**Affective Health and Masculinities in South Africa** Hans Reihling, 2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

*Antoine of Oregon : A Story of the Oregon Trail* James Otis, 1912 *Antoine of Oregon : A Story of the Oregon Trail* The author of this series of stories for children has endeavored simply to show why and how the descendants of the early colonists fought their way through the wilderness in search of new homes.

The several narratives deal with the struggles of those adventurous people who forced their way westward, ever westward, whether in hope of gain or in answer to the call of the wild, and who, in so doing, wrote their names with their blood across this country of ours from the Ohio to the Columbia. To excite in the hearts of the young people of this land a desire to know more regarding the building up of this great nation, and at the same time to entertain in such a manner as may stimulate to noble deeds, is the real aim of these stories. In them there is nothing of romance, but only a careful, truthful record of the part played by children in the great battles with those forces, human as well as natural, which, for so long a time, held a vast 4 portion of this broad land against the advance of home seekers. With the knowledge of what has been done by our own people in our own land, surely there is no reason why one should resort to fiction in order to depict scenes of heroism, daring, and sublime disregard of suffering in nearly every form.

**Working with Men in Health and Social Care** Brid

Featherstone,Mark Rivett,Jonathan Scourfield,2007-08-01 'Working with Men in Health and Social Care is a very welcome contribution to the stock of books on men and masculinities. It is especially useful for those interested in direct practice and policy applications in the fields of welfare, and for those who work with the problems men create, the problems men experience, and their interconnections' - Jeff Hearn, co-editor Men and Masculinities, University of Huddersfield and Linköping University Working with

Men in Health and Social Care is an important and timely book that introduces the complex issues and debates involved in working with men in a range of professional settings. The authors locate academic and popular discourse on masculinities within the specific context of health and social care settings, critically analysing the theory and policy that underpin and inform practice, and continually linking theoretical frameworks to 'real-life' practice examples. Section 1 contextualises the topic with a discussion of gender theory, social policy and the occupational culture of relevant organisations. Section 2 provides a summary of practice models, examining practice with men as individuals, as well as in groups, families and communities. Section 3 is organised according to specific groups of service users and includes chapters on fathers, abusive men, physical and mental health, boys, and older men. This thought-provoking and topical book will be essential reading for students and academics in social work, health care, probation, counselling, and allied disciplines, and for those facing the reality of working with men in their day-to-day practice.

**Love in Case of Emergency** Daniela Krien, 2021-04-06 Fans of Sarah Dunn, Elisabeth Egan, and Isabel Gillies will relate to the multifaceted lives of Krien's characters, brilliantly rendered in her vivid voice. -- Booklist Writing with the wry realism of Sally Rooney, one of Germany's most promising literary talents demonstrates her incisive understanding of the complexities of relationships and the depths of the human heart in this witty and compulsively readable novel about five very different women whose lives intersect. What happens when women fulfill their roles as wives, mothers, friends, lovers, sisters, and daughters? What comes next? Award-winning author Daniela Krien explores these questions in this powerful novel of friendship, love, loss, and everything in between. Krien explores the hopes, ambitions, challenges, and disappointments that shape modern women's lives, offering intimate insights on motherhood and childlessness, bereavement, infidelity, and divorce.
