I Hate Superman! Louise Simonson,1996 The Man of Steel faces a child who has lost faith after Superman turns in the boy's brother, caught in a robbery when the younger boy told Superman, not knowing his brother was involved

White Pearl Anchuli Felicia King,2022-11-08 It's just a fun ad. Now the whole world is going crazy. In Singapore, Clearday(TM) has developed from a small startup into a leading international cosmetic brand in less than a year. But when a draft of the company's latest skin cream advert is leaked, the video goes viral globally for all the wrong reasons. YouTube views are in the thousands and keep climbing; anger is building on social media; and journalists are starting to cover the story. This is an international PR nightmare; the company cannot be seen to be racist, they've got to get it taken down before America wakes up.

Dark Muse Philip Mann,2016-10-27 You can't quite reach it. That goal, that project. You're just out of reach of making that spectacular story, or that painting that will carry your name for years to come. You need a muse. Vi Gold or Lee Marvin will be glad to help. Either of these two ladies will give you that ride on the rocket, that trip to the well that gives you what you need. But be careful. Too many rides on that rocket, or too many trips to the well, and you could wind up insane. Or dead. Vi has just seen another friend kill himself, and she has helped him do it. She's at the end of the rope herself when she meets Cal Simon, a normal, helpful man who tries to console her. Putting aside her fears and caution, Vi lets him get close. At last, she has a normal, sane boyfriend. But she won't tell him about what she really is. He wouldn't believe her anyway. And if he did, he would run away. Better to let it be, and deal with that problem later. That problem being that Cal might go insane if she slips up. Lee Marvin is similar to Vi, but her abilities are far stronger. When they meet one night, they form a bond, as comrades in arms. With Lee. Vi can be who she truly is, and not worry about

being judged or doing harm. But Lee's casual way with violence, and the way she talks about normal people are both very disturbing to Vi. Things are difficult enough, and then Lee kills somebody.

Lies & Omens Lyn Benedict, 2012-04-24 Sylvie Lightner is a P.I. specializing in the unusual—in a world where magic is real, and Hell is just around the corner. After escaping secret government cells and destroying a Miami landmark, Sylvie's trying to lay low—something that gets easier when a magical force starts taking out her enemies. But these magical attacks are a risk to bystanders, and Sylvie can't let that slide. When the war between the government and the magical world threatens the three people closest to her—her assistant, her sister, and her lover—Sylvie has no choice but to get involved with hidden powers bent on shaping the world to their liking. Now, with death and disaster on the horizon, even if Sylvie wins, things will never be the same...

Midnight Blue-Light Special Seanan McGuire, 2013-03-05 The second book in New York Times-bestselling Seanan McGuire's witty urban fantasy InCryptid series about a family of cryptozoologists who act as a buffer between humans and the magical creatures living in secret around us. The only thing more fun than an October Daye book is an InCryptid book. —Charlaine Harris, #1 New York Times-bestselling author of Sookie Stackhouse series Normal, adjective: Conforming to the standard or common type. See also ordinary. Abnormal, adjective: Deviating from the common type, such as playing monster-human on the rooftops of Manhattan. See also Verity Price. The Price family has spent generations studying the monsters of the world, working to protect them from humanity—and to protect humanity from them. Verity Price is just trying to do her job, keeping the native cryptid population of Manhattan from getting into trouble, and doing a little ballroom dancing on the side. Enter Dominic De Luca, an operative for the Covenant of St. George, and Verity's on-again, off-again boyfriend. When he tells her that the Covenant is sending a full team to assess how ready the city is

for a purge, Verity finds herself between a rock and a hard place. Stay, and risk her almost-certain death, or flee, and leave the cryptids of New York with nothing between them and the Covenant. With allies and enemies on every side, and no safe way to turn, it's going to take some quickstepping for Verity to waltz out of this one. There's just one question on everyone's mind: Is this the last dance for Verity Price?

1636: The Devil's Opera Eric Flint, David Carrico, 2013-09-16 A new addition to the multiple New York Times best-selling Ring of Fire series. After carving a place for itself in war-torn 17th century Europe, citizens of the modern town of Grantville, West Virginia take on a murderous conspiracy of operatic proportions in Magdeburg, the capital of the United States of Europe. New York Times Best Selling Series Eric Flint and David Carrico serve up the latest entry in the best-selling alternate history saga of them all, the Ring of Fire! It is the year 1636. The United States of Europe, the new nation formed by an alliance between the Swedish king Gustavus Adolphus and the West Virginians hurled back in time by a cosmic accident, is on the verge of civil war. His brain injured in the war with Poland, the USE's emperor Gustavus Adolphus is no longer in command. Enter Swedish chancellor Oxenstierna, a leader of aristocratic reaction against democracy. His goal: to assemble the forces of the hidebound ruling class in Berlin and drown the revolution in a bloodbath. In Magdeburg, the capital of the USE, Mike Stearns' wife Rebecca Abrabanel is organizing popular resistance to Oxenstierna's plot. As part of the resistance, the American musician Marla Linder and her company of down-time musical partners are staging an opera that will celebrate the struggle against oppression. Princess Kristina, the heir to the USE's throne, is now residing in Magdeburg and is giving them her support and encouragement. But another plot is underway--this one right in the heart of the capital itself, and with murder as its method. The only

people standing in the way are a crippled boy and the boxing champion who befriended him, and an unlikely pair of policemen. Can the American detective Byron Chieske and his down-timer partner Gotthilf Hoch thwart the killers before they succeed in their goal? At the publisher's request, this title is sold without DRM (Digital Rights Management). _This alternate history series isãa landmarkã¼Booklist _[Eric] Flint's 1632 universe seems to be inspiring a whole new crop of gifted alternate historians.¼Booklist _ãreads like a technothriller set in the age of the Medicisã¼Publishers Weekly
