Understanding Social Movements Greg Martin,2015-05 Understanding Social Movements offers a multidisciplinary introduction to the study of social and cultural protest and contentious politics. It combines a theoretical perspective and with a fascinating array of case studies. It covers religious movements; social welfare movements; struggles over space; law, crime and social movements; and media and movements. Other sections of the book discuss the origins of social movement studies and historical perspectives, social movements and political processes, new social movements, identity and cultural politics, and virtual networking and cyber protest. Case studies include the US civil rights movement, anti-globalization campaigns, and include further material from Europe, China, Latin America, Africa, India and the Middle East--

**Postanarchism** Saul Newman,2015-12-01 What shape can radical politics take today in a time abandoned by the great revolutionary projects of the past? In light of recent uprisings around the world against the neoliberal capitalist order, Saul Newman argues that anarchism - or as he calls it postanarchism - forms our contemporary political horizon. In this book, Newman develops an original political theory of postanarchism; a form of anti-authoritarian politics which starts, rather than finishes, with anarchy. He does this by asking four central questions: who are we as subjects; how do we resist; what is our relationship to violence; and, why do we obey? By drawing on a range of heterodox thinkers including La Boétie, Sorel, Benjamin, Stirner and Foucault, the author not only investigates the current conditions for radical political thought and action, but proposes a new form of politics based on what he calls ontological anarchy and the desire for autonomous life. Rather than seeking revolutionary emancipation or political hegemony, we should affirm instead the non-existence of power and the ever-present possibilities of freedom. As the tectonic plates of our time are shifting, revealing the nihilism and emptiness of our political and economic order, postanarchism's disdain for power in all its forms offers us genuine emancipatory potential.

US Defense Politics Harvey M. Sapolsky,Eugene Gholz,Caitlin Talmadge,2008-08-06 This new textbook seeks to explain how US defense and national security policy is formulated and conducted. The focus is on the role of the President, Congress, political partisans, defense industries, lobbies, science, the media, and interest groups, including the military itself, in shaping policies. It examines the following key themes: US grand strategy; who joins America's military; how and why weapons are bought; the management of defense; public attitudes toward the military and casualties; the roles of the President and the Congress in controlling the military; the effects of 9/11 on security policy, homeland security, government reorganizations, and intra- and inter-service relations. The book shows how political and organizational interests determine US defense policy, and warns against the introduction of centralising reforms. In emphasizing the process of defense policy-making, rather than just the outcomes of that process, this book signals a departure from the style of many existing textbooks.

**Utopia/Dystopia** Michael D. Gordin,Helen Tilley,Gyan Prakash,2010-08-23 The concepts of utopia and dystopia have received much historical attention. Utopias have traditionally signified the ideal future: large-scale social, political, ethical, and religious spaces that have yet to be realized. Utopia/Dystopia offers a fresh approach to these ideas. Rather than locate utopias in grandiose programs of future totality, the book treats these concepts as historically grounded categories and examines how individuals and groups throughout time have interpreted utopian visions in their daily present, with an eye toward the future. From colonial and postcolonial Africa to pre-Marxist and Stalinist Eastern Europe, from the social life of fossil fuels to dreams of nuclear power, and from everyday politics in contemporary India to imagined architectures of postwar Britain, this interdisciplinary collection provides new understandings of the utopian/dystopian experience. The essays look at such issues as imaginary utopian perspectives leading to the 1856-57 Xhosa Cattle Killing in South Africa, the functioning racist utopia behind the Rhodesian independence movement, the utopia of the peaceful atom and its global dissemination in the mid-1950s, the possibilities for an everyday utopia in modern cities, and how the Stalinist purges of the 1930s served as an extension of the utopian/dystopian relationship. The contributors are Dipesh Chakrabarty, Igal Halfin, Fredric Jameson, John Krige, Timothy Mitchell, Aditya Nigam, David Pinder, Marci Shore, Jennifer Wenzel, and Luise White.

**Imagining Surveillance** Peter Marks,2015-06-23 Critically assesses how literary and cinematic eutopias and dystopias have imagined and evaluated surveillance.Imagining Surveillance presents the first full-length study of the depiction and assessment of surveillance in literature and film. Focusing on the utopian genre (which includes positive and negative worlds), this book offers an in-depth account of the ways in which the most creative writers, filmmakers and thinkers have envisioned alternative worlds in which surveillance in various forms plays a key concern. Ranging from Thomas Mores genre-defining Utopia to Spike Jones provocative film Her, Imagining Surveillance explores the long history of surveillance in creative texts well before and after George Orwells iconic Nineteen Eighty-Four. It fits that key novel into a five hundred year narrative that includes some of the most provocative and inventive accounts of surveillance as it is and as it might be in the future. The book explains the sustained use of these works by surveillance scholars, but goes much further and deeper in explicating their brilliant and challenging diversity. With chapters on surveillance studies, surveillance in utopias before Orwell, Nineteen Eighty-Four itself, and utopian texts post-Orwell that deal with visibility, spaces, identity, technology and the shape of things to come, Imagining Surveillance sits firmly in the emerging cultural studies of surveillance.Key Features:The first sustained account of the representation of surveillance in eutopian and dystopian literature and filmCharts surveillances historical development and creative responses to that developmentProvides a detailed critical account of the ways that surveillance studies has utilised utopias to formulate its ideasOffers new readings of literary texts and

films from Mores Utopia through George Orwells Nineteen Eighty-Four to Margaret Atwoods Oryx and Crake and films from Fritz Langs Metropolis to Neil Blomkamps Elysium and beyond

*Global Catastrophes* Bill McGuire,2014 Life on Earth will come to an end. It's simply a matter of when and how. From the likely consequences of climate change to the inevitable destruction of the earth in the far future, this 'Very Short Introduction' covers a range of 'end of the world scenarios', including Greenhouse Earth, another Ice Age, asteroid and comet impact, supervolcanoes, and mega-tsunami. Exploring the potential catastrophes that face the planet, Bill McGuire assesses both the probability of these events and our chances of survival. This new edition brings our understanding of global disasters and risk research up-to-date, by using recent case studies from around the world, and incorporating recent research on climate change and threats from space--Cover flap.

**Postmodern Anarchism** Lewis Call,2002 Delving into the anarchist writings of Nietzsche, Foucault, and Baudrillard, and exploring the cyberpunk fiction of William Gibson and Bruce Sterling, theorist Lewis Call examines the new philosophical current where anarchism meets postmodernism. This theoretical stream moves beyond anarchism's conventional attacks on capital and the state to criticize those forms of rationality, consciousness, and language that implicitly underwrite all economic and political power. Call argues that postmodernism's timely influence updates anarchism, making it relevant to the political culture of the new millennium.

**Unstable Universalities** Saul Newman,2007 Explores the theory from political continental thinkers such as Badiou, Zizek, Hardt, Negri, Agamben and Laclau and applies it to real issues, drawing examples from the contemporary world such as the 'war on terror', the anti-globalization movement and transnational activism, the wars in Iraq and Afghanistan.

*Film in Australia* Albert Moran,Errol Vieth,2006-10-10 Publisher description

*Hactivism and Cyberwars* Tim Jordan,Paul Taylor,2004-03-01 As global society becomes more and more dependent, politically and economically, on the flow of information, the power of those who can disrupt and manipulate that flow also increases. In Hactivism and Cyberwars Tim Jordan and Paul Taylor provide a detailed history of hacktivism's evolution from early hacking culture to its present day status as the radical face of online politics. They describe the ways in which hacktivism has re-appropriated hacking techniques to create an innovative new form of political protest. A full explanation is given of the different strands of hacktivism and the 'cyberwars' it has created, ranging from such avant garde groups as the Electronic Disturbance Theatre to more virtually focused groups labelled 'The Digitally Correct'. The full social and historical context of hacktivism is portrayed to take into account its position in terms of new social movements, direct action and its contribution to the globalization debate. This book provides an important corrective flip-side to mainstream accounts of E-commerce and broadens the conceptualization of the internet to take into full account the other side of the digital divide.

**The Star Machine** Jeanine Basinger,2009-01-06 ONE OF THE HOLLYWOOD REPORTER'S 100 GREATEST FILM BOOKS OF ALL TIME • From one of our most distinguished film scholars, comes a rich, penetrating, amusing book about the golden age of movies and how the studios worked to manufacture stars. With revelatory insights and delightful asides, Jeanine Basinger shows us how the studio “star machine” worked when it worked, how it failed when it didn't, and how irrelevant it could sometimes be. She gives us case studies focusing on big stars groomed into the system: the “awesomely beautiful” (and disillusioned) Tyrone Power; the seductive, disobedient Lana Turner; and a dazzling cast of others. She anatomizes their careers, showing how their fame happened, and what happened to them as a result. Deeply engrossing, full of energy, wit, and wisdom, The Star Machine is destined to become an classic of the film canon.

Lets delve into the realm of bestselling books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
