Louis Bou

The Comic Book Story of Video Games Jonathan Hennessey, 2017-10-03 A complete, illustrated history of video games--highlighting the machines, games, and people who have made gaming a worldwide, billion-dollar industry/artform--told in a graphic novel format. Author Jonathan Hennessey and illustrator Jack McGowan present the first full-color, chronological origin story for this hugely successful, omnipresent artform and business. Hennessey provides readers with everything they need to know about video games--from their early beginnings during World War II to the emergence of arcade games in the 1970s to the rise of Nintendo to today's app-based games like Angry Birds and Pokemon Go. Hennessey and McGowan also analyze the evolution of gaming as an artform and its impact on society. Each chapter features spotlights on major players in the development of games and gaming that contains everything that gamers and non-gamers alike need to understand and appreciate this incredible phenomenon.

Makers at Work Steven Osborn, 2013-09-27 What do you get when you combine an electronics hobbyist, hacker, garage mechanic, kitchen table inventor, tinkerer, and entrepreneur? A "maker," of course. Playful and creative, makers are--through expertise and experimentation--creating art, products, and processes that change the way we think and interact with the world. As you'll see from the 21 interviews in Makers at Work, inquisitive makers are just as apt to pick up a laser cutter or an Arduino as a wrench to fashion something new. For example, you'll meet Jeri Ellsworth, who might

provide a video lecture on magnetic logic one day and a tutorial on welding a roll bar on a stock car the next. You'll also meet Eben Upton, who put cheap, powerful computing in the hands of everyone with the Raspberry Pi; Becky Stern, who jazzes up clothing with sensors and LEDs; and bunnie Huang, who knows the ins and outs of the Shenzhen, China, electronics parts markets as well as anyone. As all the interviews in Makers at Work show, makers have something in common: reverence for our technical past coupled with an aversion to convention. If they can't invent new processes or products, it's simply not worth doing. Crazy as foxes, makers—working in the spirit of Tesla, Wozniak, Edison, Gates, Musk and many others—can bring sophisticated products to the people or to the market as fast or faster than large corporations. And they are not just enabling new technologies and devices—they are changing the way these devices are funded, manufactured, assembled, and delivered. Makers at Work puts a spotlight on the maker mindset and motivation of those who are reinventing the world one object or idea at a time. You will: Meet the individuals who define what it means to be a maker. Learn about the tools and technologies driving the new industrial revolution. Discover ways to scale your weekend project into a profitable business. See how others have used to crowdfunding to make their visions a reality. Learn how open-source hardware and software is enabling whole new categories of products by removing barriers of entry for inventors. The new masters of the “Makerverse” ask two questions: Can it be done? Is it fun? As these

interviews will show, the answer to both questions is, "Let's find out."

Grumpy Unicorn Saves the World: A Graphic Novel
Joey Spiotto, 2021-07-20 Grumpy Unicorn returns in this laugh-out-loud graphic novel! Grumpy Unicorn is back home after hitting the road in his first graphic novel. There's nothing that this Unicorn would love better than to just stay in, watch some TV, and veg out. But when his house is dirty, Grumpy decides to buy a cool self-cleaning robot... that due to a factory defect, is determined to conquer the world! It's up to Grumpy to save the day in this hilarious, action-packed, ridiculous adventure!

Augmented Reality Art Vladimir Geroimenko, 2014-06-17 Written by a team of world-renowned artists, researchers and practitioners - all pioneers in using augmented reality based creative works and installations as a new form of art - this is the first book to explore the exciting new field of augmented reality art and its enabling technologies. As well as investigating augmented reality as a novel artistic medium the book covers cultural, social, spatial and cognitive facets of augmented reality art. Intended as a starting point for exploring this new fascinating area of research and creative practice it will be essential reading not only for artists, researchers and technology developers, but also for students (graduates and undergraduates) and all those interested in emerging augmented reality technology and its

current and future applications in art.

Ms. Marvel Team-Up Eve L. Ewing,2019-11-27
Collects Marvel Team-Up (2019) #1-6. Kamala Khan puts the “Ms.” into Marvel Team-Up! Ms. Marvel steps into the starring role of one of Marvel’s all-time classic titles – and fittingly, the ever-sociable Spider-Man swings by to hand over the mantle! After a science demonstration at Empire State University goes awry, Ms. Marvel and Spidey find themselves tangled up in the same chaotic adventure. Is it destiny? Or disaster?! And can the two heroes put their heads together and find a way to save the day? Next, the sudden reappearance of Mar-Vell, the first Captain Marvel, draws Carol Danvers and Kamala Khan back together for an out-of-this-world adventure! But is the man behind the mask who he claims to be? And can Ms. Marvel and Captain Marvel stay on the same page long enough to find out?

Original Grin Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His

cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Writing as a Path to Awakening Albert DeSilver, 2017-08-31 The best writers say their work seems to come from a source beyond the thinking mind. But how do we access that source? We must first look inside ourselves and be willing to touch that raw emotional core at the heart of a

deeper creativity, writes Albert Flynn DeSilver. In *Writing as a Path to Awakening*, this renowned poet, writer, and teacher shows you how to use meditation to cultivate true depth in your own writing—so your words reveal layers of profound insight that inspire and move your readers. Constructed as a year-long exploration with a new focus for each month and season, *Writing as a Path to Awakening* includes:

- How to approach writing and reading with a greater level of presence and immersion
- Engaging curiosity, playfulness, and spontaneity to keep your regular practice fresh
- Meditating with poetry to deeply embody the power of language
- How you can spark your imagination by connecting to the groundless source of creation
- The meditative approach to storytelling—how not being trapped in your story liberates your capacity to create
- Editing, rewriting, and the path of spiritual transformation

Writing and meditation practice are a powerful pair, a dynamic duo, Albert Flynn DeSilver teaches. Together they nourish and push, trigger and define, inform and inspire, enable, and energize. To engage in both practices fully is to activate a more complete, creative, and spiritual self. With a mixture of engaging storytelling and practical exercises, *Writing as a Path to Awakening* invites you on a yearlong journey of growth and discovery—to enhance your writing through the practice of meditation while using the creative process to accelerate your spiritual evolution.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Eclipse 3 Jonathan Strahan, 2009-10-01 To observe an eclipse is to witness a rare and unusual event. Under darkened skies the sun becomes a negative image of itself, its corona transforming the landscape into a strange space where anything might happen, and any story may be true... In the spirit of classic science fiction anthologies such

as Universe, Orbit, and Starlight, master anthologist Jonathan Strahan (The Best Science Fiction and Fantasy of the Year) presents the non-themed genre anthology Eclipse: New Science Fiction and Fantasy. Here you will find stories where strange and wonderful things happen--where reality is eclipsed by something magical and new. Continuing in the footsteps of the multiple-award-nominated anthologies Eclipse One and Eclipse Two, Eclipse Three delivers new fiction by some of the genre's most celebrated authors, including Karen Joy Fowler's story of a family's desperation and a rebellious young woman's strange incarceration; Ellen Klages's fable of a practical girl, an unusual tortoise, and an ancient mathematical puzzle; Pat Cadigan's story of a mysterious photograph and two friends' journey through space and time in order to solve its riddle; Jeffrey Ford's tale of a legendary sword imbued with the power to turn flesh to coral, and of the artist that wields it; Daniel Abraham's story of divine providence, sacred oaths, and the omens that indicate whether a man is fit to be king; and Caitlin R. Kiernan's chronicle of an astronaut whose memories of a lover lost to an alien intelligence haunt her.
