sometimes on the same page), *One Story* documents the origins of pain that serve as the roots of a twisted family tree, and allows the reader to trace the branches.

Advances in Multimedia Information Processing - PCM 2004 Kiyoharu Aizawa, Yuichi Nakamura, Shin'ichi Satoh, 2004-10-29 Welcome to the proceedings of the 5th Pacific Rim Conference on Multimedia (PCM 2004) held in Tokyo Waterfront City, Japan, November 30–December 3, 2004. Following the success of the preceding conferences, PCM 2000 in Sydney, PCM 2001 in Beijing, PCM 2002 in Hsinchu, and PCM 2003 in Singapore, the 5th PCM brought together the researchers, developers, practitioners, and educators in the field of multimedia. Theoretical breakthroughs and practical systems were presented at this conference, thanks to the support of the IEEE Circuits and Systems Society, IEEE Region 10 and IEEE Japan Council, ACM SIGMM, IEICE and ITE. PCM2004 featured a comprehensive program including keynote talks, regular paper presentations, posters, demos, and special sessions. We received 385 papers and the number of submissions was the largest among recent PCMs. Among such a large number of submissions, we accepted only 94 oral presentations and 176 poster presentations. Seven special sessions were also organized by world-leading researchers. We kindly acknowledge the great support provided in the reviewing of submissions by the program committee members, as well as the additional reviewers who generously gave their time. The many useful comments provided by the reviewing process must have been very valuable for the authors' work. This conference would never have happened without the help of many people. We greatly appreciate the support of our strong organizing committee chairs and advisory chairs. Among the chairs, special thanks go to Dr. Ichiro Ide and Dr. Takeshi Naemura who smoothly handled publication of the proceedings with Springer. Dr. Kazuya Kodama did a fabulous job as our Web master.

Lowrider Coloring Book Oscar Nilsson, 2011-04-14 Paint your own lowrider just the way you like it! Impalas, Cadillacs and Rivas. In the Lowrider Coloring Book, you will color the classic and most popular Lowrider models. Lowrider culture reaches back to 1930s Los Angeles, where it became popular for style-conscious Latino-Americans to load their cars with sandbags to bring it closer to the road. Style was everything, and when lowered cars were banned in California in the 1950s, it became

necessary to find a way to raise and lower the car simply to avoid fines. The solution was to use hydraulics from old fighter planes left over from World War II. The rapper Kid Frost showcased lowriding in the early 90s hit Lowrider, and since then, the cars are closely associated with hip hop culture. Today, lowriding is bigger than ever with thousands of enthusiasts in most parts of the world. All strive to outdo each other with the most elegant varnish, interior, hydraulics, chrome and rims. The custom cars you'll be coloring in the Lowrider Coloring book were converted by some of the best and most legendary enthusiasts. What color is your Impala?

Capturing Contemporary Japan Satsuki Kawano, Glenda S. Roberts, Susan Orpett Long, 2014-01-31

What are people's life experiences in present-day Japan? This timely volume addresses fundamental questions vital to understanding Japan in the first decade of the twenty-first century. Its chapters collectively reveal a questioning of middle-class ideals once considered the essence of Japaneseness. In the postwar model household a man was expected to obtain a job at a major firm that offered life-long employment; his counterpart, the "professional" housewife, managed the domestic sphere and the children, who were educated in a system that provided a path to mainstream success. In the past twenty years, however, Japanese society has seen a sharp increase in precarious forms of employment, higher divorce rates, and a widening gap between haves and have-nots. Contributors draw on rich, nuanced fieldwork data collected during the 2000s to examine work, schooling, family and marital relations, child rearing, entertainment, lifestyle choices, community support, consumption and waste, material culture, well-being, aging, death and memorial rites, and sexuality. The voices in these pages vary widely: They include schoolchildren, teenagers, career women, unmarried women, young mothers, people with disabilities, small business owners, organic farmers, retirees, and the elderly.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race

memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

World Cinemas, Transnational Perspectives Nataša Durovicová, Kathleen E. Newman, 2009-09-10
SCMS Award Winner Best Edited Collection The standard analytical category of national cinema has increasingly been called into question by the category of the transnational. This anthology examines the premises and consequences of the coexistence of these two categories and the parameters of historiographical approaches that cross the borders of nation-states. The three sections of *World Cinemas, Transnational Perspectives* cover the geopolitical imaginary, transnational cinematic institutions, and the uneven flow of words and images.

The Diagrams of Architecture Mark Garcia, 2010-03 Since the 1980s, the diagram has become a preferred method for researching, communicating, theorising and making architectural designs, ideas and projects. Thus the rise of the diagram, as opposed to the model or the drawing, is the one of the most significant new developments in the process of design in the late 20th and early 21st centuries. *Diagrams of Architecture* is the first anthology to represent - through texts and diagrams - the histories, theories and futures of architecture through the diagram. Spanning the Pre-historic to the Parametric, *Diagrams of Architecture* illustrates over 250 diagrams and brings together 26 previously published and newly commissioned essays from leading international academics, architects, theorists and professional experts. These combine to define the past and future of the diagram's discourse. Prefaced with a critical introduction by Mark Garcia, each text investigates a central concept or dimension of the diagram ranging from socio-cultural studies, science, philosophy, technology, CAD/CAM, computing and cyberspace and virtual/digital design to methodology, environment/sustainability and

phenomenological, poetic and art architecture; as well as interior, urban, engineering, interactive and landscape design. The first critical, multidisciplinary book on the history, theory and futures of the architectural diagram. Includes seminal articles on the diagram from the history and theory of architecture such as those by Peter Eisenman, Sanford Kwinter, MVRDV, Neil Spiller, Lars Spuybroek, UN Studio and Anthony Vidler. Features 14 newly commissioned articles by leading architects and theorists, including Charles Jencks, Hanif Kara, Patrik Schumacher, Neil Spiller, Leon van Schaik and Alejandro Zaera-Polo and two new interviews with Will Alsop and Bernard Tschumi. Includes a full-colour critical collection of over 250 of the most significant and original diagrams, many of which are previously unpublished, in the history of architecture from around the world.
