Driving from Japan Wanda James,2005-01-01 This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.

Against All Odds Yukiyasu Tōgō,William Wartman,1993 The Chairman of Toyota Motor Sales U.S.A., Inc. presents the remarkable history of the most efficient, most profitable automobile maker in the world and its revolutionary just-in-time production process, accompanied by sixteen pages of photographs.

The United States of Toyota Peter M. De Lorenzo,2020-11-30 The United States of Toyota is many stories in one. First and foremost, it is a business story, detailing the decline of the American automobile industry - and the simultaneous rise of an Asian manufacturer to take its place. It is also a history book, providing an intimate portrait of the larger-than-life personalities and cars that led the American auto industry through its glory days and down the path toward extinction. It is a political/current affairs piece, presenting the rise of a Japanese company - Toyota - not just in terms of its sales success but also in terms of its cultural success, as it works to assimilate into American society. And finally, it is a never-before-seen primer on Detroit - The Motor City - a town and a region dominated by the auto companies, their suppliers and their ad agencies - and by a mindset and culture all its own. In commentary that is as accurate as it is blunt, Peter De Lorenzo presents the players and the action in the auto business in a way not seen before in print. His voice is unique and refreshingly candid. His provocative analyses and assessments - grounded in personal experience and a lifelong immersion in all things automotive - present a compelling picture of the state of the auto business - how it used to be, what it has become and where it is headed. From the arrogance and short-sightedness of the Detroit manufacturers to the acumen and relentlessness of Toyota, The United States of Toyota paints an insightful portrait of an iconic American industry as it struggles for survival in the early years of the 21st century.

The Origin of Competitive Strength Akira Kawahara,2012-12-06 When the war ended on August IS, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobi lized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the Ameri can occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American mili tary motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that mag nificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, MacArthur's Jeeps Were the Toyota Catalyst.
