**MiniEco** Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

**Typographic Systems of Design** Kimberly Elam,2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.

**Fractured Realms** Horrified Press,2014-06-15 Extraordinary people marked 'not normal' come from all different walks of life. For far too long, a shroud of darkness was thrown over those who've had boundless potential to transcend greatness; shunned and cast out through the misjudgment forced upon them. People enduring isolation from being trapped inside their own minds. People labeled with an ASD-Autism Spectrum Disorder. Seeds of greatness cannot be cultivated through judgment and condemnation. Imagine a world never having heard the music of Wolfgang Amadeus Mozart? Never seeing the extraordinary art of Michelangelo? What if Sir Isaac Newton hadn't discovered gravity, and laws of motion that would be relevant 300 years later? And for all the writers out there...were you aware that Lewis Carroll-author of 'Alice in Wonderland'-fell under the umbrella of Autism? So to all of you, who are reading this, ask yourself... Is Autism a disorder, or is it a gift? Through their short stories and poetry, a collection of talented authors have tackled that question.
