Bringing Genius Hour to Your Library Elizabeth Barrera Rush,2017-11-28 This unique book presents a practical and realistic approach to implementing a school-wide, K–12 Genius Hour program—one that can succeed regardless of budgetary and infrastructure constraints. Genius Hour is a movement in which students are allowed to spend a portion of their in-school time learning about a topic of their choosing—even subjects outside of the curriculum. When properly implemented, a Genius Hour program can create true passion for learning among unmotivated students, ignite interest in STEM as well as the arts, encourage collaboration, improve the relationship between educator and students, and help prepare students for real life outside of the educational system. But revamping a school library program to offer a Genius Hour program may seem like an insurmountable

task—especially when working with a limited staff or budget. This book provides specific direction and concrete advice that enables school librarians to lead a school-wide program for all grade levels, from kindergarten to 12th grade. It explains why Genius Hour is the perfect program complement to the learning commons environment; presents research and support that will empower librarians to make a convincing case to administration; explains how to enlist the participation of faculty; and provides step-by-step guidance to begin, successfully manage, and grow a campus-wide Genius Hour. Librarians will see why investing in creative teaching is worth the effort, despite their limited time and resources; understand how to help underperforming students make their distractions count in school; and look forward to playing a part in creating imaginative and independent thinkers, not test takers.
