Robotics and Automation in Construction Carlos Balaguer,Mohamed Abderrahim,2008-10-01 This book addresses several issues related to the introduction of automaton and robotics in the construction industry in a collection of 23 chapters. The chapters are grouped in 3 main sections according to the theme or the type of technology they treat. Section I is dedicated to describe and analyse the main research challenges of Robotics and Automation in Construction (RAC). The second section consists of 12 chapters and is dedicated to the technologies and new developments employed to automate processes in the construction industry. Among these we have examples of ICT technologies used for purposes such as construction visualisation systems, added value management systems, construction materials and elements tracking using multiple IDs devices. This section also deals with Sensorial Systems and software used in the construction to improve the performances of machines such as cranes, and in improving Human-Machine Interfaces (MMI). Authors adopted Mixed and Augmented Reality in the MMI to ease the construction operations. Section III is dedicated to describe case studies of RAC and comprises 8 chapters. Among the eight chapters the section presents a robotic excavator and a semi-automated façade cleaning system. The section also presents work dedicated to enhancing the force of the workers in construction through the use of Robotic-powered exoskeletons and body joint-adapted assistive units, which allow the handling of greater loads.

Mount Fuji H. Byron Earhart,2015-07-15 Illustrated with color and black-and-white images of the mountain and its associated religious practices, H. Byron Earhart's study utilizes his decades of fieldwork—including climbing Fuji with three pilgrimage groups—and his research into Japanese and Western sources to offer a comprehensive overview of the evolving imagery of Mount Fuji from ancient times to the present day. Included in the book is a link to his twenty-eight-minute streaming video documentary of Fuji pilgrimage and practice, Fuji: Sacred Mountain of Japan. Beginning with early reflections on the beauty and power associated with the mountain in medieval Japanese

literature, Earhart examines how these qualities fostered spiritual practices such as Shugendo, which established rituals and a temple complex at the mountain as a portal to an ascetic otherworld. As a focus of worship, the mountain became a source of spiritual insight, rebirth, and prophecy through the practitioners Kakugyo and Jikigyo, whose teachings led to social movements such as Fujido (the way of Fuji) and to a variety of pilgrimage confraternities making images and replicas of the mountain for use in local rituals. Earhart shows how the seventeenth-century commodification of Mount Fuji inspired powerful interpretive renderings of the peerless mountain of Japan, such as those of the nineteenth-century print masters Hiroshige and Hokusai, which were largely responsible for creating the international reputation of Mount Fuji. In the eighteenth and nineteenth centuries, images of Fuji served as an expression of a unique and superior Japanese culture. With its distinctive shape firmly embedded in Japanese culture but its ethical, ritual, and spiritual associations made malleable over time, Mount Fuji came to symbolize ultranationalistic ambitions in the 1930s and early 1940s, peacetime democracy as early as 1946, and a host of artistic, naturalistic, and commercial causes, even the exotic and erotic, in the decades since.

Looking Modern Jennifer Purtle, Hans Bjarne Thomsen, 2009 *Looking Modern: East Asian Visual Culture from Treaty Ports to World War II* examines multiple dimensions of visual modernity in East Asia from the nineteenth century through the early decades of the twentieth. The papers were drawn from two symposia held at the Center for the Art of East Asia in the Department of Art History, the University of Chicago, which brought out important themes in East Asian Art and visual culture in the nineteenth and twentieth centuries including photography, cinema, and fashion, changing roles of women, commercialization of art, and the impact of Western cultures. They undertook a broad interpretation of visual modernity to include visual dimensions of human endeavor traditionally seen as outside of artistic production in order to encourage exploration of new and understudied materials across disciplinary boundaries. This volume not only provides important background in the growth of modern visual culture in East Asia, but also is a collection of seminal research on specific topics that have a broad impact upon present-day visual arts of China and Japan. -- Publisher's description

M1 Abrams vs T-72 Ural Steven J. Zaloga, 2011-01-01 The Gulf War bore witness to a number of deadly encounters between these two great adversaries. Heavily armoured, highly mobile and capable of killing at over 2500m the M1 Abrams is, to this day, a veritable fighting machine. Superior to both Iraq's Soviet era T-55 and T-62 tanks, nearly all sources claim that no Abrams tank has ever been destroyed by enemy fire. Despite entering service in 1980, the M1 Abrams remained untested in combat until the Gulf War in 1991, where it was to be confronted by its archenemy the Iraqi-assembled Soviet-designed T-72. Entering production in 1971, the T-72 arguably outstripped its contemporaries in a balance of mobility, protection and firepower. By the time of Operation Desert Storm, however, the tables had turned and the tank suffered due to low quality ammunition and poorly trained crews. In this

fascinating study, Steven Zaloga pits these two great fighting machines against one another, plotting the development of the Cold War until both tanks met in combat in the deserts of Iraq and Kuwait.

Mannerheim Jonathan Clements, 2012-12-11 Baron Gustaf Mannerheim was one of the greatest figures of the twentieth century, and the only man to be decorated by both sides in the Second World War. As a Finnish officer in Russian service, he witnessed the coronation of the last Tsar, and was both reprimanded for foolhardiness and decorated for bravery in the Russo-Japanese War. He spent two years undercover in Asia as an agent in the 'Great Game', posing as a Swedish anthropologist. He crossed China on horseback, stopping en route to teach the 13th Dalai Lama how to shoot with a pistol, and spying on the Japanese navy on his way home. He escaped the Bolsheviks by the skin of his teeth in 1917, arriving in the newly independent Finland just in time to lead the anti-Russian forces in the local revolt and civil war. During Finland's darkest hour, he led the defence of his country against the impossible odds of the Winter War. This major new life of Gustaf Mannerheim, the first to be published for over a decade, includes new historical material on Mannerheim's time in China.

M1A2 Abrams Main Battle Tank 1993–2018 Steven J. Zaloga, 2019-03-21 Since the Gulf War, the Abrams tank has undergone a transformation, while fighting in conflicts across the world. Its M1A1 and M1A2 variants have seen great improvements made to this iconic tank, including in fire-control, armour protection, and thermal imaging technology. Involvement in the conflicts in Iraq and Afghanistan necessitated a number of upgrades and modifications as the United States fought two of its longest wars. Recent years have seen new variants of the series such as the ABV Assault Breacher Vehicle and M104 Wolverine Heavy Assault Bridge. Over the past few decades, the M1A1 Abrams has also been extensively exported and is license produced in Egypt. The long-awaited follow-up to *NVG 2 M1 Abrams Main Battle Tank 1982–92* (1993), this fully illustrated study examines the Abrams tanks' last quarter-century of service with both the United States and its various foreign operators with a focus on its combat history.

Galactic Pot-healer Philip K. Dick, 1994 What could an omnipresent and seemingly omnipotent entity want with a humble pot-healer? Or with the dozens of other odd creatures it has lured to Plowman's Planet? And if the Glimmung is a god, are its ends positive or malign? Combining quixotic adventure, spine-chilling horror, and deliriously paranoid theology, *Galactic Pot-Healer* is a uniquely Dickian voyage to alternate worlds of the imagination.
