Forbidden Scrollery, Vol. 1 ZUN,2017-11-21 Where else would a girl with the power to translate any tome she sets in her lap reside except a library? Sure, some books may be more dangerous than others, but that's far from discouragement for a true bibliophile like Kosuzu Motoori!

Kashmir and the Future of South Asia Sugata Bose, Ayesha Jalal, 2020-12-30 This book uses an innovative people-centered approach to the Kashmir problem to shed new light on why postcolonial partitions remain unfinished and why the wounds of postcolonial nation-state formation in South Asia continue to fester. Kashmir is viewed as a metaphor for the permanent internal wars of partition that mark the South Asian experience. Chapters sensitively bring Kashmiri voices to the fore to examine Kashmir in the national discourses of India and Pakistan, resistance in the Kashmiri imagination and the Kashmir conflict in a global context. The book foregrounds how the space of Kashmir as a cultural, historical and political sphere persists and continues to haunt the postcolonial national present as the people of Kashmir and their cultural, literary and artistic productions cannot be contained within the regnant paradigms of the nations across which the region is partitioned. Additionally, the book explores

how long-term resolution would demand engagement with historical forces, political actors and social formations that exceed the nation-state. An important contribution to the study of this troubled region, this book will be of interest to academics and researchers of modern South Asian history and politics as well as comparative politics and international relations.

Happiness 6 Shuzo Oshimi, 2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, *Happiness* follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for *Flowers of Evil*: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, *Flowers of Evil* is a great reminder of my own thirst for power and my own personal corruption. -Otaku Champloo

Ecocriticism and Indigenous Studies Salma Monani, Joni Adamson, 2016-08-05 This book

addresses the intersections between the interdisciplinary realms of Ecocriticism and Indigenous and Native American Studies, and between academic theory and pragmatic eco-activism conducted by multiethnic and indigenous communities. It illuminates the multi-layered, polyvocal ways in which artistic expressions render ecological connections, drawing on scholars working in collaboration with Indigenous artists from all walks of life, including film, literature, performance, and other forms of multimedia to expand existing conversations. Both local and global in its focus, the volume includes essays from multiethnic and Indigenous communities across the world, visiting topics such as Navajo opera, Sami film production history, south Indian tribal documentary, Maori art installations, Native American and First Nations science-fiction literature and film, Amazonian poetry, and many others. Highlighting trans-Indigenous sensibilities that speak to worldwide crises of environmental politics and action against marginalization, the collection alerts readers to movements of community resilience and resistance, cosmological thinking about inter- and intra-generational multi-species relations, and

understandings of indigenous aesthetics and material ecologies. It engages with emerging environmental concepts such as multispecies ethnography, cosmopolitics, and trans-indigeneity, as well as with new areas of ecocritical research such as material ecocriticism, biosemiotics, and media studies. In its breadth and scope, this book promises new directions for ecocritical thought and environmental humanities practice, providing thought-provoking insight into what it means to be human in a locally situated, globally networked, and cosmologically complex world.
