Ian Halperin

**Hearts and Mines** Tanner Mirrlees,2016-01-15 The US security state is everywhere in cultural products: in army-supported news stories, TV shows, and video games; in CIA-influenced blockbusters and comics; and in State Department ads, broadcasts, and websites. Hearts and Mines examines the rise and reach of the US Empire’s culture industry – a nexus between the US’s security state and media firms and the source of cultural products that promote American strategic interests around the world. Building on Herbert I. Schiller’s classic study of US Empire and communications, Tanner Mirrlees interrogates the symbiotic geopolitical and economic relationships between the US state and media firms that drive the production of imperial culture.

**Transformers: The Veiled Threat** Alan Dean Foster,2014-06-11 Life on earth has changed forever, as humans and their courageous robotic allies, the Autobots, must warily work together to protect the planet from the destructive forces of the evil Decepticons. At the headquarters of NEST, tech sergeant Epps and captain Lennox both guard and assist cyberneticist Kaminari Ishihara and the brooding Russian AI genius Petr Andronov as they explore the differences between organics and bots. All around them, alliances fray, distrust grows, suspicions mount, and traitors come out of the shadows. Meanwhile, Optimus Prime, the powerful leader of the Autobots who is also part of NEST, plays defense, as battles flare up from Australia to Zambia. But escalating Decepticon attacks will culminate in a final confrontation from which no one—man or machine—will emerge unscathed.

**Fear Itself** ,2012-02-22 As the hammer-wielders continue their campaign of fear and terror, red Hulk takes up arms against the newly deified Ben Grimm, the FF's Thing! it's bruiser versus bruiser as two of the world's strongest battle it out in an all-out brawl that will shake the world! And no one is watching this closer than M.O.D.O.K.! Plus: Omegex, a deadly force from beyond the far reaches of space, has awakened, and he wants red Hulk! Our Crimson Crusader has fought battles of massive scale, fought villains of great strength and guile, and even punched a Watcher! But what can he do against a destroyer of entire worlds? As red Hulk is on the ropes and it seems as though things can't get any worse, super-villainess extraordinaire Zero/One and her henchman Black Fog arrive. renowned writer Jeff Parker and all-star artist Gabriel Hardman deliver red Hulk's most dangerous dust-ups yet! COLLECTING: HULK (2008) 37-41

**Blast and Thermal Effects** ,1994

*Achtung-Panzer!* Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**Transformers: Ghosts of Yesterday** Alan Dean Foster,2014-06-11 The first human-alien contact. The last word in galactic warfare. The story you must read—before Transformers rockets to the big screen! A mammoth robotic being, clearly of alien origin, has been found beneath the Arctic ice. Its advanced engineering dwarfs known human technology, and unlocking its secrets will catapult American science eons into the future. In search of the mysterious artifact’s origin, a covert government agency sends the manned craft Ghost 1 on a perilous journey of discovery. When a mishap maroons Ghost 1 in the far reaches of unknown space, the ship’s distress beacon reaches the very alien race Ghost 1’s crew has been seeking: the Autobots. The gigantic mechanized beings are also on a quest: to find the Allspark, a device crucial to the salvation of their home world, Cybertron. But they’re not alone. The Decepticons, the Autobots’ brutal enemies, have their own sinister purposes in seeking the Allspark. As these adversaries are drawn together once more, the stage is set for a death-dealing new battle in which each is driven by a single-minded aim: total annihilation of the enemy.

Althusser and Law Laurent de Sutter,2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser’s philosophy. The growing importance of Althusser’s philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called ‘Ideological State Apparatuses’, law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser’s ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

From Pearl Harbor To Calvary Mitsuo Fuchida,2016-03-28 The true story of the lead pilot of the Pearl Harbor attack and his conversion to Christianity. “As I looked across at my companion, I marveled afresh at the goodness of God-this man was my enemy; now he is my brother! Such is the miracle of the grace of God.”—Rev. Elmer Sachs, Director of Sky Pilots International. These words were written of Mitsuo Fuchida, who led the first wave of the air attacks on Pearl Harbor on December 7, 1941 as a Captain in the Imperial Japanese Navy Air Service. After the war, Fuchida was introduced to the gospel through the testimony of Jacob DeShazer. He began reading the Bible and eleven years after Pearl Harbor, he became a Christian. Fuchida spoke boldly of his conversion in his native Japan, and a few years later, he was recruited by Rev. Elmer Sachs to join Sky Pilots International. He came to the United States where he had the opportunity to share his story across the country. From Pearl Harbor to Calvary is the story of Mitsuo Fuchida’s conversion and ministry in his own words. Central to his narrative is the message that God works through even the most improbable of circumstances to further the gospel.

*Affective Health and Masculinities in South Africa* Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men’s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African ‘tradition’ that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men’s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate

students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

**Super Boss--king of Diesel Truck Drag Racing** Tyrone Malone,Mark J. Rich,1981-01-01 Describes the customized race trucks of Tyrone Malone and the races in which they've engaged.

**U. S. Military Wheeled Vehicles** Fred Crismon,2001-03-01 A timeless classic vehicle history book, over 2100+ photos of US military vehicles from 1900 to 1983. Covers everything from bicycles, jeeps, 4X4's, 6X6's, 8X8's, 1/4 ton's to 50 ton trucks. A must for military vehicle enthusiasts and collectors.

**The Biblically Defined Process That Brings Fear of the Enemy Into A Person's Life** Rachel Little Dove,2009-03-16 This is Volume Two of The WAR ON FEAR Series.In this book, you will find out what the Bible says about how FEAR originated with mankind. And, you will also see God's foundational solution to FEAR found in the Scriptures.This book was written because we want you learn how to become free from the operation of fear in your life. God Bless you!
