*How We Became Posthuman* N. Katherine Hayles, 1999-02-15

In this age of DNA computers and artificial intelligence, information is becoming disembodied even as the bodies that once carried it vanish into virtuality. While some marvel at these changes, envisioning consciousness downloaded into a computer or humans beamed Star Trek-style, others view them with horror, seeing monsters brooding in the machines. In *How We Became Posthuman*, N. Katherine Hayles separates hype from fact, investigating the fate of embodiment in an information age. Hayles relates three interwoven stories: how information lost its body, that is, how it came to be conceptualized as an entity separate from the material forms that carry it; the cultural and technological construction of the cyborg; and the dismantling of the liberal humanist subject in cybernetic discourse, along with the emergence of the posthuman. Ranging widely across the history of technology, cultural studies, and literary criticism, Hayles shows what had to be erased, forgotten, and elided to conceive of information as a disembodied entity. Thus she moves from the post-World War II Macy Conferences on cybernetics to the 1952 novel *Limbo* by cybernetics aficionado Bernard Wolfe; from the concept of self-making to Philip K. Dick's literary explorations of hallucination and reality; and from artificial life to postmodern novels exploring the implications of seeing humans as cybernetic systems. Although becoming posthuman can be nightmarish, Hayles shows how it can also be liberating. From the birth of cybernetics to artificial life, *How We Became Posthuman* provides an indispensable account of how we arrived in our virtual age, and of where we might go from here.

*Newtown Alive* Rosalyn Howard Ph D, 2017-03-15 This book chronicles the history of Sarasota, Florida's African American community - Newtown - that celebrated its 100-year anniversary in 2014. It answers questions about many aspects of community life: why the earliest African Americans who came to Sarasota, then a

tiny fishing village, first settled in areas near downtown called - Black Bottom- and -over town;- their transition from there to Newtown; how they developed Newtown from swampland into a self-contained community to ensure their own survival during the Jim Crow era; the ways they earned a living, what self-help organizations they formed; their religious and educational traditions; residents' military service, the strong emphasis placed on education; how they succeeded in gaining political representation after filing a federal lawsuit; and much more. Newtown residents fought for civil rights, endured and triumphed over Jim Crow segregation, suffered KKK intimidation and violence, and currently are resisting the stealthy gentrification of their community. Whether you are new to the area, a frequent visitor, an educator, historian or a longtime resident trying to connect the dots in your family tree, you will find these stories of courage, dignity and determination enlightening and empowering!

*The Palestine Nakba* Nur Masalha, 2012-08-09 2012 marks the 63rd anniversary of the Nakba - the most traumatic catastrophe that ever befell Palestinians. This book explores new ways of remembering and commemorating the Nakba. In the context of Palestinian oral history, it explores 'social history from below', subaltern narratives of memory and the formation of collective identity. Masalha argues that to write more truthfully about the Nakba is not just to practise a professional historiography but an ethical imperative. The struggles of ordinary refugees to recover and publicly assert the truth about the Nakba is a vital way of protecting their rights and keeping the hope for peace with justice alive. This book is essential for understanding the place of the Palestine Nakba at the heart of the Israel-Palestine conflict and the vital role of memory in narratives of truth and reconciliation.

**The Gone World** Tom Sweterlitsch, 2019-02-05 Inception meets True Detective in this science fiction thriller of spellbinding tension and staggering scope that follows a special agent into a savage murder case with grave implications for the fate of mankind.... "I promise you have never read a story like this."—Blake Crouch, New York Times bestselling author of Dark Matter Shannon Moss is part of a clandestine division within the Naval Criminal Investigative Service. In western Pennsylvania, 1997, she is assigned to solve the murder of a Navy SEAL's family—and to locate his vanished teenage daughter. Though she can't share the information with conventional law enforcement, Moss discovers that the missing SEAL was an astronaut aboard the spaceship U.S.S. Libra—a ship assumed lost to the currents of Deep Time. Moss knows first-hand the mental trauma of time-travel and believes the SEAL's experience with the future has triggered this violence. Determined to find the missing girl and driven by a troubling connection from her own past, Moss travels ahead in time to explore possible versions of the future, seeking evidence to crack the present-day case. To her horror, the future reveals that it's not only the fate of a family that hinges on her work, for what she witnesses rising over time's horizon and hurtling toward the present is the Terminus: the terrifying and

cataclysmic end of humanity itself. Luminous and unsettling, *The Gone World* bristles with world-shattering ideas yet remains at its heart an intensely human story.

**The Master Plan** Chris Wilson, Bret Witter, 2020-02-04 The Master Plan is less of a road map and more of a philosophy that we should all take to heart: We are all better than our worst decision, our sense of justice should honor the redemptive possibilities inherent in every person, and our destinies are truly intertwined.-- Wes Moore, author of *The Other Wes Moore* Growing up in Washington, DC, Chris Wilson was surrounded by violence and despair. He watched his family and neighborhood shattered by trauma, and he lost his faith. One night when he was seventeen, defending himself, he killed a man. He was sentenced to life in prison with no hope of parole. But what should have been the end of his story became the beginning. Behind bars, Wilson embarked on a remarkable journey of self-improvement--reading, working out, learning languages, even starting a business. At nineteen, he sat down and wrote a list of all the things he intended to accomplish, and all the steps he'd have to take to get there. He called it his Master Plan. He revised that plan regularly and followed it religiously. Sixteen years later, it led him to an unlikely opportunity--and to a promise he has been working hard to live up to every day since. Harrowing, heartbreaking, and ultimately triumphant, *The Master Plan* is a memoir for this moment, proving that every person is capable of doing great things.

*A Cognitive Psychology of Mass Communication* Richard Jackson Harris, Fred W. Sanborn, 2009-05-19 In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly

discussed topics – sex, violence, advertising – to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. *Knowledge of the Pragmatici*, 2020-03-31 Knowledge of the pragmatici sheds new light on pragmatic normative literature (mainly from the religious sphere), a genre crucial for the formation of normative orders in early modern Ibero-America. Long underrated by legal historical scholarship, these media – manuals for confessors, catechisms, and moral theological literature – selected and localised normative knowledge for the colonial worlds and thus shaped the language of normativity. The eleven chapters of this book explore the circulation and the uses of pragmatic normative texts in the Iberian peninsula, in New Spain, Peru, New Granada and Brazil. The book reveals the functions and intellectual achievements of pragmatic literature, which condensed normative knowledge, drawing on medieval scholarly practices of ‘epitomisation’, and links the genre with early modern legal culture. Contributors are: Manuela Bragagnolo, Agustín Casagrande, Otto Danwerth, Thomas Duve, José Luis Egío, Renzo Honores, Gustavo César Machado Cabral, Pilar Mejía, Christoph H. F. Meyer, Osvaldo Moutin, and David Rex Galindo.

Scott Peck, author of *The Road Less Traveled* A remarkable book the most incisive and persuasive I have ever read on the knotty problems of marriage relationships. *Girl, Woman, Other* Bernardine Evaristo, 2019-11-05 NATIONAL BESTSELLER WINNER OF THE BOOKER PRIZE "A must-read about modern Britain and womanhood . . . An impressive, fierce novel about the lives of black British families, their struggles, pains, laughter, longings and loves . . . Her style is passionate, razor-sharp, brimming with energy and humor. There is never a single moment of dullness in this book and the pace does not allow you to turn away from its momentum." —Booker Prize Judges Bernardine Evaristo is the winner of the 2019 Booker Prize and the first black woman to receive this highest literary honor in the English language. *Girl, Woman, Other* is a magnificent portrayal of the intersections of identity and a moving and hopeful story of an interconnected group of Black British women that paints a vivid portrait of the state of contemporary Britain and looks back to the legacy of Britain's colonial history in Africa and the Caribbean. The twelve central characters of this multi-voiced novel lead vastly different lives: Amma is a newly acclaimed playwright whose work often explores her Black lesbian identity; her old friend Shirley is a teacher, jaded after decades of work in London's funding-deprived schools; Carole, one of Shirley's former students, is a successful investment banker; Carole's mother Bummi works as a cleaner and worries about her daughter's lack of rootedness despite her obvious achievements. From a nonbinary social media influencer to a 93-year-old woman living on a farm in Northern England, these unforgettable characters also intersect in shared aspects of their identities, from age to race to sexuality to class. Sparklingly witty and filled with emotion, centering voices we often see othered, and written in an innovative fast-moving form that borrows technique from poetry, *Girl, Woman, Other* is a polyphonic and richly textured social novel that shows a side of Britain we

rarely see, one that reminds us of all that connects us to our neighbors, even in times when we are encouraged to be split apart.

**Hollywood's West** Peter C. Rollins, John E.

O'Connor, 2005-11-11 American historians such as Frederick Jackson Turner have argued that the West has been the region that most clearly defines American democracy and the national ethos. Throughout the twentieth century, the frontier thesis influenced film and television producers who used the West as a backdrop for an array of dramatic explorations of America's history and the evolution of its culture and values. The common themes found in Westerns distinguish the genre as a quintessentially American form of dramatic art. In *Hollywood's West*, Peter C. Rollins, John E. O'Connor, and the nation's leading film scholars analyze popular conceptions of the frontier as a fundamental element of American history and culture. This volume examines classic Western films and programs that span nearly a century, from *Cimarron* (1931) to Turner Network Television's recent made-for-TV movies. Many of the films discussed here are considered among the greatest cinematic landmarks of all time. The essays highlight the ways in which Westerns have both shaped and reflected the dominant social and political concerns of their respective eras. While *Cimarron* challenged audiences with an innovative, complex narrative, other Westerns of the early sound era such as *The Great Meadow* (1931) frequently presented nostalgic visions of a simpler frontier era as a temporary diversion from the hardships of the Great Depression. Westerns of the 1950s reveal the profound uncertainty cast by the cold war, whereas later Westerns display heightened violence and cynicism, products of a society marred by wars, assassinations, riots, and political scandals. The volume concludes with a comprehensive filmography and an informative bibliography of scholarly writings on the Western genre. This collection will prove useful to film scholars, historians, and both devoted and casual fans of the

Western genre. Hollywood's West makes a significant contribution to the understanding of both the historic American frontier and its innumerable popular representations.

Wes Anderson's Symbolic Storyworld Warren

Buckland, 2018-10-18 Wes Anderson's Symbolic Storyworld presents a theoretical investigation of what makes the films of Wes Anderson distinctive. Chapter by chapter, it relentlessly pulls apart each of Anderson's narratives to pursue the proposition that they all share the same deep underlying symbolic values – a common symbolic storyworld. Taking the polemical strategy of outlining and employing Claude Lévi-Strauss's distinguished (and notorious) work on myth and kinship to analyze eight of Anderson's films, Warren Buckland unearths the peculiar symbolic structure of each film, plus the circuits of exchange, tangible and intangible gift giving, and unusual kinship systems that govern the lives of Anderson's characters. He also provides an analysis of Wes Anderson's visual and aural style, identifying several distinctive traits of Anderson's *mise en scène*.

Green Planets Gerry Canavan, Kim Stanley

Robinson, 2014-04-15 Contemporary visions of the future have been shaped by hopes and fears about the effects of human technology and global capitalism on the natural world. In an era of climate change, mass extinction, and oil shortage, such visions have become increasingly catastrophic, even apocalyptic. Exploring the close relationship between science fiction, ecology, and environmentalism, the essays in *Green Planets* consider how science fiction writers have been working through this crisis. Beginning with H. G. Wells and passing through major twentieth-century writers like Ursula K. Le Guin, Stanislaw Lem, and Thomas Disch to contemporary authors like Margaret Atwood, China Miéville, and Paolo Bacigalupi—as well as recent blockbuster films like *Avatar* and *District 9*—the essays in *Green Planets* consider the important place for science fiction in a culture that now seems to have a very uncertain future. The book includes an extended

interview with Kim Stanley Robinson and an annotated list for further exploration of “ecological SF” and related works of fiction, nonfiction, films, television, comics, children’s cartoons, anime, video games, music, and more. Contributors include Christina Alt, Brent Bellamy, Sabine Höhler, Adeline Johns-Putra, Melody Jue, Rob Latham, Andrew Milner, Timothy Morton, Eric C. Otto, Michael Page, Christopher Palmer, Gib Prettyman, Elzette Steenkamp, Imre Szeman.

**Feminist Media** Elke Zobl, Ricarda Drüeke, 2014-04-30 While feminists have long recognised the importance of self-managed, alternative media to transport their messages, to challenge the status quo, and to spin novel social processes, this topic has been an under-researched area. Hence, this book explores the processes of women's and feminist media production in the context of participatory spaces, technology, and cultural citizenship. The collection is composed of theoretical analyses and critical case studies. It highlights contemporary alternative feminist media in general as well as blogs, zines, culture jamming, and street art.

*Cat Sense* John Bradshaw, 2013-09-10 Cats have been popular household pets for thousands of years, and their numbers only continue to rise. Today there are three cats for every dog on the planet, and yet cats remain more mysterious, even to their most adoring owners. Unlike dogs, cats evolved as solitary hunters, and, while many have learned to live alongside humans and even feel affection for us, they still don't quite “get us” the way dogs do, and perhaps they never will. But cats have rich emotional lives that we need to respect and understand if they are to thrive in our company. In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel the myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have been living

together for at least eight thousand years, cats remain independent, predatory, and wary of contact with their own kind, qualities that often clash with our modern lifestyles. Cats still have three out of four paws firmly planted in the wild, and within only a few generations can easily revert back to the independent way of life that was the exclusive preserve of their predecessors some 10,000 years ago. Cats are astonishingly flexible, and given the right environment they can adapt to a life of domesticity with their owners—but to continue do so, they will increasingly need our help. If we're to live in harmony with our cats, Bradshaw explains, we first need to understand their inherited quirks: understanding their body language, keeping their environments—however small—sufficiently interesting, and becoming more proactive in managing both their natural hunting instincts and their relationships with other cats. A must-read for any cat lover, *Cat Sense* offers humane, penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets' lives—and ours.

**Challenging the Dichotomy** Les Field, Cristobal Gnecco, Joe Watkins, 2016-12-06 *Challenging the Dichotomy* explores how dichotomies regarding heritage dominate the discussions of ethics, practices, and institutions. Contributing authors underscore the challenge to the old paradigms from multiple forces. The case studies and discourses, both ethnographic and archaeological, arise from a wide variety of regional contexts and cultures.
