*Cleek* Thomas W. Hanshew, 2010 Reprint of the detective novel starring Hamilton Cleek, the master of disguise. Originally published in 1912.

Voyage of the Shadowmoon Sean McMullen, 2010-09-01 Sean McMullen, one of Australia's leading genre writers, took America by storm with his sweeping Greatwinter Trilogy, a post-apocalyptic science fiction tour de force that won over critics and readers alike. Now McMullen delivers *Voyage of the Shadowmoon*, a fantasy epic of daunting skill and scope. The Shadowmoon is a small, unobtrusive wooden schooner whose passengers and crew are much more than they seem: Ferran, the Shadowmoon's lusty captain who dreams of power; Roval, the warrior-sorcerer; Velandar and Terikel, priestesses of a nearly extinct sect; and the chivalrous vampire Laron, who has been trapped in a fourteen-year-old body for seven hundred years. They sail the coast, gathering useful information, passing as simple traders. But when they witness the awful power of Silverdeath, an uncontrollable doomsday weapon of awesome destructiveness, they realize they must act. But every single king, emperor, and despot covets Silverdeath's power. It will take all of their wits and more than a little luck if they hope to prevent one of these power-hungry fools from destroying the world. Their only advantage? The

Shadowmoon. While it seems to be little more than a small trading vessel--too small for battle, too fast for speed—it is actually one of the most sophisticated vessels in the world, one that allows them to travel to places where no others would dare. They can only hope it will be enough to save them all before Silverdeath rains destruction across their entire world. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

*Trans Studies* Yolanda Martínez-San Miguel, Sarah Tobias, 2016-03-22 Winner of the 2017 Sylvia Rivera Award in Transgender Studies from the Center for LGBTQ Studies (CLAGS) From Caitlyn Jenner to Laverne Cox, transgender people have rapidly gained public visibility, contesting many basic assumptions about what gender and embodiment mean. The vibrant discipline of Trans Studies explores such challenges in depth, building on the insights of queer and feminist theory to raise provocative questions about the relationships among gender, sexuality, and accepted social norms. Trans Studies is an interdisciplinary essay collection, bringing together leading experts in this burgeoning field and offering insights about how transgender activism and scholarship might transform scholarship and public policy. Taking an intersectional approach, this theoretically sophisticated book deeply grounded in real-world concerns bridges the gaps between activism and academia by offering examples of cutting-edge activism, research, and pedagogy.

*Central to Their Lives* Lynne Blackman, 2018-06-20 Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine

said, Art is central to my life. Not being able to make or see art would be a major deprivation. The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised not as notable women artists but as notable artists who happen to be women. In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Loïs Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C.
