**Public-Private Partnership Monitor: Indonesia** Asian Development Bank, 2020-12-01 This publication provides a snapshot of the overall public-private partnership (PPP) landscape in Indonesia. It includes more than 500 qualitative and quantitative indicators to profile the national PPP environment, the sector-specific PPP landscape (for eight identified infrastructure sectors), and the PPP landscape for local government projects. This downloadable guide also captures the critical macroeconomic and infrastructure sector indicators (including the Ease of Doing Business scores) from globally accepted sources. Through Presidential Regulation 38/2015, the cornerstone of the country's robust PPP enabling framework, Indonesia expects PPPs to continue playing a pivotal role to achieve its infrastructure investment target of \$429 billion for 2020-2024 and mobilize 59% of this value from the private sector.

*Cars, Conduits, and Kampongs*, 2014-10-16 *Cars, Conduits and Kampongs* offers a wide panorama of the modernization of Indonesian cities between 1920 and 1960. In examining the multiple responses to innovations introduced by Western colonialism, the contributors demonstrate how modernization, urbanization, and decolonization were intrinsically linked. A full text Open Access version will also become available.

**Time to ACT** Mark Roberts, Frederico Gil Sander, Sailesh Tiwari, 2019-10-03 Indonesia has urbanized rapidly since its independence in 1945, profoundly changing its economic geography and giving rise to a diverse array of urban places. These places range from the bustling metropolis of Jakarta to rapidly emerging urban centers in hitherto largely rural parts of the country. Although urbanization has produced considerable benefits for many Indonesians, its potential has only been partially realized. *Time to ACT: Realizing Indonesia's Urban Potential* explores the extent to which urbanization in Indonesia has delivered in terms of prosperity, inclusiveness, and livability. The report takes a broad view of urbanization's performance in these three key areas, covering both the monetary and nonmonetary aspects of welfare. It analyzes the fundamental reforms that can help the country to more fully

achieve widespread and sustainable benefits, and it introduces a new policy framework—the ACT framework—to guide policy making. This framework emphasizes the three policy principles of Augment, Connect, and Target: • Augment the provision and quality of infrastructure and basic services across urban and rural locations • Connect places and people to jobs and opportunities and services • Target lagging areas and marginalized groups through well-designed place-based policies, as well as thoughtful urban planning and design. Using this framework, the report provides policy recommendations differentiated by four types of place that differ in both their economic characteristics and the challenges that they face— multidistrict metro areas, single-district metro areas, nonmetro urban areas, and nonmetro rural areas. In addition to its eight chapters, *Time to ACT: Realizing Indonesia's Urban Potential* includes four spotlights on strengthening the disaster resilience of Indonesian cities, the nexus between urbanization and human capital, the “invisible” crisis of wastewater management, and the potential for smart cities in Indonesia. If Indonesia continues to urbanize in line with global historical standards, more than 70 percent of its population will be living in towns and cities by the time the country celebrates the centenary of its independence in 2045. Accordingly, how Indonesia manages this continued expansion of its urban population—and the mounting congestion forces that expansion brings—will do much to determine whether the country reaches the upper rungs of the global ladder of prosperity, inclusiveness, and livability.

*Public-Private Partnership Monitor* Asian Development Bank, 2021-07-01 The Government of Pakistan strongly supports public-private partnership (PPP) initiatives. From 1990 to 2019, Pakistan witnessed 108 financially closed PPP projects, with a total investment of approximately \$28.4 billion. About 88% of these projects are in the energy sector, attracting more than \$24.7 billion, followed by investments in the port sector. In early 2021, Parliament approved the amendments to the 2017 PPP Law, enacting the Public Private Partnership Authority (Amendment) Act 2021. This further strengthens the enabling legal and regulatory framework for developing and implementing PPPs, thereby promoting private sector investment in public infrastructure and related services.

**Translation Goes to the Movies** Michael Cronin, 2008-09-24 This highly accessible introduction to translation theory, written by a leading author in the field, uses the genre of film to bring the main themes in translation to life. Through analyzing films as diverse as the Marx Brothers' *A Night at the Opera*, *The Star Wars* Trilogies and *Lost in Translation*, the reader is encouraged to think about both issues and problems of translation as they are played out on the screen and issues of filmic representation through examining the translation dimension of specific films. In highlighting how translation has featured in both mainstream commercial and arthouse films over the years, Cronin shows how translation has been a concern of filmmakers dealing with questions of culture, identity, conflict and representation. This book is a lively and accessible text for translation theory courses and offers a new and largely unexplored approach to topics of identity and representation on screen. *Translation Goes to the Movies* will be of interest to those on translation studies and film studies courses.

**The Making of Middle Indonesia** Gerry van Klinken, 2014-01-30 What holds Indonesia together? 'A strong leader' is the answer most often given. This book looks instead at a middle level of society. Middle classes in provincial towns around the vast archipelago mediate between the state and society and help to constitute state power. 'Middle Indonesia' is a social zone connecting extremes. *The Making of Middle Indonesia* examines the rise of an indigenous middle class in one provincial town far removed from the capital city. Spanning the late colonial to early New Order periods, it develops an unusual, associational notion of political power. 'Soft' modalities of power included non-elite provincial people in the emerging Indonesian state. At the same time, growing inequalities produced class tensions that exploded in violence in 1965-1966.

**Peace Psychology in Asia** Cristina Jayme Montiel, Noraini M. Noor, 2009-06-04 In recent years, peace psychology has grown from a utopian idea to a means of transforming societies worldwide. Yet at the same time peacebuilding enjoys global appeal, the diversity of nations and regions demands interventions reflecting local cultures and realities. *Peace Psychology in Asia* shows this process in action, emphasizing concepts and methods diverging from those common to the US and Europe. Using examples from China, India, Indonesia, the Philippines, and elsewhere in the region, chapter authors illuminate the complex social, political, and religious conditions that have fostered war, colonialism, dictatorships, and ethnic strife, and the equally intricate personal and collective psychologies that need to be developed to encourage reconciliation, forgiveness, justice, and community. *Peace Psychology in Asia: Integrates psychology, history, political science, and local culture into concepts of peace and reconciliation. Highlights the indigenous aspects of peace psychology. Explains the critical relevance of local culture and history in peace work. Blends innovative theoretical material with empirical evidence supporting peace interventions. Balances its coverage among local, national, regional, and global contexts. Analyzes the potential of Asia as a model for world peace. As practice-driven as it is intellectually stimulating, Peace Psychology in Asia is vital reading for social and community psychologists, policy analysts, and researchers in psychology and sociology and international studies, including those looking to the region for ideas on peace work in non-Western*

countries.

Auto Motives Karen Lucas,Evelyn Blumenberg,Rachel Weinberger,2011-02-15 While the individual benefits of car-based travel continues to be recognized, the wider environmental and social cost of automobiles is also significant. This title evaluates the evidence for better understanding 'what drives us to drive'.

Partnership and Leadership T. de Bruijn,Arnold Tukker,2002-03-31 Similarly, leadership can be seen as an obstacle to sustainable development if leaders form close circles and are not willing to share experiences with other actors; but leadership could also be considered as an important element to keep concepts and practices forward. The book holds this double perspective: explaining, mapping and analyzing different goals/formats/methods of more and less collaborative approaches, but at the same time taking a critical approach to the theme by understanding related risks, effects, prospects and corrective actions.

*Film Music: A History* James Wierzbicki,2009-01-21 Film Music: A History explains the development of film music by considering large-scale aesthetic trends and structural developments alongside socioeconomic, technological, cultural, and philosophical circumstances. The book's four large parts are given over to Music and the Silent Film (1894--1927), Music and the Early Sound Film (1895--1933), Music in the Classical-Style Hollywood Film (1933--1960), and Film Music in the Post-Classic Period (1958--2008). Whereas most treatments of the subject are simply chronicles of great film scores and their composers, this book offers a genuine history of film music in terms of societal changes and technological and economic developments within the film industry. Instead of celebrating film-music masterpieces, it deals--logically and thoroughly--with the complex 'machine' whose smooth running allowed those occasional masterpieces to happen and whose periodic adjustments prompted the large-scale twists and turns in film music's path.

*A Hundred Small Steps* India. Committee on Financial Sector Reforms,India. Planning Commission,2009-01-06 While previous reports have focused solely on the 'big' issues like capital account convertibility, bank privatization, and priority sector norms, A Hundred Small Steps: Report of the Committee on Financial Sector Reforms goes deep into other areas where reforms are less controversial, but perhaps as important. The report argues that we need a change in mindset for the financial sector, one that recognizes that efficiency, innovation, and value for money are as important for the poor as they are for our new Indian multinationals, and these will come from improved governance, new entry and competition. Indeed the Committee believes that the road to making Mumbai an international financial centre runs through every village in India. The report is divided into separate self-contained chapters; the underlying theme behind all the proposals is the need to enhance inclusion, growth, and stability by allowing players more freedom, even while strengthening the financial and regulatory infrastructure. The role of the government is to create an enabling environment by building sound financial infrastructure. The Committee has focused primarily on broad principles and directions, without entering too much into details of implementation. It emphasizes three important reasons for financial sector reform: to include more Indians in the growth process; to foster growth itself; and to improve financial stability, flexibility, and resilience and thus

protect the economy against the kind of turbulence that is affecting the world today. The Committee recognizes this is a difficult time to propose financial sector reforms in India. The near meltdown of the US financial sector seems to be proof that markets and competition do not work. This is clearly the wrong lesson to take from the debacle. The right lesson is that markets and institutions do succumb occasionally to excesses, which is why regulators have to be vigilant. The report argues for skilled regulators who encourage growth and innovation even while working harder to contain risks.
