**Spaces and Identities in Border Regions** Christian Wille, Rachel Reckinger, Sonja Kmec, Markus Hesse, 2015-11-30  
Spatial and identity research operates with differentiations and relations. These are particularly useful heuristic tools when examining border regions where social and geopolitical demarcations diverge. Applying this approach, the authors of this volume investigate spatial and identity constructions in cross-border contexts as they appear in everyday, institutional and media practices. The results are discussed with a keen eye for obliquely aligned spaces and identities and relinked to governmental issues of normalization and subjectivation. The studies base upon empirical surveys conducted in Germany, France, Belgium and Luxembourg.

A grammar of Sanzhi Dargwa Diana Forker, 2020 Sanzhi Dargwa belongs to the Dargwa (Dargi) languages (ISO dar; Glottocode sanz1248) which form a subgroup of the East Caucasian (Nakh-Dagestanian) language family. Sanzhi Dargwa is spoken by approximately 250 speakers and is severely endangered. This book is the first comprehensive descriptive grammar of Sanzhi, written from a typological perspective. It treats all major levels of grammar (phonology, morphology, syntax) and also information structure. Sanzhi Dargwa is structurally similar to other East Caucasian languages, in particular Dargwa languages. It has a relatively large consonant inventory including pharyngeal and ejective consonants. Sanzhi morphology is concatenative and mainly suffixing. The language exhibits a mixture of dependent-marking in the form of a rich case inventory and head-marking in the form of verbal agreement. Nouns are divided into three genders. Verbal inflection conflates tense/aspect/mood/evidentiality in a rich array of synthetic and analytic verb forms as well as participles, converbs, a masdar (verbal noun), and infinitive and some other forms used in analytic tenses and subordinate clauses. Salient traits of the grammar are two independently operating agreement systems: gender/number agreement and person agreement. Within the nominal domain, modifiers agree with the head nominal in gender/number. Agreement within the clausal domain is mainly controlled by the argument in the absolute case. Person agreement operates only at the clausal level and according to the person hierarchy 1, 2 > 3. Sanzhi has ergative alignment in the form of gender/number agreement and ergative case marking. The most frequent word order at the clause level is SOV, though all other logically possible word orders are also attested. In subordinate clauses, word order is almost exclusively head-final.

[Yugoslavia's Sunny Side](#) Hannes Grandits,Karin Taylor,2010-01-01 This book undertakes a critical analysis of the history of domestic tourism in Yugoslavia under Communism. Despite the central role of tourism in the political making of the Yugoslav socialist state after WWII and in everyday life, the topic has remained neglected as an object of historical research, which has tended to dwell on war and ethnic conflict in the past two decades. For many former citizens of Yugoslavia, however, memories of holidaymaking, as well as tourism as a means of livelihood, today evoke a sense of the good life people enjoyed before the economy, and subsequently the country, fell apart. The story evolved from the popularization of tourism and holidaymaking among Yugoslav citizens in the 1950s and 1960s to the consumer practices of the 1970s and 1980s. The essays review tourism as a political, economic and social project of the Yugoslav federal state, and as a crucial field of social integration; it is investigated how ideologies aimed to turn workers into consumers of purposeful leisure, and how these ideas were set against actual practices of recreation and holidaymaking.

[Germany 1945](#) Richard Bessel,2012-09-27 In 1945, Germany experienced the greatest outburst of deadly violence that the world has ever seen. Germany 1945 examines the country's emergence from the most terrible catastrophe in modern history. When the Second World War ended, millions had been murdered; survivors had lost their families; cities and towns had been reduced to rubble and were littered with corpses. Yet people lived on, and began rebuilding their lives in the most inauspicious of circumstances. Bombing, military casualties, territorial loss, economic collapse and the processes of denazification gave Germans a deep sense of their own victimhood, which would become central to how they emerged from the trauma of total defeat, turned their backs on the Third Reich and its crimes, and focused on a transition to relative peace. Germany's return to humanity and prosperity is the hinge on which Europe's twentieth century turned. For years we have concentrated on how Europe slid into tyranny, violence, war and genocide; this book describes how humanity began to get back out.

[Art as Politics in the Third Reich](#) Jonathan Petropoulos,1999-02-01 The political elite of Nazi Germany perceived itself as a cultural elite as well. In Art as Politics in the Third Reich, Jonathan Petropoulos explores the elite's cultural aspirations by examining both the formulation of a national aesthetic policy

**Hildegard of Bingen and Musical Reception** Jennifer Bain, 2015-05-14 Since her death in 1179, Hildegard of Bingen has commanded attention in every century. In this book Jennifer Bain traces the historical reception of Hildegard, focusing particularly on the moment in the modern era when she began to be considered as a composer. Bain examines how the activities of clergy in nineteenth-century Eibingen resulted in increased veneration of Hildegard, an authentication of her relics, and a rediscovery of her music. The book goes on to situate the emergence of Hildegard's music both within the French chant restoration movement driven by Solesmes and the German chant revival supported by Cecilianism, the German movement to reform Church music more generally. Engaging with the complex political and religious environment in German speaking areas, Bain places the more recent Anglophone revival of Hildegard's music in a broader historical perspective and reveals the important intersections amongst local devotion, popular culture, and intellectual activities.

*The Mehweb language* Michael Daniel, Nina Dobrushina , Dmitry Ganenkov , 2019-10-23 This book is an investigation into the grammar of Mehweb (Dargwa, East Caucasian also known as Nakh-Daghestanian) based on several years of team fieldwork. Mehweb is spoken in one village community in Daghestan, Russia, with a population of some 800 people, In many ways, Mehweb is a typical East Caucasian language: it has a rich inventory of consonants; an extensive system of spatial forms in nouns and converbs and volitional forms in verbs; pervasive gender-number agreement; and ergative alignment in case marking and in gender agreement. It is also a typical language of the Dargwa branch, with symmetrical verb inflection in the imperfective and perfective paradigm and extensive use of spatial encoding for experiencers. Although Mehweb is clearly close to the northern varieties of Dargwa, it has been long isolated from the main body of Dargwa varieties by speakers of Avar and Lak. As a result of both independent internal evolution and contact with its neighbours, Mehweb developed some deviant properties, including accusatively aligned egophoric agreement, a split in the feminine class, and the typologically rare grammatical categories of verificative and apprehensive. But most importantly, Mehweb is where our friends live.

Cloud Native Infrastructure Justin Garrison, Kris Nova, 2017-10-25 Cloud native infrastructure is more than servers, network, and storage in the cloud—it is as much about operational hygiene as it is about elasticity and scalability. In this book, you'll learn practices, patterns, and requirements for creating infrastructure that meets your needs, capable of managing the full life cycle of cloud native applications. Justin Garrison and Kris Nova reveal hard-earned lessons on architecting infrastructure from companies such as Google, Amazon, and Netflix. They draw inspiration from projects adopted by the Cloud Native Computing Foundation (CNCF), and provide examples of patterns seen in existing tools such as Kubernetes. With this book, you will: Understand why cloud native

infrastructure is necessary to effectively run cloud native applications Use guidelines to decide when—and if—your business should adopt cloud native practices Learn patterns for deploying and managing infrastructure and applications Design tests to prove that your infrastructure works as intended, even in a variety of edge cases Learn how to secure infrastructure with policy as code

**Myself and My Aims** Kurt Schwitters,2020 The first anthology in English of the critical and theoretical writings of the great German artist Kurt Schwitters, considered by scholars, museums, devotees, and collectors alike to be one of the most important thinking artists of the twentieth century, surpassed only by Marcel Duchamp in his influence on subsequent generations. Throughout his life Schwitters wrote and published in many genres—and across genres. His children's stories and his poetry and fiction have been translated into English, as have a handful of essays. But most of his critical writing has never been translated into English, and this volume even includes material that has never been published in any language--until now. Schwitters was a prolific writer, lecturer, and critic who penned important works about architecture and design, the problem of painting (before it was fashionable to do so), media, aesthetics, style, abstraction, concrete writing, politics, and more. Issuing this book will be a major publishing event in the history of modern art and in the history of this extraordinary artist. The translations are superb, making the volume an extraordinary resource for art historians, curators, critics, and artists. Megan Luke's introduction is accessible, and for the first time, a large field of Schwitters's writing is available not just to Anglophone readers but to readers of numerous nationalities who consider English the lingua franca of their work--

*New Austrian Film* Robert von Dassanowsky,Oliver C. Speck,2011-04-30 Out of a film culture originally starved of funds have emerged rich and eclectic works by film-makers that are now achieving the international recognition that they deserve: Barbara Albert, Michael Haneke, Ulrich Seidl, and Stefan Ruzowitzky, to give four examples. This comprehensive critical anthology, by leading scholars of Austrian film, is intended to introduce and make accessible this much under-represented phenomenon. Although the book covers the full development of the Austrian new wave it focuses on the period that has brought it global attention: 1998 to the present. New Austrian Film is the only book currently available on this topic and will be an essential reference work for academics, students and filmmakers, interested in modern Austrian film.

*Using German Synonyms* Martin Durrell,2000-05-29 This book, designed for students who have already developed a basic competence in German, aims to broaden and improve their vocabulary by providing detailed information on groups of German words with related meanings. It is invaluable as a guide to finding the right word for the context. In order to enhance understanding of the structure of the German vocabulary, groups of synonyms are organised under German (rather than English) headwords. All entries are accompanied by an example of usage and English glosses and there are two indexes allowing users quickly to locate words in German or English. The book takes full account of register variation, indicating the degree of formal or informal use, and reflects regional usage especially in Austria and Switzerland. It is an essential reference for intermediate and advanced students as well as teachers and other professional linguists seeking access to the finer nuances of the German language.
